[The amendments made to the Regulations of 1914 are denoted by a black line in the margin. As some typographical errors may have occurred in publication, it is requested that, should any be discovered, they may be at once pointed out, in writing, to the Under-Secretary of State, The War Office.]

REGULATIONS FOR THE EQUIPMENT OF THE ARMY, 1926.

PART 3.—TERRITORIAL ARMY.

SECTION I.—GENERAL REGULATIONS.

CARE AND CUSTODY OF PUBLIC EQUIPMENT.

1. The term "public equipment" relates to all stores (such as arms, ammunition, harness, saddlery and packsaddlery, ordnance, vehicles and technical military equipment) issued in kind and maintained by the Government, for which an equipment account has to be rendered to local auditors for audit on behalf of the War Office. Articles such as clothing, personal equipment, and certain articles of minor importance, which are provided or maintained by County Associations out of money grants allotted to them, do not fall within the category of public equipment.

2. A County Association is responsible to the Army Council for all public equipment supplied to units administered by the Association. The C.O. of a unit will, on behalf of the County Association, be responsible that all public equipment supplied for the use and equipment of his unit is maintained in a serviceable condition, complete in all details and in the authorized proportions.

A.O. 75 1924

3. C.Os. of units will render a report on A.F. G 919 on the first of each month to the D.A.D.O.S. of the area, showing action taken to carry out alterations to patterns of public equipment on their charge ordered by List of Changes in War Materiel, Army Orders, or other War Office authority.

4. Initial issues, and replacements of all stores and clothing except ankle boots, will be made by the R.A.O.C.

5. The C.O. will make, or cause to be made, frequent inspections of the whole of the equipment for which he is responsible,

Digitized by Google

and if any defects are discovered will take steps to remedy them. Should any men be absent from the inspection a certificate will be furnished by the C.O. (or, in the case of yeomanry or infantry, by the squadron or company commander) that the arms allotted to such men have been inspected, and that they are in an efficient condition; this certificate will be appended to the report made by the officer who carries out such inspection.

6. An officer on assuming command, and thereafter annually during October, will ascertain by inspection and stocktaking carried out either by himself or by an officer acting under his authority, the actual state of the public equipment on charge, satisfying himself that the articles agree in quantity with those shown in the equipment account, that all the equipment is properly appropriated, that it is in a thoroughly serviceable condition and complete in all details, and that it is under proper protection, and in all respects in accordance with the orders of the Army Council.

Any surpluses, if the relative receipt vouchers cannot be traced, will be brought on charge and any deficiences adjusted in accordance with paragraphs **27** to **34**. 26 Regs. 165

Articles of public equipment must on no account be taken into private use by individuals.

The formal receipts given by the men allowed to retain arms under paragraph **63** will not be regarded as dispensing with the actual production of the arms when stocktaking is being carried out.

7. On a change of command of a unit, a certificate in triplicate, in the form given in Appendix I, as to the state of the equipment, signed by the outgoing C.O. and the next senior officer upon whom the command devolves, will be forwarded to the G.O.C.-in-C. One copy of the certificate will be transmitted by the G.O.C.-in-C. to the local auditor, the duplicate will be sent to the Secretary of the County Association concerned, and the triplicate will be returned to the officer assuming command, to accompany his equipment account. A.O. 247 1923

Should the officer temporarily taking over the command be appointed C.O., no further certificate will be necessary.

Should another officer be appointed, a similar certificate, signed by himself and the officer temporarily in command, will be forwarded by the former to the G.O.C.-in-C.

When deficiencies or damages are discovered on the transfer of the public equipment, the value of the articles deficient, or the cost of making good the damages will be recovered from the officer giving over the command, unless relieved of the responsibility by superior authority. 26 Regs. 257

8. Should a difference of opinion exist between C.Os., on the occasion of transfer of public equipment, as to the state, quantity, or description of the articles to be transferred, application will be

Digitized by Google

made to the G.O.C., by either of the officers concerned, for the assembly of a board of officers to investigate and report on the matter.

9. No trials or experiments involving the use of any article of public equipment will be made without first obtaining the sanction of the Army Council through the G.O.C.-in-C.

10. All communications connected with the supply of equipment, whether authorized by, or in excess of regulations, will be addressed to the D.A.D.O.S. of the area, or, in the case of mechanical transport stores, to O.C., M.T. Stores Depot, who will, if necessary, take the orders of superior authority on the subject.

INDENTS AND ESTIMATES FOR PUBLIC EQUIPMENT.

11. Indents for R.A.O.C. stores will be forwarded in duplicate to the D.A.D.O.S. of the area on the undernoted Army Forms :—

A.F. G 812 for S.A.A.
,, 988 for gun and howitzer ammunition.
,, 968 for camp equipment.
,, 997 for other stores.
,, 997 for clothing and necessaries.

Indents for M.T. stores will be submitted in accordance with paragraph 769, Regulations for Supply, Transport and Barrack Services, 1915.

A separate sheet of A.F. G 997 will be used for each vocabulary sub-section, and each sheet will bear the regimental or corps office stamp.

When garments of special sizes are required, A.F. H 1119 detailing the measurements must accompany the indent.

The instructions for the preparation of the indents printed on the army forms will be strictly adhered to.

12. All indents for public equipment will be signed by the O.C. the unit, or by an officer acting on his behalf, and will be made in sufficient time to allow of the issue or exchange of the stores without difficulty by the date they are required.

13. Indents for public equipment to replace articles deemed unserviceable will not be made until the C.O. has satisfied himself that the articles are thoroughly unserviceable or cannot be repaired by the means at his disposal.

14. In the case of units having outlying detachments, the indents will be made by the O.C. the unit, who will state to what place or places the articles are to be sent. The vouchers will be signed by the O.C. such detachments, and sent to the O.C. the unit, to be countersigned by him, or, in his absence, by the adjutant.

Digitized by Google

15. When stores are to be drawn by troops direct from an ordnance depot, the issue vouchers will be sent as a notification that the stores are ready for removal. Units will then arrange for the conveyance of the stores, and will produce the vouchers when applying for them.

16. Stores and equipment other than public equipment and those mentioned in paragraphs **58** and **77** may be supplied on repayment to County Associations at the rates prescribed in the Priced Vocabulary of Stores subject to the following conditions and restrictions :—

(1) That the articles demanded are not ordinarily obtainable from outside sources and are of an exclusively military nature, necessitating standardization of pattern or expert technical inspection.

57
M.I.
424

(2) The articles demanded are solely for use of units of the Territorial Army and will not be used for any private purpose.

(3) The articles purchased will be retained, so long as they are serviceable, as Association property, and will not be disposed of until worn out.

(4) The units for which articles are required will be shown on the indents, and the stores, etc., demanded must be of pattern identical to, or of a kindred nature to, those supplied under Equipment Regulations to corresponding units of the regular army. The numbers required must not be in excess of the proportions authorized by the scales of equipment.

War Office approval must be obtained prior to issues being made when :—

(1) The articles demanded are of a new pattern which is being gradually introduced into the regular army and has not been authorized for issue to Territorial Army units.

(2) The articles demanded are intended to supplement scales of which free issues are made or to anticipate such free issues (except as provided for in paragraphs **19, 74** and **192**).

(3) The articles are included in the Barrack and Hospital Schedules.

Applications should be addressed to the D.A.D.O.S. of the area, or, in the case of mechanical transport stores, to O.C., M.T. Stores Depot, and they should contain full details of the reasons which render them necessary.

The following will not be supplied :—

(1) Articles of an experimental pattern under trial in the regular army.

Digitized by Google

(2) Articles of a special pattern not in general use in the regular army.

(3) Explosives and gun ammunition.

All indents for issues on repayment must be signed by the secretary of the County Association concerned and be headed in red ink with the words "On Repayment." If it is desired that the stores should be distributed by the R.A.O.C. or M.T.S.D. to units, or detachments of units, a detailed distribution list with full consignment particulars must accompany the indent.

17. Service pattern articles which form part of the regulation field kit of an officer of the Territorial Army, and are required for his personal use, may be issued on prepayment. (*See* Regulations for the Territorial Army.) Such issues, however, must be confined to articles which are not provided for his use on mobilization at the public expense.

18. The value of stores issued on repayment will be recovered by the command paymaster of the command in which the Association indenting for the stores is located, except in the case of issues from Woolwich Arsenal, for which recovery will be made by the Paymaster, Woolwich Arsenal. Priced vouchers on A.F. G 982 will be rendered by the R.A.O.C. as follows:—

(*a*) Three copies to the County Association, who will add their receipt (or that of the unit, if the stores are delivered direct to the unit) on one copy, and forward it to the command paymaster, with the amount shown thereon.

9 Gen. No. 776

(*b*) Two copies to the command paymaster, or Paymaster, Woolwich Arsenal, who will forward one copy as a claim to the Association, and retain the other as a voucher to the cash account. The voucher bearing the Association's (or unit's) receipt should be returned to the R.A.O.C. by the paymaster, with a reference to the cash credit.

In the case of stores issued under paragraphs **17**, **58** and **84** the issues will be on prepayment, and the vouchers in triplicate will be forwarded to the unit, who at the time of making payment will forward two of the copies of the voucher to the command paymaster, who will retain one as a voucher to the cash account and return the other to the R.A.O.C. with a reference to the cash credit. The stores will then be issued and the receipt of purchasers obtained.

The cost of carriage of any stores issued by the R.A.O.C. as initial issues ordered by the War Office will be chargeable to army funds.

26 Regs. 165

The cost of carriage of any stores issued on repayment, whether to County Associations or individuals, will not be defrayed from army funds.

19. Stores required by County Associations for the care, repair, replacement or maintenance of authorized equipment may be obtained from the R.A.O.C. on repayment, subject to the conditions laid down in paragraph **16**.

Digitized by Google

RECEIPT OF STORES.

20. When equipment is received by the troops, the officers or others receiving it will, before giving a receipt to the carrier, ascertain that the various packages are in good order and condition, and that sealing labels, where used, are not broken, but, whether in external good order or not, all packages must be immediately weighed and compared with the weight marked on the outside.

Should the weights differ, or packages appear to have been tampered with or damaged in transit, the contents will be examined and compared in the presence of the carrier's representative with the packing note which each package should contain. Any damage or deficiency must be recorded on the carrier's note or bill of lading, and confirmed in writing on A.F. G 978.

Where it is not possible to comply with these instructions in full, the receipt given will be qualified by the term "Unexamined." The stores will be examined as soon as possible, and should any deficiencies or breakages not due to faulty packing be then discovered, the consignee should immediately inform the railway company or carrier delivering the goods and the R.A.S.C. officer i/c Transport of his sub-district, confirming any verbal report on A.F. G 978 within three days after the delivery of the stores by the railway company or carrier. In any case in which a unit or department is not at the time in possession of A.F. G 978 the report will be made by letter. In cases of non-delivery of a whole consignment the railway company must, under railway by-laws, be notified in writing within 14 days of the date of despatch; but, to avoid any possibility of the period allowed by the railway companies being exceeded, a preliminary notification should be sent to the railway company by the consignee within 12 days. Unless such written notification is given within the prescribed periods, it may not be possible to enforce the claim against the company. Notification of the damage, discrepancy or non-delivery, and the action taken thereon, should also be made to the R.A.S.C. officer i/c transport of the consignor's sub-district or (in cases in which that officer is not concerned) to the consignor who will take the matter up with the forwarding railway company, recovering in due course the value of any goods short delivered or the cost of making good any damages.

26 Regs. 164

21. The stores will be carefully inspected, to verify that the articles delivered agree with the particulars in the vouchers and that they are correct in point of quality and pattern. Articles received by number and weight will be both counted and weighed. When there is no discrepancy the vouchers will be completed in right-hand bottom corners, and the duplicate copy signed and returned to the O.O. at once. The receipted vouchers (unless a discrepancy has been reported) will be sent off within 48 hours of the delivery of the consignment.

Digitized by Google

26 Regs. 164.

22. Should the precautions in the preceding paragraphs be omitted, the officer receiving the stores will render himself liable for any discrepancies.

23. When discrepancies are found to exist between the quantities or descriptions of stores actually received and those charged, a discrepancy report on A.F. G 985, in duplicate, accompanied by packing notes, will be sent to the consignor. The fullest information will be given thereon, all numbers and weights, and any marks upon the packages giving evidence of their having been tampered with being carefully recorded. The packages, with their notes and all wrappers, will be retained until the inquiry closes. The original copy of the discrepancy report, with the subsequent correspondence, will be attached to the receipt voucher in support of the alterations made therein. The original entry in the consignor's ledger will be allowed to stand. The duplicate copy of the discrepancy report, showing how the discrepancy has been adjusted, will be attached by the consignor to the issue voucher. The numbers and descriptions of stores actually received will be brought to account, and a receipt given to the consignor for these numbers and descriptions only, except where it is clear that the full numbers charged were actually issued by the consignor, and it is also evident to the consignee how the deficiency has arisen, *e.g.*, a loss from a sling in unloading a vessel, the matter will be dealt with by the consignee in accordance with King's Regulations, a clear receipt being given to the consignor and a copy of A.F. G 998 recording the decision being attached to the receipt voucher by the consignee.

If the discrepancy be admitted by the consignor, his account will be adjusted by certificate receipt or issue voucher for the numbers over or under charged, a reference being given upon the certificate voucher to the original issue voucher, and upon the original issue voucher to the certificate voucher.

When the consignor cannot admit that the consignee's report of the discrepancy represents the actual issue, the matter will be dealt with by the consignor, and in the case of deficiencies action will be taken in accordance with King's Regulations and the consignee notified to this effect on the original copy of the discrepancy report. A copy of A.F. G 998 on which will be recorded the decision of the superior authority or of the War Office, will be attached to the issue voucher by the consignor.

24. Objections that may arise on the ground of equipment being of an inferior quality or of an obsolete pattern, or for any other cause, will, if possible, be made by the C.O. to the D.A.D.O.S. of the area before the articles are taken on charge, as after the receipt has been signed the responsibility for the condition of the articles will devolve upon him. Serviceable articles are not to be objected to on account of their being part worn.

Digitized by Google

25. A C.O. in receipt of articles of equipment which are not brought on charge, will, pending the result of a report on their condition, be held responsible for their safe custody until a decision has been given as to their disposal, when he will either take them on charge or return them to store, as may be ordered. He will also be held responsible for the immediate return to store of any equipment issued to him which, in cases of emergency, he may be unable to take on charge. Should he fail to carry out these instructions, he will be liable for any loss that may ensue. 26 Regs. 103

26. The hermetically closed cases in which fuzes, tubes, and certain other articles are issued will not be opened until the contents are required for use. These cases with their contents, as well as packages containing small-arm ammunition and gunpowder, will be taken on charge unopened. Any defects or discrepancies which may be discovered when the stores are subsequently inspected or used will be at once reported, and all details upon the cases will be quoted.

DAMAGES AND DEFICIENCIES.

27. When public equipment is lost, stolen, destroyed, or damaged, and it is a matter for consideration on whom the expense of repairing or replacing it should fall, owing to the responsibility not being clear or the charge being demurred to by the person held responsible, or for other reasons, the C.O. will make a full enquiry into the circumstances, and forward a report thereon, with his recommendations as to any recoveries which he considers should be effected from the individual or individuals concerned, to the D.A.D.O.S. of the area or O.C., M.T.S.D., for submission to the G.O.C.-in-C. The report will be accompanied by a list of the damaged or deficient stores on A.F. G 998 duly completed in strict accordance with the instructions contained thereon. The damage or loss will be assessed as provided for in paragraph **29**. 26 Regs. 385

The account will at once be provisionally adjusted by a certificate issue voucher, briefly detailing the circumstances of the loss, and the action taken for investigation. The authority for the write-off, when obtained, will be attached to the certificate issue voucher. 26 Regs. 103

In the case of loss by theft or suspected theft the police should at once be informed and their report attached to A.F. G 998. 54 Gen. 5704

28. When the G.O.C.-in-C. decides the action to be taken in the case, the date and registered number of such decision will be quoted on the indent on the R.A.O.C. or M.T.S.D. for any stores required in replacement. When the case is referred to the War Office for decision, indents for the stores required in replacement may be put forward on the R.A.O.C. or M.T.S.D. without waiting for the decision of the War Office in the matter, but the date and number

Digitized by Google

of the letter from the G.O.C.-in-C. to the War Office will be quoted on the indents.

29. When public equipment is lost or rendered unserviceable by neglect or culpable mismanagement, or if arms are rendered unserviceable by the use of ammunition not of Government issue (*see* paragraph **203**), charges will be made against the individual responsible, for such amount as may be assessed by the County Association, or the O.C. the unit on its behalf, due regard being paid to the condition of the article according to the best evidence obtainable.

A.O. 43 1922

Charges will be as follows :—

(*a*) *Repairable damage.*—Actual cost of repair, including both wages and materials, or components. Materials and components will be charged at the vocabulary rates. If the cost of repair exceeds the amount which would have been chargeable had the article been damaged beyond repair, the County Association may, at its discretion, authorize the less amount to be charged against the soldier. As regards small arms, the charges will be in accordance with the scale laid down in paragraph **31**.

(*b*) *Loss or damage beyond repair.*—75 per cent. of the vocabulary rate for the article, unless it is established by evidence that the actual value* is less. In that event, the nature of the evidence will be indicated on the voucher and the actual value will be charged.

54 General 5897

30. If it is proposed to allow any portion of the loss to fall on the public the matter must be dealt with under King's Regulations.

A.O. 170 1922

31. Charges for repairs and damages specified below will be made in accordance with the following scale :—

A.O. 170 1922

	s.	*d.*
Rifles—		
Barrel cut or badly rusted but not unserviceable...	2	0
Barrel cord worn at muzzle or breech but not unserviceable	2	0
Barrel cord worn at muzzle and breech but not unserviceable	4	0
Barrel slightly rusted (to be cleaned by an instructor who is in possession of a small-arms certificate, and amount credited to the public)	0	8
Barrel dirty	0	4
(When cleaning by examiner is found to be necessary before sentence can be given)		
Pistol, barrel	2	0
„ cylinder	1	6

57 S.A. 107

54 General 5897,

* Actual value means the value *to the Department* and not the disposal value. It will be determined by assessing the article at some definite proportion of its vocabulary price.

Digitized by Google

	s.	d.
Swords, bayonets and dirks—all patterns—		
Blade bent, slightly cut on edge or rusty ...	1	0
Rusty or damaged hilts or sockets...	2	0
Scabbards, leather, bayonet	1	0
Scabbards, steel—all patterns—		
Rusty or dented (or both)	1	0

Charges for deficiencies or for articles rendered unserviceable through unfair wear will be assessed in accordance with paragraph **29**.

32. Articles of public equipment which are lost and not chargeable against the public will be paid for, and struck off charge in the equipment account by A.F. P 1925. The value will be paid to the cashier of the command, and the voucher striking them off will be signed by the command paymaster, who will give a reference to the cash account in which the value will be found credited to the public.

When articles of public equipment rendered unserviceable are not chargeable against the public, a similar reference will be given, but the unserviceable articles will be returned to the ordnance depot. The indent for new stores required to replace those lost or destroyed will also give a reference to the expense voucher by which the latter are struck off. These indents should be rendered quarterly from the 1st January.

33. Should any deficient articles for which a charge has been made be subsequently recovered, a refund of the amount paid may be made if authorised by the Divisional Commander, Cavalry Brigade or Air Defence Brigade Commander, or the Colonel, R.A., or C.E. on Command Staff. The refund will be supported by a reference to the cash credit, and to the voucher and account by which the returned articles have been brought on store charge. 26 Regs. 253

34. Claims against units for deficiencies or damages of public equipment which cannot be borne by the public will be made through the County Association concerned, who will take the necessary steps for recovery from those actually responsible for the loss or damage. (*See also* Regulations for the Territorial Army.)

RETURN OF EQUIPMENT INTO STORE.

35. Whenever it becomes necessary or advisable to return equipment to the R.A.O.C., or O.C., M.T.S.D., C.Os. will make application to the D.A.D.O.S. of the area or O.C., M.T.S.D., to receive them, stating their description, number, and the reasons and authority (if any) for returning them to store. The D.A.D.O.S., or O.C., M.T.S.D., will add his instructions and return the document to the unit, by whom it will be attached to the voucher on which the stores are charged to the R.A.O.C. or M.T.S.D.

36. Issues of public equipment to replace similar unserviceable articles in possession of a unit will not be made, except in the case

Digitized by Google

of M.T. stores, until the unserviceable articles have been returned to the R.A.O.C., inspected, and condemned.

37. No articles will be returned into store on account of being of an obsolete pattern without the authority of the D.A.D.O.S. of the area, or O.C., M.T.S.D.

38. When stores are returned to the R.A.O.C., or to M.T.S.D., vouchers will be prepared by carbon process on A.F. G 1033 and forwarded in triplicate. A packing note, A.F. G 1028, giving a detail of the contents, signed by the packer, and also by the person witnessing the packing, will be placed in each package. A separate voucher will be prepared for each vocabulary sub-section, and each sheet will bear the regimental or corps office stamp. The W.D. registered number (or, if such does not exist, the maker's name and number) of any of the stores detailed in Appendix XIX will be inserted on the vouchers and packing notes. In the event of any of these articles having no such number, the remark " No identification mark exists " will be entered. The vouchers will be signed by the consignor, and one copy, duly signed by the consignee, will be returned as soon as practicable after the stores have been received. When stores are passed to other accountants, the vouchers will be forwarded in duplicate only.

57 Gen. No. 3084

Packages (including sacks used for packing purposes) will be charged or mentioned on the same voucher as the stores that are contained in them. In the event of stores on two or more separate vouchers being contained in one package, the vouchers on which the stores are charged will give a reference to that on which the package is charged.

57 Gen. 3888

39. When stores are returned from a distance, vouchers will be sent by post on the same day that the stores are despatched to the O.O. or O.C., M.T.S.D., to whom they are consigned. The number and date of the order directing the return of the stores will be inserted in the headings of the vouchers, and a corresponding number and date will be conspicuously marked on the outside of each case or package, so as to enable the consignee to identify them immediately on receipt. The vouchers will also quote the number and date of the carriers or convoy note on which the stores were despatched. Each case, bale, or package will be weighed, and the weight marked upon it by the consignor prior to despatch.

40. Stores sent to the R.A.O.C. for repair should be clearly labelled "R.A.O.C. Workshops for Repair," and A.F. G 1045 must be submitted in triplicate to the D.A.D.O.S. of the area detailing the stores to be sent in for repair, and the nature of work to be executed.

26 Regs. 103

41. C.Os. are responsible that all packages (including sacks used for packing purposes) received with equipment of any kind are

Digitized by Google

handed over, as soon as they can be dispensed with, to the R.A.O.C., except in the case of M.T. store packages, when they will be handed over to M.T.S.D., and, if possible, without cost to the public. The packages will be addressed :—

The Ordnance Officer, or O.C., M.T.S.D.....
From the Officer Commanding.....

42. Where the cost of carriage of ammunition, stores, or equipment is payable by the public, a carrier's note (A.F. G 980 for stores, or G 996 for explosives), detailing the number and weight of the packages, bundles, and loose articles, as well as the number of articles in each bundle, will be sent to the local transport officer, who will arrange the mode of conveyance.

43. When stores and explosives are authorized by the D.A.D.O.S. to be returned to Woolwich or Weedon, application for instructions as to the mode of transport will be made to the Assistant Director of Military Transport, Royal Arsenal, or to the Transport Officer, Weedon ; the carrier's note will be made payable by " Transport, Royal Arsenal," or " Transport, Weedon," as the case may be.

44. When consigning stores, &c., C.Os. will arrange that packing cases and chests not securely fastened with hoop-iron bands are sealed with labels (A.F. G 1018), which will be securely pasted over the external junctions of the bottom and body, and lid and body of the cases, &c. The labels when put into use will, for identification purposes, be impressed with the consignor's regimental or office stamp.

57 Scottish 1906

These instructions will not apply to packages containing explosives already sealed with explosives labels, or to boxes containing such stores as horseshoes, nails, &c., which are not liable to theft.

45. The utmost vigilance is required on the part of officers returning stores, in order to guard against explosives being returned into ordinary store depots instead of into the magazines, as well as to preclude the possibility of matches, nails, etc., being left among stores of any kind. Particular attention will be paid to the inspection of personal equipment to see that no live rounds of S.A.A. are contained therein. Ball and blank small-arm ammunition should never be returned to store in the same package, nor should live ammunition of any description be packed with empty cartridge cases (*see* paragraphs **211** and **215**).

26 Regs. 47

46. If articles returned into store as unserviceable are found on receipt by the R.A.O.C. to be still serviceable or capable of repair, or if any of those which are unserviceable are considered to have become so from improper use or negligence, the D.A.D.O.S. will call upon the officer returning the stores to furnish an explanation, and, in the event of this not being satisfactory, the D.A.D.O.S. will bring the matter to the notice of the G.O.C. Should it be decided to return articles to the unit for further wear, the cost of carriage unnecessarily incurred will be claimed from the County Association.

Digitized by Google

PUBLIC EQUIPMENT ACCOUNTS.

47. An equipment ledger containing a record of all articles of public equipment, and of all ammunition supplied gratuitously, will be kept under the orders of the O.C. the unit. The ledger will at all times be kept posted strictly up to date.

Detailed instructions for keeping equipment ledgers are contained in Appendix II.

For the purposes of regimental equipment accounts the term "unit" may be defined as under:—

Yeomanry and Scouts	...	The regiment.
Infantry	...	The battalion.
All other units ...	...	The battery, company, etc.

When the equipment is not all located at the headquarters of the unit, a distribution book will be kept to show the manner in which the articles are allocated between the outlying squadrons, companies, or stations, as the case may be. A.F. G 1054 will be used for this purpose except by artillery units, who will use A.B. 183. In such cases a record of the equipment, duly certified by the officer in charge, will be kept at the station and will be forwarded to headquarters on 31st March for comparison with the distribution book and the equipment ledger of the unit. After verification it will be initialled by the adjutant or other responsible officer and returned to the officer in charge of the equipment.

57
Gen. No.
4379.

48. Camp equipment, issues on payment, and consumable stores (except ammunition, explosives and the consumable stores referred to in paragraph **51**) drawn periodically in regulated proportions, will not be shown in the account. Any quantities of consumable stores remaining unused at the end of the year will be shown as in possession in the indent for next year's supply.

49. All packages received containing clothing or stores will be accounted for as public equipment.

50. Stores sent to the R.A.O.C. for repair and return to the unit will not be struck off equipment ledger charge unless the D.A.D.O.S. of the area gives special instructions for vouchers to be passed. This course will, as a rule, only be necessary when stores are condemned as being beyond repair.

51. The whole of the consumable stores issued annually for the instruction of engineer units under Section X will be brought on equipment ledger charge by the unit. Quantities expended will be written off charge by expense vouchers upon the certificate of the C.O. that the expenditure has actually taken place.

Any unexpended balance remaining at the end of the training season may be retained towards meeting the following year's requirements, the quantities in hand being shown on the annual indent submitted to the D.A.D.O.S. of the area. Sandbags may be accumulated up to, but not exceeding, treble the quantities allowed as the annual supply.

Digitized by Google

52. Ammunition issued gratuitously for practice and exercise will be written off charge, when expended, by expense vouchers as follows :—

Army Form.	Ammunition, Unit, &c.
G 863	Gun ammunition for horse, field, medium, anti-aircraft and pack batteries. (To show full particulars of the allowance, ammunition used, authority for allowance, &c.)
P 1926	Gun ammunition expended under a money allowance by heavy batteries.
P 1925	Small-arm, machine gun ammunition and ·22-inch ammunition.

SECTION II.—ARMS.

ISSUE.

55. Arms of the description shown in Table 1 will be issued by the R.A.O.C.

They will be supplied only for the ranks detailed in that table, the total number issuable being limited to :—

(*a*) THE FULL ESTABLISHMENT OF SUCH RANKS — When the strength of the unit is equivalent to its approved establishment.

(*b*) THE ACTUAL STRENGTH plus 5 per cent. spare in the case of rifles or such additional numbers as the G.O.C.-in-C. may approve. — When the strength of the unit is below its approved establishment, provided always the maximum number issuable under (*a*) is not exceeded.

Unless War Office authority is first obtained, units will not be permitted to hold arms in excess of the maximum authorized establishment for whom arms are normally issuable under these regulations.

56. Sufficient arms will be maintained by the R.A.O.C. in each command to complete the war equipments of all units on mobilization.

Digitized by Google

57. The necessary adjustment in the number of arms held on charge will be made on the 1st of April of each year, according to the strength, exclusive of officers, shown on A.F. B 157B rendered on that date.

58.* Officers, Warrant Officers, N.C.Os. and men of the Territorial Army may obtain, on prepayment, rifles required for their personal use, under the conditions laid down in Appendix III.

26 Regs. 353

59. Bayonets will be maintained during peace in a sharpened condition. The sharpening of swords will be carried out after embodiment under arrangements to be made by the R.A.O.C.

CARE, CUSTODY AND INSPECTION.

60. All arms issued to units remain the property of the public, and the O.C. will take such precautions as shall prevent them being hired by or lent to other persons, or used for purposes other than those for which they were issued to the units.

61. The duty of selecting suitable armouries devolves upon County Associations. Armouries must be of sufficient size to contain all the arms of the unit or detachment of the unit to which they may be allocated. They should also be thoroughly dry and well aired, free from worm-eaten timber and be kept perfectly clean.

62. All the arms on charge of units, including those kept in private custody under paragraph **63**, will be inspected twice a year by the O.C., or by an officer deputed by him. Steps will be taken for replacing any deficient or unserviceable stores by indents upon the D.A.D.O.S., and for payment of the value of deficiencies and damages as directed in paragraph **32**. One of these inspections must take place between the 1st and the 31st October.

26 Regs. 261

63. The arms will be deposited after drill in the armouries of the units, except when (subject to any orders issued by the G.O.C.-in-C. the command or G.O.C. district) the C.O. gives a written permission to members to take custody of their arms at their own houses.

Such permission does not relieve the C.O. of his responsibility for these arms. It will be given with care, and may be withdrawn at the discretion of the C.O. The arms should be called in during times of riot or of anticipated disturbance.

Arms retained in private custody will be subject to inspection at any time by the brigade commander, and must always be produced for inspection as required by paragraphs **5**, **6** and **62**. In any case in which the arms are neglected the discretionary power granted to the C.O. in this paragraph will be withdrawn.

64. A record will be kept in each armoury of all articles of public equipment issued therefrom to individuals.

* Issue of rifles on prepayment is temporarily suspended.

Digitized by Google

Except where a central armoury exists for the whole unit, this record will be kept by squadron or company commanders in A.B. 316A, a separate book being used for each company, &c. In central armouries the record will be kept by the O.C. the unit in A.B. 316. The keeping of the record by a company officer will not in any way relieve the C.O. of his responsibility as laid down in paragraph 2.

Soldiers to whom public equipment is issued under the authority contained in paragraph 63 should be warned that they are individually responsible for keeping such equipment in good order and condition, and for producing it when required. Their responsibility in the matter will continue until the equipment has been returned to the custody of the unit, and duly entered and signed for in the army book above mentioned.

65. Drill purpose arms must not be used for ball firing, and no charge for damages to them will be made, except for such as are manifestly wilful.

ARMS.—EXAMINATION, REPAIR, BROWNING, AND CLEANING.

69. A certified instructor will examine thoroughly every arm in possession of the unit once every three months; will keep a record of the condition of the arms; will make detailed reports to the C.O., who will be held responsible that the duties of the instructor are properly performed; and will execute such minor repairs as are laid down in the code of instructions he has received at Enfield Lock.

70. When arms require repairs at times other than those specified in paragraph 87, either on account of fair wear or accidental injury, and repairs are such as cannot be executed in accordance with paragraph 69, the circumstances will be reported at once to the D.A.D.O.S., who will take the necessary steps to have the repairs executed. When the cost of such repairs is recoverable through the County Association, the cost of carriage will also be defrayed by the Association.

71. No repairs to arms of any kind will be executed by soldiers (other than certificated instructors), or by any civilian employed by them. Tampering with Government arms is a serious breach of discipline, and will render any man who may be guilty of it liable to punishment. Any rifles which, on inspection, may be found to have had their actions or any other parts improperly altered will be at once returned into store, and repaired at the expense of the unit.

72. A copy in large characters of paragraph 71 will be affixed to the door of all armouries and drill sheds, together with a notice that permission to keep his rifle in private custody will be at once withdrawn from any man who may offend against the regulation above quoted.

Digitized by Google

73. Great attention must be paid to the proper cleaning and care of the arms, instructions for which will be found in Small Arms Training, Volume I.

C.Os. will caution their men that any neglect in this respect may be attended with danger to themselves, and will impair the accuracy of the weapon as well as render the unit or themselves liable for the cost of any repairs or removal of rust or dirt that may be found necessary on the inspection of the arms. Arms will be cleaned immediately after use.

All arms must on first issue be thoroughly cleaned before being placed in the hands of the troops.

74. The following scale of material for cleaning, lubricating, and preserving small-arms will be issued free, once per annum :—

SECTION, B. 3.		For each 100 stand of arms.
Flannelette	... yards 350	
Jute	... hanks ½	
Wire, armourers, brass ...	... ozs. 2	
SECTION No. 9A.		
Mineral jelly, red*	... lbs. 2	
Oil, lubricating, G.S.* ...	... pints 15	
N.I.V.		
Sheeting, old	... lbs. 8	

Should any further supplies be required they must be obtained from the R.A.O.C. on repayment.

75. Should a C.O. doubt whether arms of any description under his charge are serviceable, he will report the matter, stating the reasons for his opinion, to the D.A.D.O.S. of the area.

Testing weapons of any kind in charge of troops, except as provided in Small Arms Training, Volume I, is strictly forbidden.

Ammunition obtained from the R.A.O.C. will alone be used.

76. When arms are removed from the arm-chests care must be taken not to damage the chest fittings. When the fittings appear to have been injured by unfair treatment, their value will be charged against the unit concerned.

77. In the event of a soldier of the Territorial Army desiring to have a new barrel fitted to his rifle at his own expense, he may apply, through his C.O., to the Chief Inspector of Small-Arms, Enfield Lock, who, if circumstances permit, will arrange to carrry out the work. The cost of carriage both ways, in addition to the

* No oil, &c., except that supplied by the R.A.O.C., will be applied to small-arms under any circumstances.

Digitized by Google

cost of the new barrel and the labour expended in fitting it, will be defrayed by the soldier.

VIEWING PRIVATE ARMS.

80. Any private arm of Government pattern which it may be desired to use in shooting matches, or any new barrel that may be required for such arm to replace a worn-out barrel, may be inspected by the Chief Inspector of Small-Arms. Application will be made by the owner of the arm or barrel through his C.O. to the Chief Inspector of Small-Arms, Royal Small-Arms Factory, Enfield Lock, who will cause it to be viewed. The name of the maker from whom the rifle or new barrel has been ordered will be stated in the application.

81. A charge of one shilling for each arm, and sixpence for each barrel viewed, will be made against the owner, in addition to the cost of carriage to and from the Small-Arms Factory.

82. A certificate to the following effect will be returned with each arm viewed and passed:—

"This is to certify that the* barrel (and breech action) submitted by
has been viewed and found to be correct and in conformity with the Government pattern so far as regards length, weight, bore, rifling, form of chamber (and fitting of breech action); that it takes the Government ammunition and that it may be used in any match restricted to Government military rifles of this pattern."

COMPONENTS AND TOOLS FOR REPAIRS AND CLEANING.

83. The proportions of components of arms detailed in Table 21 will be issued on demand to enable instructors to execute repairs, provided the conditions prescribed in paragraph **86** are complied with.

Indents will be rendered annually on the 1st March, on A.F. G 997, for articles required to replace those expended during the year.

84. When a unit requires components in excess of the authorized allowance, the Officer Commanding will report the cause to the General Officer Commanding the Division, who will decide whether the issue is to be free or otherwise. Indents will then be forwarded by the unit through the County Association to the D.A.D.O.S. of the area,

A.O. 425 1920

* Here insert description of arms or barrels.

Digitized by Google

A.O. 423 1920

supported by a copy of the decision of the General Officer Commanding. Officers commanding units will be responsible that Government arms are only repaired with components supplied by the R.A.O.C.

85. The sale, exchange, or gift outside the units of any components obtained from the R.A.O.C. is prohibited.

86. Tools in the proportions laid down in Table 20 will be issued on demand by the D.A.D.O.S. as public equipment for each instructor holding a certificate from the Chief Inspector of Small-Arms, provided the C.O. certifies that a properly fitted shop exists locally for the separate use of such instructor.

87. The arms will be sent every fourth year for examination and repair, and re-browning if necessary. In commands where a central armourers' shop has been established the work will be carried out there, and the necessary arrangements will be made by the A.D.O.S. of the command.

In other cases the work will be carried out in the Royal Small-Arms Factory, Enfield Lock, and the Chief Inspector of Small-Arms will issue the necessary instructions.

Arms sent to central armourers' shops will not be taken on charge in the store accounts, but will be dealt with as stores received for repair (*see* paragraph **50**). Vouchers must, however, be passed for all small-arms and components of small-arms sent to Royal Small-Arms Factory, Enfield Lock.

26 Regs. 165

88. The cost of replacing deficiencies of arms or parts of arms, or of carrying out repairs other than those due to fair wear, will be assessed under paragraphs **27-34**, and will be claimed from the County Association. Repairs necessitated by fair wear will be executed free of charge.

89. When the extent of repairs not chargeable against the public has been ascertained, a claim will be prepared in triplicate by the carbon process on A.F. G 838. The original will be sent to the secretary of the County Association and the duplicate and triplicate to the command paymaster, who, when payment has been secured, will return the duplicate to the O.O., with a reference to the account where credit will be found.

SECTION III.—ACCOUTREMENTS.

54 Misc. 2024

94. Initial issues of accoutrements will be provided free up to the peace establishment of each unit in the proportions detailed in Table 2.

Digitized by Google

95. Subsequent requirements to replace lost or unserviceable, also of materials for repair of, accoutrements will be obtained by County Associations from the R.A.O.C. on repayment at vocabulary rates, and will be charged against the maintenance grant.

96. Accoutrements for permanent staff, including acting serjeant-majors, will be provided as public equipment in the proportions detailed in Table 2 (x).

54 Misc. 2024

SECTION IV.—HARNESS, SADDLERY AND PACK-SADDLERY.

100. Harness, saddlery and packsaddlery will be supplied as public equipment in the proportions detailed in Table 11.

101. Subsequent issues for renewals and materials for repair and preservation will be made by the R.A.O.C.

102. Details of sets of harness, saddlery and packsaddlery are given in Section IX and Appendix IV.

103. The scale of material for the repair and preservation of harness, saddlery and packsaddlery is detailed in Tables 12 and 13. Only such of the stores as are actually found to be necessary should be demanded.

104. Harness, saddlery and packsaddlery will be marked in accordance with paragraph **283** by the R.A.O.C. prior to issue. Indents submitted by units will be accompanied by full particulars of the markings required.

26 Regs. 165

To prevent leather ammunition carriers of Hotchkiss machine-gun packsaddlery becoming damaged or badly shaped when used empty at training, wooden blocks weighted with lead, to correspond as nearly as possible to weight and size of ten strips filled with ammunition, will, for drill purposes, be placed in the ammunition carriers.

54 Cav. 1748

105. Instructions for the care and preservation of harness, saddlery and packsaddlery will be found in Appendix V.

SECTION V.—MISCELLANEOUS EQUIPMENT.

106. Articles for musketry instruction will be supplied as public equipment in the proportions detailed in the following tables:—

TABLE 2.

Description.	Proportion authorized for the full establishment of rifles.
Section No. 27A.	
Cartridges, small-arm, drill, ·303-inch rifles, carbines, or machine guns, Mark VI	15 for each rifle.
Chargers, ·303-inch cartridges	3 for each rifle.

NOTE.—Additional supplies of the articles detailed in Tables 1 and 2 may be obtained from the R.A.O.C. on repayment.

Flags, musketry instruction, and boards, black, complete, may also be obtained from the R.A.O.C. on repayment.

107. The following articles will be supplied to units, under arrangements to be made by the County Associations, from sources other than Government store:—

Brushes, large (1-lb. brushes) for colouring targets.
,, small (sash tool) ,, ,,
Chalk.
Files (to retain documents).
Glue to make size.
Lamp-black.
Sponges.
Targets.
Whiting.

The targets provided will be of such dimensions that the instructions contained in Small-Arms Training, Volume I, can be complied with.

108. An initial issue of bugles, trumpets, and strings will be made free to units in accordance with the scale laid down in Table 3.

The responsibility for the maintenance and replacement of these articles will devolve upon County Associations.

Bugles, trumpets, and strings may be obtained on repayment from the R.A.O.C. Corps marks may be added by the R.A.O.C. provided full particulars are furnished on the indents for the instruments.

109. Units of the Territorial Army will be equipped for the purposes of peace instruction and training with ambulance stretchers and knee caps in the proportions detailed in Table 4. The maintenance of these articles must be effected by County Associations, supplies being obtained from the R.A.O.C. on repayment.

Digitized by Google

24 Gen. 8328

110. For the purpose of instructing officers and men in the use of field dressings (*see* T.A. Regulations), T.A. units will hold a stock of field dressings up to 10 per cent. of the strength of the unit, except in the case of Cavalry Field Ambulance and Field Ambulance units, which will hold those detailed in Appendix XV. Replacements required to maintain the stock to the authorized numbers will be indented for annually by officers commanding units on 1st November. The dressings will be issued and accounted for as public equipment.

111. Circular tents for instructional purposes may, if required, be issued as public equipment in the following proportions :—

To each regiment of yeomanry and battalion of infantry	4
To each scout regiment, Divisional Signals and Cavalry Divisional Signals	3
To each other unit (R.A.M.C. and R.A.O.C. excepted)	1

Unserviceable tents (as to canvas) will be issued, but poles, pins, and mallets will be serviceable.

112. Stable necessaries will be allowed in the following proportions :—

*Brushes, harness, hard	1	for each double set of harness and 1 for every two sets of packsaddlery.
*Sponges 7 drachms (or 1 oz.)... ...	1	for each single set of harness, 1 for each set of saddlery and 1 for each set of packsaddlery.

A.O. 276 1923

113. An initial issue of tools for opening packages will be made to units on the scale detailed in Table 14. The responsibility for maintenance and replacement of these articles will devolve upon County Associations, supplies being obtained from the R.A.O.C. on repayment.

114. An initial issue of 10 pickaxes and 10 shovels will be made free for each infantry battalion. The responsibility for the maintenance and replacement of these tools will devolve upon County Associations (*see also* Table 5).

A.O. 479 1925

115. The following parts of ordnance and their carriages, ammunition wagons and limbers, and other vehicles, when in use, will be kept clean, free from paint and rust, also lubricated or oiled where necessary :—

Breech mechanisms; clinometer planes; guides of guns, howitzers and slippers; cradle guideways; joints and bearings; exposed working parts of gears; frictional surfaces; metal handwheels; handles of steel handwheels; levers, pawls, ratchets, range, elevation and traversing indicators with their pointers; brass parts which are much handled;

* Annual supply, if necessary.

Digitized by Google

ends of draught poles; linch pins and ends of axletrees not provided with dust caps; drag washers; brake wheels.

All other parts will be painted, except that, in the case of ordnance —other than those of fixed armaments in coast defences and those with front clinometer planes—the portion protected by the muzzle cover need not be painted. Should the paint become chipped or worn off it must be renewed.

The use of coarse abrasive materials, such as sand, emery or bathbrick, for cleaning or removing rust from clinometer planes and wearing parts, particularly of gears and breech mechanisms, is strictly prohibited. For such parts paraffin oil and cotton waste only may be used.

Where the cleaning of bright parts of gears and breech fittings (other than wearing parts) proves difficult owing to corrosion or rust, finest grade emery may be used for this purpose.

Straps and other leather work should be periodically dressed with dubbing.

116. The following scale of lubricating and preserving material may be issued free annually for use with horse transport vehicles supplied as public equipment:—

Grease, lubricating, for cool climates	2 lbs. per wheel, upon a certificate from the C.O. that the vehicles are in constant use.
	½lb. per wheel when not in constant use.
Dubbing	1 lb. per 100 leather straps.

Lubricating and preserving material will not be issuable free in respect of hired vehicles.

117. Service pattern vehicles will be painted once every two years. Paint, paint brushes, putty, &c., will be issued free, in the proportions laid down in Tables 16 and 17, and in Sections* IX and X. No other paint is to be used.

The provision of labour for cleaning, priming, stopping, painting and re-marking will be arranged for by County Associations. To cover this service the allowances laid down in Table 16 and in Sections* IX and X will be issued biennially to Associations. Claims must be transmitted to the local auditor through the D.A.D.O.S., and will be supported by a certificate signed by the O.C. the unit, and countersigned by the secretary of the County Association, to the effect that the work has been satisfactorily executed with the paint supplied.

In order that special payments of the small sums involved may be avoided, claims will be reserved for settlement with those made by Associations on the 1st November.

118. Instructions for marking vehicles are given in Appendix VIII. First issues of vehicles from store will have corps marks added by

* *See* A.C.I. 635 of 1923.

Digitized by Google

the R.A.O.C. before issue, units giving the necessary marking particulars on their indents.

70 Guns 144

119. Instructions for marking calibration detail on guns and howitzers are given in Appendix VIII.

57 Vehicles 69

120. Instructions on the care and preservation of travelling kitchens are given in Appendix XVIII. These instructions will be rigidly adhered to by all concerned.

121. Steel helmets will be painted with "Paint, prepared for use. dark grey, for steel helmets only." An initial issue on the scale of 4 lbs. of paint and 1 brush, paint, sash tool, No. 8, for every 100 helmets will be made to units in possession of steel helmets. Subsequent supplies will be obtained on repayment from the R.A.O.C.

122. The drawing instruments and other articles as detailed in Table 25 will be supplied as public equipment for the headquarters office of each division. They should be accounted for in the equipment ledger of the unit responsible for the equipment of the R.A.S.C. clerk attached to assist the general staff officer.

Stationery required for use with these stores will be supplied upon the receipt of indents on A.F. L 1381 from the C.Os. of units responsible for them. These C.Os. will also be responsible that the stationery office supplies are issued only for the purpose for which their supply has been authorized, and that indents for stationery state clearly the service for which it is required.

123. The scale of outfits authorized for mechanical transport vehicles is laid down in Table 23.

The scale of consumable material for maintenance of mechanical transport vehicles is laid down in Table 24.

SECTION VI.—MACHINE GUNS.

130. The C.O. is responsible that machine guns on his charge are at all times in perfect order and in readiness for immediate service.

As a very little neglect may cause serious consequences, his arrangements will be most definite that these guns are always cleaned and examined after every occasion on which they are used.

131. In addition, the Chief Inspector of Small-Arms, Enfield Lock, will arrange for a biennial examination to be made by an examiner.

After every such inspection a report showing the repairs necessary to put the guns in a serviceable condition will be forwarded to the O.C., who will subsequently forward a certificate to the Chief Inspector of Small-Arms, through the D.A.D.O.S. of the area, to the effect that the repairs shown thereon have been carried out

132. When the accuracy of the shooting of a machine gun fails, and the barrel appears worn, an accuracy trial will be carried out

Digitized by Google

at 500 yards range with reliable ammunition, on a favourable day, by a good shot with the machine gun. The elevation and deflection required to bring all the shots on the target should first be found by means of trial shots, which will also give the barrel a chance of settling down.

Care must be taken that the barrel is clean and undamaged (special attention being given to the muzzle end), and that the machine gun is secure on its mounting. When it is found that the barrel gives promising results, three successive diagrams will be taken, each consisting of a burst of ten rounds. If the average figure of merit of the three diagrams exceeds 1·50 feet, the O.C. will at once indent for another barrel, and, on receipt, will forward the doubtful barrel to the R.A.O.C. for transmission to the C.I.S.A., Enfield Lock, for final sentence. Detailed instructions for testing machine gun barrels are given in Appendix XII of Machine Gun Training, 1925.

70
M.G.
68

If a qualified Warrant Officer or N.C.O. of the permanent staff is not available to replace the barrel, the C.O. will apply to the D.A.D.O.S. for the services of an armourer or armament artificer.

133. (i) Spare parts for the repair of machine guns may be issued annually in the proportions detailed in Table 22.

(ii) Other spare parts and tools are issued as part of the machine-gun equipment.

The contents of the spare parts box (or bag) are not to be drawn upon until the components of the machine gun and the annual allowances authorized by sub-paragraph (i) have been used up. When articles are withdrawn from the spare parts box (or bag), indents will at once be put forward for their replacement.

134. Materials for cleaning and oiling machine guns and their mountings will be supplied free in the following proportions :—

	For each machine gun and mounting, per annum.
Dubbing ... ... lbs.	½
Flannelette ... ... yds.	11
Linen, or cotton, old ... ... lbs.	3
Oil—	
Mineral, burning* ... ... pts.	½
Lubricating, G.S. ... ... ,,	8

* Local purchase should be authorized by the D.A.D.O.S. of the area when the quantity issuable is less than the minimum quantity for which carriage is charged by the railway company.

The following will be allowed to each store in which machine guns are kept or dealt with, and will be replaced when necessary :—

Flannel (old blanket is very effective)	1 square yard.
Twisted copper wire	1 rod, 42 inches long, of wire, 0·1-inch diameter in a double twist.

Digitized by Google

135. In units to which "D.P." machine guns are allowed, such guns only will be used for instruction in stripping. In other units one machine gun per unit may be stripped to afford the personnel opportunities of becoming thoroughly acquainted with the mechanism and working of the machine gun.

The stripping must be carried out in the presence of an officer who has qualified at the Artillery College, or at a Machine Gun School in the case of the Vickers, or at the Artillery College or at a Small-Arms School in the case of the Hotchkiss and Lewis machine guns.

136. Lewis machine guns (except D.P.) will be marked with the unit's corps mark and consecutive numbers before issue by the R.A.O.C. The full designation of the unit and the consecutive numbers to be marked on the machine guns will be stated on all indents. Lewis machine guns to replace others will receive the consecutive numbers of those replaced.

137. The scale of paint and money allowances, for the painting of machine guns, etc., when ordered by the C.I.S.A. or the R.A.O.C., is detailed in Table 18.

Paint brushes allowed in Table 17 and Sections IX and X will be used for this service.

SECTION VII.—CAMP EQUIPMENT.

140. Camp equipment will be issued free for all camps which have been approved by the G.O.C.-in-C.

The cost of transport both ways will be debited against the special money grant for training the Territorial Army. Carrier's notes will be endorsed "Training Grant, Territorial Army, ——— Command."

141. The proportions of all articles of camp equipment and intrenching tools to be demanded, except for manœuvres, are laid down in Table 5. Indents for camp equipment will be prepared on A.F. G 968, in triplicate, and sent to the D.A.D.O.S. of the area by C.Os. as early as practicable, and not less than 21 days before the formation of the camp, in order to give time for checking and supply. As soon as the indents have been approved by the D.A.D.O.S. of the area, the triplicate copies will be returned to units. When the encampment is to be held outside the area in which the unit is stationed, the D.A.D.O.S. will transmit the indents to the D.A.D.O.S. of the area in which the encampment is to take place for checking and action as above. C.Os. will estimate as exactly as possible the number of men who are likely to take part in the encampment, and if any tents or other equipment are found to be surplus to the approved accommodation after the camp has been formed, the tents, if pitched, will be struck when dry, and repacked in their valises, and the matter will be reported to the D.A.D.O.S. of the encamping

A.O. 156 1925

Digitized by Google

area, who will give instructions regarding disposal of the tents and other surplus stores.

The scales of camp equipment authorized for the various branches of the service are sufficient to meet the ordinary requirements, and no other article in excess of these scales will be allowed, unless the authority of the G.O.C.-in-C. has been previously obtained through the D.A.D.O.S. of the encamping area.

142. For manœuvres, camp equipment will be issued in accordance with the scales laid down in Tables 7, 8 and 9.

143. Nosebags and grooming kit are issuable during training under Tables 5 and 7 for all public horses (including Army "boarded out" horses). A.O. 117 1922

When horses are hired by County Associations for training purposes, their nosebags and grooming kit will be included in the contract and brought with them.

Nosebags and grooming kit for Association owned horses will be provided by County Associations out of the money grant allowed for horse hire which covers these items.

144. Issues of camp equipment in excess of the authorized proportions will only be made when circumstances exist which, in the opinion of the G.O.C.-in-C., are so exceptional in character as to render additions to the normal scales essential. Blankets in excess of authorized scales will only be allowed on the certificate of the D.D.M.S. that they are necessary for the health of the troops. Written authority to issue will in all such cases be given to the responsible C.O.

145. The issue of camp equipment for duly authorized week-end camps may be approved for retention by units during the camping season, provided that the superior authority considers it desirable, that accommodation is available with the units concerned, and also that stocks are sufficient to allow of such issues without detriment to normal services. 9 Gen. No. 1070

The camp equipment will be returned to the R.A.O.C. on conclusion of each camping season.

146. Camp equipment for sports and entertainments is issued on temporary loan under the conditions laid down in Regulations for Army Ordnance Services, Part I. 57 Woolwich 5218

147. C.Os., in demanding camp equipment, will, with a view to economy in transport, and to obviate charges for losses and damage to articles not used by them, exercise their discretion as to whether all articles allowed should be demanded: *e.g.*, camp kettles will not be required when private cooking apparatus is used; the full proportion of intrenching tools will not be required when the soil renders it unnecessary to intrench the tents; picketing gear will not be required when stabling is hired for horses. Information on these points should be obtained before putting forward indents.

When stoves, Soyer's, are demanded as allowed by Table 5, steps

Digitized by Google

will be taken to ensure that a supply of coal is available for use with them. The use of wood fuel with these stoves is prohibited.

148. Wood bottoms for circular tents for officers and men, or for marquees used for hospital purposes, may be issued when, owing to the dampness of the ground or to other causes, their use is certified by the D.D.M.S. of the command to be necessary. It should be remembered that their provision should be the exception and not the rule, as waterproof sheets should generally suffice. Tent bottoms will not be supplied for store, office or workshop tents of units.

149. For camps where there is an ordnance depôt, the equipment will be drawn from, and returned to, such depôt. The officer drawing the equipment will arrange for the necessary transport between the depôt and the camping ground, both when drawing and returning the equipment. A responsible representative of the unit must attend at the depôt to take over the equipment; he will give a temporary receipt for it directly he has drawn it.

When the stores are returned to the camp ordnance depôt, a representative of the unit should attend and obtain a temporary receipt on a triplicate copy of the voucher which will be marked "subject to examination for damages," if there is no time to examine the stores.

A.O. 276 1923

150. When stores are sent by rail (both issuing and returning), carrier's notes (A.F. G 980) will be prepared to show the quantity of each kind of package, bundle, etc., despatched. In the case of bundles, the number contained in each must be inserted against the entry in the body of the carrier's note. The copy of the ordnance carrier's notes, on which the stores were received, should be taken as a guide.

The instructions for the preparation and disposal of carrier's notes contained in the Regulations for the S.T. and B. services will be followed, except when the cost of conveyance is payable from Territorial Association funds. In such cases the forms will be clearly marked by a rubber stamp or in manuscript "Payable by the T.A. Association of the County of ....." in the space provided opposite the words "The charges for carriage THROUGH TO DESTINATION will be paid on production of this voucher by....." In such cases Government transport will not be utilized for the conveyance of the stores to or from the railway station.

When the charges are payable by a T.A. Association, it will not be necessary to forward copies to the R.A.S.C. Officer i/c Transport at the consignor's end for registration and routing, as laid down in the Regulations for S.T. and B. Services, and in such cases the forms will be disposed of as follows:—

(*a*) The original will be sent to the goods agent at the station from which the stores are being despatched. This copy

Digitized by Google

will be produced by the railway company in support of their claim for conveyance.

(*b*) The duplicate, after being duly receipted by the railway company, will be returned to the consignor, who will retain it for reference. 26 Regs. 164

(*c*) The triplicate, having been amended by the consignor so as to correspond exactly with the duplicate, will be sent to the consignee, who will state thereon whether the stores have been delivered correctly or otherwise. This copy will then be returned to the consignor and NOT to the R.A.S.C. Officer i/c Transport of the consignor's sub-district, and will finally be sent by the consignor to the T.A. Association paying the charges, as a check on the railway company's claim, or for disposal as the Association may arrange to suit local convenience.

(*d*) The quadruplicate will be retained by the consignor.

151. When it is not possible for a representative of the unit to take over the stores, the vouchers and A.F. G 973 will be forwarded when possible so as to reach the unit three clear days before the opening of the camp, and they should be handed over to advance parties for the purpose of checking stores.

For further instructions regarding the conveyance of camp equipment, *see* Instructions for the Administrative Services, etc., of the Annual Camps of the Territorial Army. A.O. 116 1925

152. Procedure to be followed on receipt of camp equipment will be as laid down in paragraphs **20** to **23**.

153. A.F. G 973, which will be given to the officer drawing the first issue of camp equipment by the O.O., will be used to record all transactions of receipt and return of camp equipment. On the opening of a camp, as soon as the vouchers have been checked with the stores, the receipts will at once be entered under their appropriate headings on the first line of the form, and any subsequent transactions will be duly entered on the date upon which they occur. Under no circumstances will this form, which is a ledger account, be merely filled in at the termination of the encampment.

At the close of the encampment, when the stores have been returned, the camp equipment account will be balanced and forwarded, with all supporting vouchers, to the D.A.D.O.S. of the area in which the issues were made, irrespective of the locality of the ordnance depôt to which the stores may have been returned. This officer will have the account examined and compared with the accounts of the O.Os. by whom the issues were made. Should any questions arise, they will be decided by the D.A.D.O.S. of the area in which the issues were made, after communication with the C.O.

154. Ammunition received during periods of encampment will not be accounted for in camp equipment accounts. 8 Equip. 445

Digitized by Google

155. At encampments where local conditions or circumstances render it impossible or, in the opinion of the G.O.C., undesirable to dig trenches for latrine purposes, and the pail latrine system has to be specially resorted to, latrine buckets may be issued in the following proportions to the contractor engaged to remove the soil :—

For officers	20 per cent. of number of officers encamped.
For other ranks ...	10 per cent. of number of other ranks encamped.

These numbers are regarded as sufficient to meet requirements for both dry earth closets and urinals. The number of buckets and scoops required should be included in the indent referred to in paragraph **141.**

The name and address of the contractor will be furnished to the D.A.D.O.S. 14 days prior to the date of encampment in order to consign the buckets to him.

The conditions to be fulfilled by the contractors with regard to collection, disinfection, cleaning, repairing and re-delivering these buckets will be found detailed in the "special conditions of contract" embodied in a tender form approved by the Army Council, and issued to G.Os.C. to govern local contracts in connection with the pail latrine system in encampments.

Latrine paper will be demanded as laid down in Allowance Regulations.

A.O. 247 1923

156. Horse shoes and nails may be drawn from the R.A.O.C. and expended in the proportions detailed below. They will be entered in the camp equipment account (A.F. G 973). The expenditure under this head will be supported by a certificate from the O.C. the unit that the shoes and nails have been necessarily utilized during the period of the camp in shoeing horses hired for and employed upon military duties. This certificate must accompany the camp equipment account as one of the supporting vouchers referred to in paragraph **153.**

The unexpended balance will be returned to the R.A.O.C. at the termination of the camp. The value of any shoes and nails expended in excess of the quantities allowed will be claimed from the County Associations concerned.

Unit.	Numbers which may be drawn from R.A.O.C. for every 100 horses present at annual training in camp.		Free expenditure allowed for every 100 horses present at annual training in camp.	
	Shoes sets.	Nails.	Shoes sets.	Nails.
Medium batteries, R.A. ...	15	600	15	600
All other units	15	600	10	400

Digitized by Google

157. Wooden tent pins not exceeding 5 per cent. of the number issued may be written off as expended by fair wear, if such expenditure has actually taken place.

158. All deficiencies other than those mentioned in the preceding paragraph must be paid for unless the authority of the G.O.C.-in-C. is obtained to write them off as a charge against public funds.

No charge will be made for damages due to fair wear and tear, but the value of such damages as are obviously wilful or due to culpable negligence will be recovered from the unit concerned (*see* paragraph **29**). Claims for such damages will be prepared in the manner directed in the Regulations for Army Ordnance Services, Part I, and submitted to the secretary of the County Association for settlement. A.O. 66 1922

159. C.Os. should arrange for all questions of losses, damages, etc., for which it is necessary to obtain the authority of G.O.C.-in-C. for writing off as chargeable to the public or otherwise, to be reported as soon as they occur to the D.A.D.O.S. of the area in which the camp is situated. When there is any suspicion that the losses are due to theft, the civil police should be informed at once. The report should consist of A.F. G 998 duly completed, corroborative statements of evidence, and the opinion of the C.O., all in duplicate. This applies to cases dealt with under paragraph **730**, King's Regulations, 1923.

160. Shortly before the termination of the camp the C.O. will arrange for an inspection of the whole of the camp equipment in his charge and the investigation (if necessary by a regimental board) of all cases in which articles are found to be damaged or deficient.

When it is possible to trace to individuals the responsibility for the damages or deficiencies, the C.O. will estimate the cost of repair or replacement (*see* paragraph **29**) and take steps to recover the amount from the individual or individuals responsible. (*See also* paragraph **27.**) A.O. 66 1922

161. Tents should not be struck before 10 A.M., otherwise serious damage may be caused to them by dew. Articles of camp equipment which have become wet while in use will be thoroughly dried and cleaned, as far as possible, by the troops before being returned into store. When a camp is broken up in wet weather, and the O.O. or, in his absence, the C.O. is of opinion that the tents should not be struck or other articles of equipment be taken over in a wet state, a detachment will be left behind until the articles are in a proper condition to be returned into store. This detachment will consist of permanent staff only, or of such men as may be willing to remain, if a larger detachment be thought desirable.

162. After striking camp, the stores will be carefully checked, and the numbers of each item compared with the numbers on charge as shown in A.F. G 973, any surpluses and deficiencies being noted at the time to save subsequent correspondence.

Digitized by Google

163. The vouchers recharging the stores to the R.A.O.C. should be lists of stores actually returned, and not copies of the issue vouchers. They should, if possible, be in possession of the R.A.O.C. when stores arrive.

164. Credit can only be given for the equipment actually returned to store. Any articles found afterwards on the camping ground are brought on charge in R.A.O.C. accounts by certificate receipt voucher. No claim on these surpluses can be recognised, and credit on account of them will only be admitted if approved by the G.O.C.-in-C.

165. The following instructions will be observed when handing over stores on the closing of a camp :—

(a) When Stores are handed into an Ordnance Depôt at the Camp.

(1) Each unit will be allotted a space at the ordnance depôt on the camping ground, in which its stores will be laid out for handing over to the R.A.O.C.

(2) Paillasse and bolster cases (after being emptied of straw), blankets and waterproof sheets will be laid out flat, in piles of any height; they will be checked off and tied in bundles when being taken over by the O.O.

(3) Camp kettles will be packed in the cradles in which they were issued.

(4) Tents will be left in the valises and stacked in piles, except as stated in (8).

(5) Pin bags will be emptied and laid out flat in heaps of 20 or less, as may be convenient.

(6) Marquees will not be securely tied up, as they will have to be examined to check over the various parts, etc.

(7) Axes, mallets, tent poles, spades, and other small stores will be collected and placed so that they can be readily counted.

(8) In wet weather arrangements will be made for handing over at the depôt, blankets, paillasses, bolsters, waterproof sheets, pin bags, and all other damageable stores in a store tent which will be told off to each unit on the morning of the day of the termination of the camp, but all tents will be left standing.

(b) When Stores are not handed over at an Ordnance Depôt at the Camp.

(1) As far as possible stores will be returned in the same cases or vats as those in which they were received; each package will be labelled and clearly addressed to the O.O. Bundles will be securely tied, in at least two places, with spun yarn.

(2) Blankets will be rolled lengthwise in bundles of 20, and fastened near each end with spun yarn; paillasse cases, etc., and

Digitized by Google

waterproof sheets (unless packed in cases or vats) in similar bundles of 10. Buckets, tubs and pails will be nested five together and fastened with yarn; camp kettles will be packed in cradles (five each). Bolster cases will be packed (200) in a paillasse case. Tents will be in valises, pins and mallets in pin bags, which will be placed in the valises in the case of C.S.L. tents, poles tied in sets; the loose parts of Soyer's stoves and vehicles will be firmly secured with spun yarn.

All articles of camp equipment, etc. (particularly furniture), must be packed in accordance with the specifications laid down by the railway companies and published in the General Railway Classification of Goods, and the Special Instructions relating to the conveyance of Government (Military, Naval and Air Force) stores, which are also applicable to the Territorial Army. If articles are not so packed the carriers may, in accordance with their by-laws, protect themselves by accepting the stores under "owner risk" conditions. This acceptance does not necessarily imply, however, that a rate is obtained lower than that at which the stores would ordinarily be conveyed.

26 Regs. 164

Unless the consignor is satisfied that packing is in accordance with the railway company's specifications, reference should be made to the local railway authorities in order that any defects in packing may be rectified before the stores are despatched.

In all cases where stores are advisedly despatched at owner's risk rates, the carrier's notes are to be so endorsed, so as to ensure that the lower rate for conveyance is obtained. For a list of stores for which "owner's risk" conveyance is usually provided, when this is cheaper than the military rate, *see* Regulations for the S.T. & B. Services.

(3) A packing note giving contents signed by packer and witness is to be placed in each package.

(4) The labels should clearly show the name of the unit and station from which the stores are returned. The reverse side of the label (A.F. G 1025) originally sent with the stores can be used for returning them.

(c) When a Camp is handed over standing from one unit to another.

The D.A.D.O.S. of the area will detail a representative of the R.A.O.C. to witness the transfer, and to assess, as a charge against the outgoing unit, the cost of any damage done to the camp equipment not due to fair wear and tear.

The usual vouchers should be prepared by outgoing unit charging stores handed over to incoming unit, and receipts obtained from incoming unit, after handing over is completed, in the presence of the R.A.O.C. representative.

26 Regs. 103

The equipment handed over by outgoing unit will be accounted for in A. F. G 973 in the manner laid down in paragraph **153.**

An A.F. G 973 will be handed to the incoming unit by the R.A.O.C. representative witnessing the transfer of stores.

Digitized by Google

FIELD HOSPITAL EQUIPMENT.

166. When regiments are encamped for training at places where no hospital building is available, field hospital equipment, as specified in Table 10, will be demanded on A.F. G 968 when required.

This equipment will be accounted for in the camp equipment account, A.F. G 973, in the manner laid down in paragraph **153.**

167. Cleaning and washing materials will be issued upon the written authority of the G.O.C.-in-C. The quantities issued should not exceed those authorized in the hospital schedules for hospitals generally.

MEDICAL AND SURGICAL EQUIPMENT.

168. Medical and surgical equipment as laid down in Table 10 will be supplied to each camp at the commencement of training at stations where no military hospital is available.

Deficiencies and damages will be dealt with as directed in paragraph **238.**

26 Regs. 171

169. M.Os. will see that the equipment issued under paragraph **168** is properly packed and duly returned to store at the termination of training. Each composite article of equipment, when returned to store, will be accompanied by a list of contents, in triplicate, in which deficiences, damages and expenditure will be recorded, showing the extent and amount against each item. The three copies will be signed and dated by the officer returning the equipment, one copy being placed inside each composite article and two copies being attached to the invoices forwarded to the consignee. The consignee will return one copy and retain the other two, keeping one with the invoice and one inside the item of medical equipment until conversion or completion is effected in store.

VETERINARY EQUIPMENT.

54 Misc. 1800

170. Veterinary wallets, Mark III, will be allowed to units of the Territorial Army as follows:—

Units.	*Number of Wallets.*
Yeomanry Regiment	3 for each Regiment.
Scout Regiment	3 for each Regiment.
R.H.A. Brigade	1 for each Battery.
Field Brigade, R.A.	4 for each Brigade.
Medium Brigade, R.A.	4 for each Brigade.
Pack Brigade, R.A.	3 for each Brigade.
Field Squadron, R.E.	2 for each Squadron.
Field Company, R.E.	1 for each Company.
Divisional Signals	1 for each Company.
Cavalry Divisional Signals ...	1 for each Squadron.
Field Artillery Signal Section ...	1 for each Section.
Medium Artillery Signal Section	1 for each Section.
Pack Artillery Signal Section ...	1 for each Section.
Infantry Brigade	1 for each Brigade.
Field Ambulance	1 for each Field Ambulance.
Cavalry Field Ambulance ...	1 for each Field Ambulance.

Digitized by Google

A.O. 159 1923

171. The following veterinary equipment will be supplied to units other than R.A.V.C. at the commencement of the annual camp of instruction, and will be returned on its conclusion :—

1 veterinary officer's chest and wallet for each veterinary officer.

1 veterinary unit chest — For each regiment of yeomanry, scout regiment, brigade of artillery (horse drawn), field squadron R.E., divisional engineers, cavalry divisional signals, divisional signals, and infantry brigade.

Smaller mounted units, when training at camps away from their headquarters, will be supplied with one chest and one veterinary wallet, Mark III.

Veterinary officer's equipment will not be demanded unless a veterinary officer will be present in camp with the unit.

Indents on A.F. G 997 will be sent to the Officer i/c Army Veterinary Stores, The Common, Woolwich, S.E.18, through the D.A.D.V.S., T.A. Division, in time to enable the equipment to be issued 7 days prior to the date on which the camp opens.

172. In case of very urgent extra requirements during the period of training, telegraphic indent should be submitted to "Veterinary Stores, Woolwich."

SECTION VIII.—SMALL-ARM AMMUNITION.

183. The quantities of small-arm ammunition allowed annually for practice and exercise are detailed in current A.C.Is.

Ammunition surplus from rifle practices is not to be fired in machine guns.

57 Ammunition 279

184. The ammunition expended will be written off by two expense vouchers, signed by the O.C. as follows :—

One voucher dated 31st March, when the equipment account is closed, showing the ammunition expended since the beginning of the Weapon Training Year, and another voucher dated 31st October at the end of the Weapon Training Year, showing the balance of the ammunition fired during the training season. This voucher will also contain the following information :—

·303-inch ball ... Numbers exercised :—

(*a*) Recruits.
(*b*) Trained soldiers.
(*c*) Trained soldiers on establishment of Hotchkiss Troops or Lewis Gun Sections.
(*d*) Trained soldiers on establishment of Vickers Machine Gun Troops or Platoons.
(*e*) Trained soldiers who are members of teams of A.A. Light Automatics.
(*f*) Casuals.

Digitized by Google

NOTE.—Trained soldiers claimed for under (*c*) and (*d*) above should not be included in (*b*). The ammunition allowed for the men exercised under (*e*) is in addition to that admissible for them under (*b*).

·303-inch blank — The numbers of W.Os., N.C.Os. and men.

·22-inch R.F. ... — The numbers of officers, W.Os., N.C.Os. and men, including permanent staff.

Reference will also be given to the authorities under which the ammunition is expended.

The quantities shown on these vouchers must accord with the expenditure recorded in the unit's musketry returns.

Any ammunition drawn in excess must be paid for unless unexpended, in which case it should be returned to store or deducted from the demands for the ensuing year.

185. A statement must be rendered on the Annual Musketry Return showing how the whole of the ammunition has been disposed of. The figures shown in this statement must accord with those recorded in the diary of ammunition expended, A.B. 218. This book must be produced for audit when required.

186. Subject to any special orders which may from time to time be issued from the War Office, the small-arm ammunition to be expended at practice will be taken from that already in possession and that received from R.A.O.C. in the following order:—

(i) The contents of broken boxes, viz., boxes, the tin linings of which have been opened.

(ii) Ammunition rebundled or repacked at stations other than Woolwich or Bramley.

(iii) Ammunition examined and rebundled at Woolwich or Bramley, the original date of which is not known. Boxes containing this ammunition bear the words "EXAMINED (year)" on the labels. (Label 291 G.) This ammunition will be used up in the order of the date of examination.

(iv) Ammunition examined and rebundled at Woolwich or Bramley, the original date of which is known. Boxes containing this ammunition bear the original date of the ammunition, with the addition of a white label (placed diagonally across the old label), on which are the words "EXAM^{d} (year)..... SERV^{ble}." (Label 164.) This ammunition will be used up in the order of the date of manufacture.

(v) Ammunition of 1919 manufacture or earlier not mentioned above, and which does not bear the "RE-EXAMINED" label mentioned at (vi). (Label 164.)

(vi) Ammunition of 1919 manufacture or earlier which bears the "RE-EXAMINED" label. (Label L 1513.)

Digitized by Google

(vii) Ammunition manufactured subsequent to 1919. (Label L 1277.)

(viii) Ammunition not specified above, the oldest date of manufacture being used first.

Specimens of the labels used in the cases referred to in sub-paragraphs iii, iv, v, vi and vii above will be found in Appendix VII.

Aiming-rifle and blank ·303-inch ammunition will be expended in order of the priority of date of manufacture.

The linings of boxes are not to be disturbed until the ammunition is actually required for use.

*187. Pistol ball ammunition, at the rate of 24 rounds per pistol annually, may be drawn for all ranks armed with that weapon in time of war who commence the prescribed course.

(For adjutants of the Territorial Army *see* paragraph 188.)

*188. Pistol ammunition may be drawn annually in the following proportions for adjutants of the Territorial Army who commence the prescribed course :—

	Ball.	Blank.
Yeomanry and Scout Regiment		
Royal Army Service Corps		
Royal Artillery		
Royal Engineers		
Royal Corps of Signals		
Infantry		
Royal Army Medical Corps		

†189. Small-arm ammunition of the following descriptions,

·303-inch ball,

·303-inch blank,

·22-inch,

issuable gratuitously for practice and exercise, may be commuted within those descriptions, provided the following conditions are fulfilled :—

(*a*) Sufficient ball ammunition, to allow of the standard test prescribed in Small Arms Training, Volume I, being fired, must be reserved for the purpose, except in the case of recruits, who in their first year of service may, in accordance with Territorial Army Regulations, be permitted to fire the whole of their musketry course with miniature ammunition.

Units which do not fire the standard test in the musketry course, and for which no open or 30-yards ranges are available, may commute the whole allowance of ball

* Suspended by A.O. 31/1924.
† Suspended by A.O. 441/1924.

Digitized by Google

ammunition for aiming tube ammunition, provided that they are possessed of apparatus for firing miniature ammunition of which no free issue will be made.

(*b*) The commutations proposed, and the proportion of the authorized scale to be commuted, must be approved by the G.O.C. the division, the mounted brigade commander, or the commander of coast defences, as the case may require. A certified copy of the authority for the commutation should be annexed to the expense vouchers on which the ammunition is written off charge.

(*c*) The money value of the ammunition to be drawn by commutation must not exceed the money value of the ammunition to be surrendered.

(*d*) The commutation must be effected prior to the completion of the supply of gratuitous ammunition for the year; ammunition once issued cannot be again received into store for commutation.

***190.** Blank ·303-inch small-arm ammunition not exceeding 20 rounds a man a year, in addition to the proportions allowed under para. **183**, will, if required, be issued gratuitously to units encamped with regular forces.

Any portion of this allowance unexpended at the close of the encampment will be returned to the nearest R.A.O.C. depot.

191. C.Os. will be allowed to purchase on repayment at the reduced rate of £† per 1,000 rounds such quantities of ·303-inch ball ammunition as will not exceed in the aggregate 10 rounds a year for each enlisted member. Chargers and bandoliers issued with ·303-inch ammunition will be charged for at vocabulary rates.

192. C.Os. are permitted to purchase on repayment from the R.A.O.C. such quantity of small-arm ammunition, in addition to that fixed by paragraph **188**, as may be required for regimental purposes. Ammunition, chargers and bandoliers will be charged for at vocabulary rates.

193. Indents for the supply of practice small-arm ammunition will be made out on A.F. G 812 for the whole amount required by the units during the current year, and must be rendered not later than the 1st December to the D.A.D.O.S. of the area.

194. All small-arm ammunition not drawn by the 31st October will be forfeited and any remaining unexpended will be reckoned as part of the supply for the ensuing year, and will be shown in the indent for that year as "in hand."

195. Ammunition gratuitously supplied will be forwarded, free of cost, to the headquarters of the unit or to the authorized drill stations of outlying detachments.

---

* Suspended by A.O. 441/1924.
† Fixed by current A.C.Is.

Digitized by Google

The carriage of ammunition, and of empty packages and fired cartridge cases, between the units' storehouses and the ranges will not be defrayed from army funds.

196. C.Os. will not draw at one time a greater quantity of practice ammunition than can be kept in safety until required for use, but whenever local conditions for safe storage permit they will draw in one consignment the whole allowance of ammunition for the year.

197. Should the paucity of storage accommodation render part issues compulsory, a memorandum giving particulars of the detailed consignments must accompany the indent. Every care must be taken to ensure that the annual allowance is not unnecessarily subdivided into part consignments. If any disregard of this instruction is observed, the excess cost incurred in transport will not be allowed as a charge against army funds.

198. A charge will be admitted against the public for any necessary transport of ammunition of oldest date which in the course of the turnover, referred to in paragraph **186**, has to be transferred to the authorized drill stations of outlying detachments from the place of storage of the service ammunition.

The carriage of ammunition supplied on payment will not be defrayed from army funds (*see* paragraph **18**).

199. O.Os. are instructed to issue ammunition of the earliest manufacture in their magazines for the free supply, and for issues on repayment at reduced rates. For purchases at full vocabulary rates, ammunition of late date will be supplied.

200. Os.C. units will be held strictly responsible for the safe keeping and proper issue and use of all government ammunition, whether issued gratuitously or supplied on repayment for their use.

201. Where no specially provided accommodation is available for storage, small-arm ammunition in service packages may be stored to an unlimited amount in a "small-arm ammunition lock-up," consisting of any substantially constructed building, or in any room, cupboard, or other compartment in such a building, provided the following conditions are fulfilled, viz. :—

(1) The lock-up must be free from easily inflammable material (*i.e.*, it must not be constructed of matchboarding or other such material), and must be subject to no undue risk of fire. Provided these conditions are fulfilled, it is not necessary that the lock-up should be detached from other buildings.

(2) The lock-up must be in charge of a responsible person, must be kept scrupulously clean, and devoted exclusively to such storage.

(3) The safe custody of the ammunition must be provided for at all times, and Os.C. will be responsible that the places selected are suitable in all the above respects.

Digitized by Google

202. Ammunition supplied for practice may not be sold to any member of the unit or association, nor may it be used for any purpose other than the authorized practice for which it has been issued.

The sale, exchange, or gift of government ammunition outside the unit or association to which it has been supplied is also prohibited.

It is to be understood that any transaction of such a nature (except under orders from the War Office) is illegal and will render the parties concerned liable to proceedings at law.

203. The use in service arms of any ammunition (whether ball, blank or dummy) other than that obtained from the R.A.O.C. is forbidden.

204. When troops, at the termination of a field day, are to return by railway to their headquarters, their arms will be examined, and all the ammunition which has not been expended will be collected from the men and placed in a metal cylinder, or metal-lined case, for conveyance in safety to the headquarters of the unit to which it belongs. C.Os. will be held responsible that this regulation is strictly carried out. Cases and cylinders will be issued on repayment, on indent being made to the D.A.D.O.S. of the area.

205. Small-arm ammunition in charge of units will be examined by the I.O.O. only when it is considered necessary by the A.D.O.S. of the command or D.A.D.O.S. of the area.

When an inspection has been arranged, the O.C. the unit will forward a statement, in duplicate, of the ammunition in his charge to the A.D.O.S. (or the D.A.D.O.S.). A.F. G 803 will be used for this purpose, and columns 1 to 5 should be carefully completed in accordance with the instructions given on the form; columns 6 to 11 will be completed by the I.O.O.

On completion of the inspection, the report will be returned by the I.O.O. through the A.D.O.S. (or the D.A.D.O.S.) to the O.C. the unit, for transmission through the headquarters of the command to the Chief Inspector, Woolwich.

206. Should any defect be discovered in ammunition supplied by the R.A.O.C. full particulars should be furnished to the D.A.D.O.S. of the area.

RETURN TO STORE.

207. When small-arm ammunition boxes, metal-lined cases, powder barrels, metal cylinders, or other packages are to be returned to store, C.Os. will as far as possible return them to the ordnance depôt from which they were issued.

208. When returning small-arm ammunition into store, Os.C. will apply to the nearest transport officer for instructions as to its mode of conveyance, specifying the number of small-arm ammunition boxes or half and quarter barrels to be conveyed.

Digitized by Google

209. The printed address labels on the barrels, etc., will not be removed. If any are accidentally defaced or removed, the official designation of the unit will be marked on each package.

210. When ammunition barrels and cases, whether full or empty, are to be returned to the government stores, they will be carefully examined to see that they are free from tacks, dirt and grit. Instructions will be given to the persons by whom such barrels are to be conveyed to keep them free from dirt and grit during their transit. Address cards will be fixed to the barrels by means of paste or string, and not by tacks or nails.

211. Ball and blank ammunition must not be packed together in the same package.

212. The fired cases of small-arm ball and blank and ·22-in. R.F. cartridges supplied gratuitously will be brought on equipment ledger charge by certificate receipt voucher by weight in the proportions shown below, and returned each accounting year to the R.A.O.C. The cost of carriage will be borne by army funds (*see* paragraph 42). A.O. 414 1922

Nature of ammunition.	Weight to be brought to account per 1,000 rounds expended.
	lbs.
·22-inch R.F.	1½
·303-inch ball	24
·303-inch blank	12
Revolver, ·455-inch, ball and blank ...	9

A.O. 414 1922
A.O. 79 1923

213. The rates to be charged for any deficiencies in the above proportions for ammunition supplied gratuitously, and amounts to be refunded to units returning fired cases of ammunition supplied on payment, will be notified half-yearly to A.Ds.O.S. and D.A.Ds. O.S. by the Directing Ordnance Officer, Woolwich, These rates will be published half-yearly in command or district orders.

The number and date of the ordnance voucher on which the cartridges were received should be quoted on the voucher charging the value of the empty cases. Charges and refunds under this paragraph will be dealt with by the command paymaster.

214. When empty cases from ammunition supplied on repayment are returned to store, the cost of carriage will not be defrayed from army funds.

215. The cases will be returned to store in the empty ammunition packages not oftener than once a quarter, and C.Os. will not return a less weight than that representing 1,000 cases, except in the last quarter of the accounting year, when the outstanding balance, whatever it may be, will be sent in on 31st March, or as soon as possible thereafter, in any case not later than 30th April. The cases must be in good condition when returned, care being taken that

Digitized by Google

grit and dirt are removed beforehand, and that no live cartridges are included with them.

216. Each package will contain a packing note on A.F. G 904, showing the rank, name, and unit of :—

(*a*) The person by whom the cartridge cases were sorted and packed.

(*b*) The responsible individual by whom the supervision of the sorting and packing operations was carried out.

If live cartridges are found in any of the packages, the matter will be reported to the G.O.C.-in-C. for such action as he may consider desirable.

217. The foregoing general instructions apply equally to the chargers and bandoliers issued with ball ammunition.

The chargers will be written off charge by numbers at the same time as the expended ammunition and brought on charge by weight by certificate receipt voucher with the fired cases. The weight to be brought to account in respect of each 1,000 chargers will be 27 lbs.

A.O. 48 1923

Bandoliers will not be written off charge when ammunition is expended.

Vocabulary rates will be employed in calculating :—

(*a*) Charges for deficiencies.

(*b*) The sums to be refunded to units for chargers and bandoliers returned from issues of ammunition on repayment. No refund will be made for chargers returned in an unserviceable condition or for bandoliers unfairly damaged.

The cardboard boxes employed for charger packed ammunition should be disposed of locally.

218. An allowance at the rate of 10*s.* per 100 lbs. of fired cartridge cases will be paid by the command paymaster for the labour of collecting and sorting cases and chargers obtained from ammunition supplied gratuitously. The G.O.C.-in-C. may, in addition to disciplinary action, direct that this allowance be withheld or refunded to the public when live cartridges are discovered in packages purporting to contain fired cases only.

SECTION VIIIa.—BICYCLES.

220. Detailed instructions regarding the care, preservation and repair of government bicycles are included in Instructions for Armourers ; general instructions for the guidance of all users are contained in the Handbook on Military Bicycles (a copy of which will always be carried in the tool bag of the bicycle to which it belongs), and will apply to all government bicycles.

A.O. 276 1923

Digitized by Google

221. Government bicycles are to be used on military duty or service connected with military requirements. C.Os. will be responsible for the proper care and preservation of service bicycles by soldiers or others under their command.

Padlocks, bicycle, and chains will be issued with all bicycles supplied for cyclist orderlies. They will be obtained on indent from the R.A.O.C. for this purpose, and will be considered part of the equipment of the bicycle. When not in use for chaining up the bicycle they will be carried in the tool bag.

222. In order to fix responsibility for loss or damage, transfers of bicycles between individuals will be recorded in the form provided in the Handbook on Military Bicycles.

(*a*) Any loss or damage should be immediately reported by the rider concerned.

(*b*) Warrant Officers and N.C.Os. in possession of a certificate granted by the Chief Inspector of Small-Arms or by the Commandant, Artillery College, as having passed a course of instruction in the repair of bicycles will carry out repairs—except brazing—to machines on charge of the unit to which they are attached. Repairs, including brazing, beyond the capacity of the unit will be arranged for by the R.A.O.C. A.O. 276 1923

When the services of a qualified Warrant Officer or N.C.O. are not available, arrangements will be made with the D.A.D.O.S. of the area for any necessary repairs to be carried out.

(*c*) Units in possession of government bicycles (and provided with a certificated Warrant Officer or N.C.O.) may keep up a stock of components and material for repair. The total value of such stock must not exceed five shillings for each bicycle on charge.

Indents will be submitted as directed in paragraphs **11, 12** and **14** for the maintenance of these stocks, which will be accounted for in the equipment ledger, the articles expended in repair being written off by A.F. G 1033, showing the number of the bicycle upon which expended. A.O. 276 1923

A bicycle history sheet will be kept for each bicycle on charge (as shown in Appendix IX), upon which all parts and material expended in repair will be recorded as the repairs are executed. These history sheets will be called for by the local auditor as he thinks necessary, when auditing the unit's equipment account.

When extensive repairs are necessary and the stock of components is inadequate to meet requirements, intermediate indents will be submitted.

Only such components as are supplied by the R.A.O.C.

Digitized by Google

will be used in the repair of government bicycles. Local purchase is prohibited, except in the case of items so detailed in the Vocabulary of Ordnance Stores which will be purchased locally by units on the authority of the D.A.D.O.S. of the area.

(*d*) Qualified Warrant Officers and N.C.Os. will examine monthly and clean all government bicycles on charge.

223. Government bicycles will be periodically inspected by the Chief Inspector of Small-Arms, and after every such inspection a report showing the repairs necessary to put the bicycles in a serviceable condition will be forwarded to the O.C., who will subsequently forward a certificate to the Chief Inspector of Small-Arms, through the D.A.D.O.S. of the area, to the effect that the repairs shown thereon have been carried out.

224. Instructions for marking bicycles are given in Appendix VIII. First issues of bicycles from store will have corps marks added by the R.A.O.C. before issue, units giving the necessary marking particulars on their indents.

225. The following scale of materials for lighting, cleaning and lubricating each government bicycle on charge will be issued free, once per annum :—

Section No. 9 A.		
Oil, lubricating, G.S....	... pints	1
Tallow	... lbs.	1
Section H.2.		
Cotton wool (for replenishing lamps)	... oz.	2
Section C.2.		
Brushes, bicycle		1
N.I.V.		
Linen or cotton, old	... lbs.	1½
Oil, paraffin * for cleaning purposes	... quart	1
Oil, paraffin * for replenishing lamps	... ,,	2
Wick.*		

54 Gen. 5707

226. Sets of tools for the repair of bicycles will be issued to units as follows :—

	Sets.
Scout regiment	6
Divisional Engineers	1
A.A. Searchlight Company, R.E.	1
Divisional Signals	1
Cavalry Divisional Signals	1
Infantry battalion...	1

* Local purchase should be authorized by the D.A.D.O.S. of the area when the quantity issuable is less than the minimum quantity for which carriage is charged by the railway company.

Digitized by Google

The detail of a set is as follows:—

Section No. 7.

Brushes, hair, flat—	
1 inch	2
½ „	2

Section C.2.

Bits, screwdriver, pedal pin	1
Brushes, bicycle	1
Clamps, bicycle	1
Hammers, bicycle	1
Injectors, paraffin	1
Punches, bicycle	1
Scissors, bicycle ... ... pair	1
Spanners, bicycle—	
Box—	
Hexagon	1
Square	1
Nipple	1
Thick	1
Thin	1
Valve	1

SECTION IX.—ARTILLERY EQUIPMENT.

230. Instructions relating to artillery equipment, together with details of the peace equipment of R.A. units, are issued separately.

SECTION X.—ENGINEER AND SIGNALS EQUIPMENT.*

232. Instructions relating to engineer equipment, together with details of the peace equipment of R.E. and R. Sigs. units, are issued separately.

SECTION XI.—R.A.M.C. EQUIPMENT.

A.—ORDNANCE STORES.

235. Stores for instruction and training may, if required, be issued in the proportions detailed in Appendix XV.

236. These stores will be demanded and accounted for in accordance with the general regulations in Sections I to V.

* Under revision, present scales as authorised by Army Council Instructions.

Digitized by Google

B.—MEDICAL EQUIPMENT.

A.O. 359 1923

237. Scales of medical equipment for instruction and training are laid down in Table 19. The equipment will be accounted for in manuscript at the end of the public equipment ledger of the unit.

238. Articles lost or rendered unserviceable other than by fair wear and tear will be dealt with on A.F. I 1230, in accordance with King's Regulations. When the cost of such articles is not chargeable to the public, the value will be credited to the public in the accounts of the command paymaster on A.F. O 1680, a copy of which will be attached to the account as a voucher for writing the deficiencies off charge. The authority for writing any article off charge will be quoted in and will accompany the account.

A.O. 359 1923

239. A.Ds.M.S. of divisions will arrange for the medical equipment to be inspected annually in January, by a M.O. if possible, not the accounting officer, who will furnish a report on its condition, enumerating the items held on charge by each unit through the A.D.M.S. to the D.D.M.S. for transmission to the Under-Secretary of State (A.M.D. 3), The War Office.

240. Articles required to complete the medical equipment will be demanded on A.F. I 1209 in duplicate. The demands will be carefully examined by the D.D.M.S. of the command, who will see that only authorized articles are included. He will approve their issue locally, as far as possible, from stocks held in the command for that purpose. Demands for articles not available from such stocks will be forwarded to the Under-Secretary of State (A.M.D. 3), The War Office, for supply.

241. On mobilization the medical equipment in accordance with war scale will be supplied by the Army Medical Department, and the medical equipment for instruction and training will be returned to the Army Medical Store, Woolwich.

SECTION XII.—YEOMANRY, SCOUT, INFANTRY, ARMOURED CAR, R.A.S.C., R.A.O.C., AND R.A.V.C. EQUIPMENT.

250. Stores for instruction and training may, if required, be issued in the proportions detailed in the Appendices referred to below:—

	Appendix.
Yeomanry regiment	X.
Scout regiment	XI.
Infantry battalion	XII.
Armoured car company	XIII.
R.A.S.C.	XIV.
R.A.O.C.	XVI.
R.A.V.C.	XVII.

251. Only such items as can be suitably accommodated should be held by units.

Digitized by Google

SECTION XIII.—MOBILIZATION EQUIPMENT.

260. On mobilization, equipment will be issued by the R.A.O.C. to complete units of the T.A.

SECTION XIV.—TERRITORIAL ARMY RIFLE ASSOCIATION.

270. Issues of ·303-inch ball ammunition will be made free and carriage paid for— 26 Regs. 169

(*a*) the T.A.R.A. central meeting;

(*b*) each man armed with a rifle on the strength of a unit which belongs to the T.A.R.A. on 1st April,

provided the competitions at which this ammunition is used take place on ranges and under conditions approved by General Officer Commanding-in-Chief. The quantities of ammunition issuable under this paragraph will be notified annually by A.C.I.

The ammunition allowed under (*b*) will be allotted to the G.O.C., T.A. Division, who may, at his discretion, authorise the issue of any of the ammunition for use by T.A personnel at County Rifle Association meetings in his divisional area at which T.A.R.A. competitions take place. The quantity so issued must not exceed the number of rounds required for members of the T.A. taking part in those competitions.

271. Indents for ammunition for use at the central meeting will be made by the Secretary, T.A.R.A., on A.F. G 812, and will be addressed to the D.A.D.O.S. of the area in which the meeting is held, who will authorise the issue.

Indents for other ammunition will be made by an officer of the unit (or units) concerned on A.F. G 812, and will be submitted to the G.O.C. T.A. Division concerned, for approval of the issue.

Only such number of rounds as will be required for actual use at each meeting will be demanded.

272. All ammunition remaining unexpended after a meeting will be returned to the ordnance depôt from which it was drawn within fourteen days after the close of the meeting, together with a statement showing how the ammunition has been expended. A copy of this statement will also be sent to the officer who authorised the issue of the ammunition.

273. An allowance at the rate of 10*s.* per 100 lbs. of fired cartridge cases will be paid by the command paymaster for the labour of collecting and sorting cases and chargers obtained from ammunition supplied gratuitously.

274 In the case of ammunition supplied gratuitously, the O.O. making the issue will see that the proper proportion of empty cases, chargers and bandoliers is returned to store, or their value credited to the public.

Digitized by Google

A.O. 423
1920

275. The supply of camp equipment to the Territorial Army Rifle Association will be limited to the amount required for the accommodation of enlisted men who actually go into camp and compete in the shooting matches of the Association, to include marquees and office tents necessary for the business of the meeting. A certificate of the number of men involved and setting forth reasons for the use of marquees, etc., will be given by the president or secretary in support of the camp equipment demanded. The carriage of the camp equipment will be paid by the public.

SECTION XV.—MARKING OF SMALL-ARMS, ACCOUTREMENTS, CLOTHING, HARNESS AND SADDLERY.

279. Stamps, etc., for marking purposes are authorised to the scale shown in Table 15 for each unit of the T.A. The issue of these stamps, etc., is a free initial one only; their maintenance will be a County Association liability. Marking ink and paint will be provided by County Associations.

280. Arms will be marked before issue by the R.A.O.C. in accordance with Regulations for Army Ordnance Services, Part I. No further marking will be necessary. The full designation of the unit, and the consecutive numbers to be marked on the arms, will be stated on all indents for arms. Arms issued to replace others will receive the consecutive numbers of those replaced.

281. Accoutrements will be marked before being taken into use to correspond with the arms. They will be marked as follows:—

Web equipment	$\frac{1}{2}$-inch copper inlaid stamps (and black marking paint).
Brown leather accoutrements	$\frac{1}{4}$-inch steel stamps, care being taken that the leather is not cut, but merely indented.
Enamelled iron water-bottle covers	$\frac{1}{2}$-inch copper inlaid stamps and black marking ink. In centre of that portion of cover not exposed to view when bottle is worn. (Bottles should be worn with cord or chain securing cork towards rear.)
Mess tins	$\frac{1}{4}$-inch steel stamps. Tins should be well supported by a smooth surface during process of marking. Judgment must be used in delivering blows so as not to cut the metal through. Mess tins for mounted services will always be stamped on the inside in the centre of the lid and bottom portion.

Branding accoutrements is strictly prohibited.

Digitized by Google

In all cases when marking brown leather accoutrements the stoutest parts should be chosen. Bandoliers should be marked on the bodies, and the pockets on the back loops.

282. Clothing will be marked in accordance with the instructions laid down in Regulations for the Territorial Army.

283. All articles of harness and saddlery of ¾-inch or more in width will be marked with the distinguishing marks of the corps. The sets will be numbered consecutively, harness and saddlery being given different series of numbers. As articles common to both harness and saddlery will be distinguished only by the position of the set number, care must be taken to place the number correctly.

In batteries of artillery the numbering will be by sub-sections and in the yeomanry and scouts by squadrons, as in the specimens given below.

In other units there will be, for the entire establishment, one series of numbers for sets of universal saddlery, another for sets of officers' saddlery, and a third for single sets of harness. The numbers will be placed on saddlery vertically under the corps marks, and on harness in the same line with and following corps or sub-sectional marks, as in the specimens given below.

In every case the head collars will be marked with the number of the horse instead of that of the set.

Royal Horse Artillery.

1	1 Battery.
R.H.A.	Royal Horse Artillery.
A	A Sub-section.
4	No. 4 set of saddlery.
1	1 Battery.
R.H.A.	Royal Horse Artillery.
B. 3.	B Sub-section. No. 3 single set of harness.

Field Artillery.

312 F.A.	312th Field Artillery Battery.
O. 1	Officers' No. 1 set of saddlery.
312 F.A.	312th Field Artillery Battery.
B	B Sub-section.
1	No. 1 set of saddlery.
312 F.A.	312th Field Artillery Battery.
B. 3.	B Sub-Section. No. 3 single set of harness.

Yeomanry.

Ayr Yeo.	The Ayrshire Yeomanry.
A	A Squadron.
2	No. 2 set of saddlery.
Lanark Yeo.	The Lanarkshire Yeomanry.
B. 1.	B Squadron. No. 1 single set of harness.

Digitized by Google

Royal Engineers.

200 Co.—R.E.—4	200th Field Company.	No. 4 set of harness.
200 Co.—R.E. 4	200th Field Company.	No. 4 set of universal saddlery.
200 Co.—R.E. O. 2	200th Field Company.	No. 2 set of officers' saddlery.

Royal Corps of Signals.

42 Div.—R. Sig. 4	42nd Divisional Signals.	No. 4 set of harness.
42 Div.—R. Sig. 4	42nd Divisional Signals.	No. 4 set of universal saddlery.
42 Div.—R. Sig. O. 2.	42nd Divisional Signals.	No. 2 set of officers' saddlery.

Royal Army Service Corps.

509—R.A.S.C. 4	No. 509 company Royal Army Service Corps No. 4 single set of harness.
509—R.A.S.C. 4	No. 509 company Royal Army Service Corps. No. 4 set of universal saddlery.
509—R.A.S.C. O. 4	No. 509 company Royal Army Service Corps. No. 4 set of officers' saddlery.

The leather work will be marked with ¼-inch steel stamps' immediately under the W.D. and broad arrow.

The ironwork will be marked with ⅛-inch steel stamps for metal, the portmouth bit in front of the port, the bridoon bit on top of the mouthpiece, and the stirrup irons on the bottom.

284. Nosebags, corn-bags and saddle-blankets will be marked with ½-inch copper inlaid stamps. Black marking ink will be used. The marking will be placed immediately under the W.D. store mark.

285. Steel helmets will be marked with ½-inch copper inlaid stamps as follows. Black paint will be used:—

Officers.—Steel helmets will be marked with the officer's rank and name on the felt pad and also under the lining of the helmet.

Other ranks.—Steel helmets will be marked with the "Corps mark" and the man's equipment number on the felt pad and also the lining of the helmet.

ARMS AND ACCESSORIES SUPPLIED AS PUBLIC EQUIPMENT.

(Referred to in paragraph **55.**)

TABLE 1.

Instructors, including acting Serjeant-Majors, will be armed as detailed herein.

I.—YEOMANRY.

Description.	Proportions.
Section B. 1.	
Rifles, No. 1, Mk. III	1 for each trumpeter over 18 years of age, 1 for each corporal and private except band, orderly room clerks, farrier corporals, farriers, Nos. 1 and 2 Vickers, and Nos. 2 and 3 of Hotchkiss machine gunners.
Bottles, oil, Mk. IV	1 for all ranks armed with a rifle, and 5 per cent. spare.
Pullthroughs, single, Mk. IV$_B$	1 for each rifle, and 5 per cent. spare.
Pullthroughs, gauze	1 for each rifle, and 5 per cent. spare.
Section B. 2.	
Pistols, revolver, No. 1	1 for all ranks not armed with a rifle, except band (*a*).
Protectors, hammer, Mk. II	1 for each pistol.
Rods, cleaning, No. 2, Mk. I	1 for each pistol (*a*).
Swords, cavalry, No. 1, Mk. I*	1 for all ranks except drivers, signallers, Nos. 1 and 2 of Vickers, and Nos. 2 and 3 of Hotchkiss machine gunners, Hotchkiss, Vickers and S.A.A. pack leaders and M.Os. orderly.
Scabbards, sword, cavalry, No. 1	
Section B. 3.	
Rifles, No. 2, Mk. IV*	2 for each headquarters wing and 2 for each squadron.
Rifles, No. 1, D.P.	20 for each regiment.
Tools, cleaning, brushes	1 for each rifle, No. 2, Mk. IV*.
Tools, cleaning, cleaners	1 for each rifle, No. 2, Mk. IV*.
Tools, cleaning, rods, No. 6	1 for each rifle, No. 2, Mk. IV*.

(*a*) Will be held by R.A.O.C.

TABLE 16.

(Referred to in paragraph **117.**)

A. TABLE SHOWING THE MATERIAL AND ALLOWANCE FOR PAINTING SERVICE PATTERN (HORSE DRAWN) VEHICLES.

Description.	Material issuable for each vehicle biennially.		Biennial money allowance for scraping, cleaning, stopping, painting and remarking. (*c*).
	Paint for patching and one coat, Service colour. (*a*).	Putty.	
Carts—	lbs. ozs.	lbs. ozs.	£ s. d.
Ambulance, horse	7 0	1 0	0 11 5½
Maltese	6 0	0 12	0 4 7
Water tank, Mks. III to VII (*d*)	5 0	0 4	0 5 4½
Kitchens, travelling—			
Body—(*b*)	0 12	0 0	0 8 0½
Limber	2 8	0 4	0 6 6
Wagons—			
Ambulance, Mk. VI (*d*)	14 0	2 0	1 2 10½
Ambulance, light (*d*)	10 0	1 8	0 13 9
G.S., Mks. IX to X (*d*)	15 0	2 0	0 11 5½
Limbered, G.S., fore (*d*)	5 0	0 12	0 3 10
Limbered, G.S., hind (*d*)	5 0	0 12	0 3 10

(*a*) Service colour paint will be used unless otherwise stated.

(*b*) Black paint will be used.

(*c*) Two pence per letter or numeral will be allowed for re-marking, in addition to the allowances detailed above (the work being done by hand-painting).

White paint will be allowed for this service in the following proportions:—

Letters or numerals { 1½-inch type ... ... 1½ oz. ; ⅞ ,, ,, ... ¾ ,, ; ¾ ,, ,, ... ⅝ ,, ; ⅝ ,, ,, ... ½ ,, } for every 200 letters or numerals.

(*d*) For Geneva crosses red and white paint ("Composition for canvas" for crosses on canvas covers) will be allowed as under:—

	Red. lb. oz.	White lb. oz.
Wagons, ambulance, Mk. VI	1 3½	0 3½
Wagons, ambulance, light...	1 11½	0 2½
Wagons, G.S.	2 8	3 0
Wagons, limbered, G.S., fore	0 2½	0 2½
Wagons, limbered, G.S., hind	0 2½	0 2½
Carts, maltese	0 2½	0 2½
Carts, water tank	0 6	0 10

"Composition for canvas" will be used for painting covers, but those made of waterproof material, *dyed* khaki or service colour, will be treated with the composition only when the covers have become bleached.

In the case of any covers not legislated for above which are found to require repainting, the necessary composition should be demanded at the rate of 10 ozs. of composition for each square yard of canvas, and a shilling an hour will be allowed for painting.

TABLE 21.

(Referred to in paragraph **83.***)*

DETAIL OF COMPONENTS ISSUABLE TO UNITS IN POSSESSION OF RIFLES, No. 1, MARKS III AND III*.

Description.	Annual Allowance for 1,000 Rifles.
Section B. 1.	
Pullthroughs, cords, single	750
Pullthroughs, gauze	750
Bands, outer, No. 1	5
Bolts, locking, No. 1	10
Catches, safety, locking, No. 1	5
Cocking-pieces, No. 1 B.	10
Extractors, No. 1	10
Guards, hand, No. 1—	
Front	10
Rear	5
Nuts, cap, nose, No. 1	1
Pins, washer, backsight, No. 1	5
Platforms, magazine, No. 1. B.	3
Screws—	
Band, inner, No. 1	3
Cap, nose, back, No. 1	3
Cap, nose, front, No. 1	3
Extractors, No. 1	5
Guards, trigger, No. 1	10
Striker, No. 1	12
Plate, butt, No. 1	2
Sear, No. 1	5
Spring, bolt, locking, No. 1	5
Spring, trap, butt plate, No. 1	3
Swivel	12
Springs—	
Auxiliary, magazine, No. 1. B.	3
Extractors, No. 1	10
Main, No. 1	5
Platform, magazine, No. 1, A.	10
Screw, band, inner, No. 1	3
Bolt, locking, No. 1	10
Trap, butt plate, No. 1	12
Strikers, No. 1. B.	15
Swivels, band	10
Swivels, piling, B (*c*)	12
Swivels, piling A (*a*)	12
Wads, No. 1	15
Washers, bolt, stock, No. 1	12
Washers, pin, No. 1	5
Washers, spring, band, inner, No. 1	3
Washers, spring, bolt locking, No. 1	3
	Annual Allowance for 1,000 Bayonets, No. 1, Mk. I.
Bayonets, No. 1—	
Nuts, bolt (b)	10
Springs, bolt	10

(*a*) Not for rifles carried in cavalry rifle buckets.

(*b*) The screwed end of the bolt should be slightly riveted over the nut.

(*c*) For rifles carried in cavalry rifle bucket.

III.—CONTENTS OF TOOL KITS FOR MECHANICAL TRANSPORT.

(Excluding Makers' Special Tools.)

Description.	For all petrol-driven vehicles other than Motor Cycles.	For Motor Cycles.	Remarks.
Rolls or bags, tool kit, empty	1	1	
Bars, tommy, for box spanners	1	—	
Drifts, copper	1	—	
Chisels, hand, cold, ½-inch by 6-inch	1	—	
Files—			
Bastard, round, 8-inch...	1	—	
Second cut, half-round, 10-inch	1	—	
Hammers, riveting, 24-oz.	1	—	
Handles, file, middling	1	—	
Pliers—			
Side-cutting, 7-inch ... ... pairs	1	—	
Flat-nose ... ... ,,	—	1	
Punches, pin, ⅛-inch	1	1	
Screwdrivers—			
10-inch overall	1	—	
6-inch overall	—	1	
Spanners—			
Box—			
¼-inch by $\frac{6}{16}$-inch	1	—	
⅜-inch by $\frac{7}{16}$-inch	1	—	
½-inch by ⅝-inch	1	—	
D.E.—			
½-inch by $\frac{3}{16}$-inch	1	—	
⅜-inch by $\frac{5}{16}$-inch	1	—	
$\frac{7}{16}$-inch by ½-inch	1	—	
Sparking plug (D.E. box spanner, $\frac{9}{16}$-inch at each end, and drilled to take a tommy bar in two places, length approx. 4-inches) ...	1	—	
Wrenches, adjustable—			
4-inch	—	1	
6-inch	1	—	
12-inch	1	—	
9-inch, footprint pattern	1	—	
Tape, insulating, adhesive, ½-inch ... lbs.	½	—	
Wire, ordinary copper, soft, 20 S.W.G. ,,	½	—

NOTES.

List of References.

(*a*) One for each lock-up receptacle. Will be replaced by galvanized padlocks, 2-inch, when worn out.
(*b*) Stretchers, as necessary, for ambulance bodies.
(*c*) Where necessary.
(*d*) When vehicles are fitted with pneumatic tyres.
(*e*) M.T. Supply, for equipment of vehicles only, to be issued as required.
(*f*) Dimensions to be stated on indents.
(*g*) Type of vehicle to be stated on indents.
(*h*) Type of magneto to be stated on indents.
(*j*) Type and size of wheel and tyre and type of vehicle to be stated on indents.
(*k*) An additional tyre pressure gauge authorized for each 5 pneumatic-tyred vehicles with unit.
(*l*) Jacks—armoured-car type.
(*m*) Foot or hand pumps not provided when vehicle fitted with mechanical power inflator.
(*n*) One bulb horn authorized in addition when vehicle fitted electric horn.
(*o*) Only available when vehicle fitted acetylene lighting set.
(*p*) Only available when vehicle fitted electric lighting set.
(*q*) As necessary, when fitted with detachable wheels or rims.
(*r*) Closed cars—one coir fibre and one carpet mat.
(*s*) W.O. Standard tool kits (I.C. steam and motor cycle) (*see Schedules*).
(*t*) Vehicle makers' special tools. (List applicable for each make of vehicle available from M.T.S.D.)
(*u*) Ford cars, vans, ambulances. Special tool kit only will be issued. (List available from M.T.S.D.)
(*v*) To be made by company artificers.
(*w*) When belt-driven.
(*x*) Vehicles fitted with tyres of 6-inch diameter or over will only be issued with spare covers when long journeys are contemplated or when covers fitted to vehicles are wearing thin or when specially ordered.
(*y*) To be issued only when spare cover is carried.
(*z*) An additional spare pneumatic tube may be carried when a spare wheel or rim with pneumatic cover is issued.
(*aa*) Where authorized.
(*ab*) Home only, to be fitted to rear side of side car on combinations.
(*ac*) Not required for Ford vehicles.

APPENDIX I.

(Referred to in paragraph 7.)

CERTIFICATE OF CHANGE OF COMMAND.

WE CERTIFY, in accordance with paragraph 7, Equipment Regulations, Part 3, that on the transfer of the equipment

of the*.....

on the†.....

the whole has been verified, and has been found to be properly appropriated, in good condition, and to agree in the quantities and numbers of the several articles actually in possession, with those shown in the equipment ledger of the unit‡

.....

Accountant giving over charge.

.....

Accountant taking over charge.

.....

* Here insert the unit.

† Here insert the date.

‡ In cases where discrepancies are found to exist between the quantities actually in possession and the equipment ledger, the following words are to be added to the certificate, "*with the exception of the items shown in the accompanying list of discrepancies.*" Any explanation that can be given to account for such discrepancies should also be forwarded.

APPENDIX II.

(Referred to in paragraphs 47 to 52.)

INSTRUCTIONS FOR KEEPING EQUIPMENT LEDGERS.

1. The ledgers will contain a faithful record of all public equipment, the property of the Government, received or issued. Articles of public equipment detailed in Appendix XIX will be recorded in manuscript at the end of the equipment ledger, showing the W.D. registered numbers, or, where such do not exist, the maker's name and number. In the event of any of these articles having no such number, the remark "No identification mark exists" will be entered.

16
Gen. No.
4379

57
Gen. No.
3084

Digitized by Google

The manuscript list will be marked "Certified correct" by the C.O. after verification by him. The ledgers will be balanced up to 31st March in each year, and will be forwarded before the 1st May, with the vouchers in support, through the County Association, to the local army audit office. The vouchers are to be laid flat in the equipment ledger.

2. Copies will be kept of all equipment ledgers sent for examination. Should any queries arise on the examination of the ledgers, copies of such queries and of the replies will be retained by the accountant, who will correct his copy of the ledger accordingly.

3. On a unit being disbanded the equipment ledger will be balanced and forwarded to the local army audit office.

4. When, upon a change of command, equipment is transferred from one accountant to another, the procedure laid down in paragraphs 6 to 8 of these regulations will be followed.

5. Any stores found to be surplus will at once be brought on charge in the ledger by certificate receipt voucher. The voucher will be signed by the officers who sign the certificate. All stores found to be deficient will be struck off charge, and dealt with as laid down in paragraphs 27 to 34 of these regulations.

A balance will then be struck, as directed in paragraph 12 of this appendix, which will show the total of each article of equipment for which the officer who takes over command is responsible.

6. Stores supplied in sets or as complete articles, for which a single heading is provided in the printed equipment ledgers, will be so accounted for. Thus chests with tools will be shown as "chests, tool, filled." A certificate will be given at the end of the ledger by the C.O. to the effect that the sets and tool chests are complete, and that they contain the articles which should be comprised in them, as detailed in the regulations. When articles charged in detail are taken on in the equipment ledger as sets, reference will be given to the paragraph or table of the regulations which gives the detail. The articles drawn from the R.A.O.C. or M.T.S.D. to replace losses, etc., in these sets will be taken on charge in the ledger, and the corresponding articles paid for or returned to store will be written off under the same heading. Transactions in component parts of complete articles will be recorded in the ledgers in the same way (but *see* paragraph 48).

If the two transactions do not occur in the same period of account, explanatory cross references will be given on each of the vouchers concerned.

7. All transactions of receipt and issue that should be recorded in the ledgers will be posted as soon as possible after they occur, and will be supported by voucher. The posting of an issue voucher should not be delayed pending the return of the receipted copy.

26 Regs. 165

8. Vouchers for stores issued are called issue vouchers, and are posted on the right hand or credit side. Vouchers for stores received

Digitized by Google

are called receipt vouchers, and are entered on the left hand or debit side of the ledger.

9. Both receipt and issue vouchers will be filled in by the insertion of the total numbers only in the column of the voucher headed "total number or quantity," the columns S. R. D. and U. being left for use of the R.A.O.C.

10. The ledger folios at which entries are made should invariably be noted on the vouchers supporting the account in the column headed "ledger folio."

11. Receipt vouchers and issue vouchers will be kept distinct from each other, arranged consecutively according to date, and numbered on the face of the voucher in two distinct series from 1 upwards for the whole period of the account. The total number of each series will be stated on the inside cover of the ledger. In the event of it being necessary to put up blank vouchers with the account to account for missing numbers, a brief explanation of the circumstances, signed by an officer, will be given on them. The addition of sub-numbers or letters to the numbers of the vouchers is prohibited.

12. The ledger is balanced by adding up the receipts on the left hand side, and the issues on the right hand side of the ledger, by bringing the total issues over to the left hand side and writing them immediately under the total receipts; the quantities left become the ledger balance or "remain." The remain, when carried forward as the commencing line of the next account, is called the "state."

13. Officers will take care that the ledgers and vouchers are not ticked or altered with coloured pencil or coloured ink, that no correspondence is carried on upon them, and that no erasures are made. No entries should be made in black lead pencil either in the ledgers or on the vouchers. Any necessary corrections should be made in black ink or indelible pencil, and will be duly initialled in the case of vouchers by the person who signs the vouchers, and in the case of ledgers by the responsible accounting officer; but the original entries should remain legible.

14. Before signing and forwarding the equipment account the O.C. the unit will cause the stores to be verified as required by paragraph 6 of these regulations. In cases where discrepancies are found to exist between the quantities actually in possession and the equipment ledger, a statement of such discrepancies should accompany the account.

The C.O. or an officer on his behalf, who should not be the officer immediately supervising the accounts and stores, shall at the same time examine the ledger and its vouchers.

MECHANICAL TRANSPORT ACCOUNTS.

26 Regs. 170

15. Mechanical transport stores will be accounted for in accordance with the procedure laid down in Supply, Transport and Barrack Services.

ACTIVE SERVICE.

16. Units (including those formed on mobilization) will account for equipment as in peace, unless other instructions are issued by the Army Council.

APPENDIX III.

(*Referred to in paragraph* 58.)

CONDITIONS GOVERNING THE SALE OF RIFLES.

Rifles of any service pattern may be issued on prepayment, under the following conditions, to officers, warrant officers, N.C.Os. and men of the Territorial Army :—

Conditions.

(1) Issues, which will be limited to one rifle per officer, warrant officer, N.C.O. or man, will be authorized on the distinct understanding that it is not required for the purposes of sale or trade.

(2) Rifles must be obtained from Weedon, and are not to be issued on prepayment from local stock. They will be demanded through the usual channels on quarterly indents, which should be submitted so as to reach Weedon on the 1st January, 1st April, 1st July, and 1st October.

A nominal roll showing the ranks, names, and units of the individuals for whom arms are demanded should accompany each indent.

A.O. 423 1920

(3) Prior to despatch from Weedon a special sale mark → S ← will be applied to all rifles issued for sale.

(4) Rifles bearing the special sale mark will be issued on prepayment.

Local stocks of arms bearing the special sale mark will not be held in anticipation of prepayment demands.

(5) The vocabulary rate current at date of issue, plus 1*s.* per arm to cover the cost of special sale marking, will be charged, and recovered locally by the command paymaster.

(6) Rifles sold under the foregoing conditions will become the personal property of the purchaser, and will not be accounted for in the equipment ledgers of units.

Digitized by Google

(7) Spare parts and components may also be supplied on prepayment for the repair of service arms issued under the foregoing instructions. Barrels with bodies must be obtained from Weedon in the manner prescribed for complete arms. They will be marked with the special sale mark, for which a charge of 1s., in addition to vocabulary rate, will be made. Credit for replaced parts, if returned to store, cannot be allowed.

APPENDIX IV.

A.O. 284
1921

(*Referred to in paragraph* **102.**)

DETAILS OF SETS OF HARNESS, SADDLERY AND PACKSADDLERY.

TABLE 1.—SADDLERY, OFFICERS.

Description.	No. per set.	Remarks.
Section No. 2A.		
Ropes, head, cotton, with leather billet ...	1	For camp the hemp pattern will be issued as part of camp equipment.
Section No. 6A.		
SADDLERY, OFFICERS.		
Bits, bridoon, with reins	1	
Bits, portmouth, reversible—		
Heads, bridle...	1	
Cases, horseshoe { near, Mk. III	1	
Cases, horseshoe { off, Mk. II	1	
Collars, head, Mk. II	1	
Cruppers	—	5 per cent. may be issued.
Girths, web, Mk. III ... ... pairs	1	
Leathers, stirrup	2	
Pannels, pattern 1915 ... ... pairs	1	
Reins, portmouth, bit	1	
Saddles, pattern 1915	1	
Straps { and wallet	2	
Straps { cloak { centre	1	
Straps { extending picket peg strap	1	
Surcingles, leather	1	
Wallets, Mk. IV ... ... pairs	1	
SADDLERY, UNIVERSAL.		
Bits, portmouth, reversible	1	
Blankets, saddle	1	
Stirrups	2	
Straps { baggage	3	
Straps { sword, picket peg	1

Ropes, head, hemp, with ring, Mk. IV ...	1	
Section No. 6A.		
SADDLERY, UNIVERSAL.		
Bits, portmouth, reversible	1	
Heads, bridle	1	
Blankets, saddle	1	
Breastplates, patt. '84	—	10 per cent. of saddles for yeomanry. Other units when required.
Buckets, rifle, cavalry, Mk. II	—	As ordered.
Cases, horseshoe, with sword frog, Mk. II ...	1	Except R.A., unless armed with a cavalry sword.
Collars, head, Mk. IV	1	
Cruppers, saddlery	—	5 per cent of saddles.
Girths — cord	—	10 per cent. for yeomanry
Girths — leather, pattern '84	1	
Girths — pieces, extending (Sec. 5A) ...	—	5 per cent. of girths.
Leather, stirrup	2	
Martingales, breastplate	—	5 per cent. for yeomanry.
Pannels, numnah, Mk. III ... ... pairs	1	
Reins, bit	2	
Saddles, steel arch	1	
Stirrups	2	
Straps — baggage	3	
Straps — shoe case, patt. '84	—	1 for each case, horseshoe, with sword frog.
A.O. 75 / 1924 — Straps — sword, picket peg	—	1 for each man armed with a cavalry sword, except R.A., R.E. and Royal Corps of Signals.
Surcingles, leather	1	
Surcingle, leather, straps extending	—	10 per cent. of surcingles.

TABLE 3.—Harness, Pole Draught, G.S.

Description.	No. per set. Near.	No. per set. Off.	Remarks.
Section No. 2A.			
Ropes, head, hemp, with ring, Mk. IV ...	1	1	
Section No. 5A.			
Harness, Pole Draught, G.S.			
Breechings (*b*)	1	1	Wheel only, except heavy draught
Breechings (*b*) large	1	1	Wheel only, heavy draught
Breechings (*b*) straps, extending (*a*)	—	—	2 for each breeching for 20 per cent. light and 10 per cent. heavy draught.
Collars, breast, Mk. III (*b*)	1	1	
Leggings, drivers	1	—	
Neckpieces, pole-bar	1	1	Wheel only.
Pads collar, Mk. II	1	1	
Pads luggage, R.H.A.	—	1	R.H.A. only.
Pannels, luggage pad, R.H.A. ... pairs	—	1	R.H.A. only.
Reins bearing	1	1	Or reins, bit (Saddlery, Universal).
Reins driving, long ... ... sets	—	—	1 for each G.S., and ambulance wagon.
Rings, rein, driving	2	2	Wheel only when long driving reins are used.
Straps collar pad	2	2	
Straps hip, long, wheel (*b*) ... pairs	1	1	Wheel only.
Straps loin, lead	1	1	Lead and centre only.
Straps neck	1	1	
Traces, wire adjustable ... ... pairs	1	1	Wheel only.
Traces, wire long ... ... ,,	1	1	Lead and centre only.
Traces, wire short ... ... ,,	1	1	Lead and centre only.
Traces, wire wheel ... ... ,,	1	1	Wheel gun sets of medium batteries only, in addition to adjustable wire traces.
Tugs, neckpiece (*c*)	1	1	Wheel only.
Whips drivers	1	—	
Whips driving	—	—	1 for each set of driving reins.

(*a*) Also suitable for extending "neckpieces, pole-bar," if required.

(*b*) Breechings, small ... ... } Will be issued in lieu in the case of Pack Artillery.
Collars, breast, small ... }
Straps, hip, wheel, small ... }

(*c*) Tugs, neckpiece, will not form part of sets of harness for vehicles fitted with bars, supporting draught pole.

APPENDIX V.

(Referred to in paragraph **105.**)

INSTRUCTIONS FOR THE CARE AND PRESERVATION OF HARNESS, SADDLERY AND PACKSADDLERY.

54
Gen. No.
4791

GENERAL.

1. Leather used in the manufacture of harness and saddlery is of two general descriptions:—

Crop Leather.—No grease is used in the making, and it is intended for use where a considerable amount of stiffness is necessary as in a rifle bucket or the seats and flaps of saddles.

Curried Leather.—Produced by introducing grease composed of cod oil and tallow into the fibres of the leather after tanning so as to make it pliable. The various descriptions of this leather are known as "heavy," "collar," "bridle," "light hide," "shoulders," and "cloak hide." By far the greater quantity of leather used in the manufacture of harness and saddlery is curried.

2. Black saddlery leather only differs from brown in that the upper surface is dyed black.

3. In both crop and curried leather the smooth upper surface from which the hair has been removed is known as the "grain," the under surface as the "flesh."

Harness, Saddlery or Packsaddlery in Storehouses.

4. It is most important that storehouses should be dry and well ventilated.

Leather becomes mouldy (mildewed) if stacked in a damp state, or if stored in damp or unventilated premises, and if not attended to the "grain" is affected. Mould can be removed by wiping or brushing off, and the ill effects if taken in time can be remedied by re-treatment with dubbing or tallow.

The temperature of a storehouse should be kept at about 60 degrees Fahr.

5. Leather stored in a draught or exposed to excessive light deteriorates.

The frames in which harness, saddlery or packsaddlery is stored should be provided with canvas as curtains and top cover. This will shield the leather from sun and excessive light, and also prevent the accumulation of dust.

Digitized by Google

6. *Method of Storage.*—Particular attention is to be given to the storage of each class of article to prevent it becoming unshapely or unsuitably bent.

Breechings.—If not kept flat, are to be folded in bundles of three, one seat inside the other, the loin straps of each being passed outside and round the three, care being taken that the seat of any breeching is not sharply bent.

Breast Collars.—Are to be kept on the curve similarly to when in use, and in bundles of three, paper being placed between the breast collars to prevent the steel work blackening the leather. They are not to be hung over poles or narrow wood bars.

Head Collars.—Are to be tied by the tops of the heads only in bundles of six, and suitably hung in the frame.

Neck Collars.—Are to be hung on the short bars across the frame.

Officers' Saddles.—Mark IV or V are to be covered and encased with thin paper, secured with string, each saddle being separate and not packed one on the other. Saddles without pannels will be stacked in bays, end upwards, on the front arch, resting on paper, and then covered over with paper and canvas.

Universal Saddles, Luggage Saddles, etc.—Are to be placed with the rear points of the sidebars uppermost. They are not to be laid flat on the shelves, nor are the flaps to be spread or sharply bent in.

Officers' Wallets.—Are to be packed in two or three pairs, the package being covered with paper.

Cavalry Rifle Buckets.—Are to be hung up on poles or lines by their straps, and not stacked on each other; stacking has the effect of flattening them out of shape.

When packed as a temporary measure in vats or cases, the shape of each bucket must be preserved by filling it out with paper, straw or hay, and allowing sufficient space to prevent compression.

Wire Traces.—Should be kept straight.

Strapping Generally.—Should be kept flat on shelves, and not rolled or buckled. The heads and reins of officers' saddlery will be stacked and covered with paper.

Bits.—Will be kept separate from leather work. The bridoon bits of officers' saddlery should be laid out clear of the reins and covered with paper.

Metalwork Generally.—Must be kept from resting against leather, paper being introduced between the two materials when necessary.

Leather Hides or Pieces of Hides.—Are to be kept flat on shelves, but crop hides may be rolled in parcels of five. Pipe strips for re-covering wire traces are also to be kept flat.

Digitized by Google

Textile Articles.—Articles liable to destruction by moth, such as saddle blankets, numnahs, numnah pannels, worsted girths, etc., will, when possible, be kept in the original bales.

Loose articles of this nature, also stuffed pannels for officers' saddles, are to be packed in cases lined with brown paper. The paper must be devoid of holes and tears, and folded over where the ends join in such a manner as to prevent any opening through which moths may penetrate. Packing needles or other instruments should not be allowed to penetrate the paper.

A sprinkling of naphthalene should be placed inside the packages, but it is not necessary to smother articles in naphthalene.

The packages should be kept in the light.

26 Regs. 208

PRESERVATIVE TREATMENT OF HARNESS, SADDLERY OR PACKSADDLERY IN STOREHOUSES.

7. Different methods of treatment must be employed for crop and curried leather. In the former it is important to preserve the stiffness, and the only treatment consists in applying tallow to the "grain" side to prevent cracking. In the latter it is important to preserve pliability, and this is done by applying dubbing, or tallow in the case of certain articles specified in this paragraph.

No hard or fast rule can be laid down as to how often leather should be treated with dubbing or tallow. This must be determined by its appearance and "feel."

The grain of any description of leather will give indications of whether re-treatment is requisite by an obviously dry appearance. In articles or parts where pliability is essential, a further test is possible by passing between the forefinger and thumb and slightly bending the leather whilst so doing. when want of grease will be evident to the touch. It must, however, be borne in mind that articles which are in intimate touch with the animal, such as the inside of a breast collar or girth, require treating more often than, say, the releasable strap of a wire trace, where a certain amount of stiffness is requisite for efficient use. Also articles made from leather known as "cloak hide," such as packsaddlery breechings and breast collars, Hotchkiss ammunition cases, saddlery wallet covers and gussets, may require more frequent treatment than other articles, as the leather is only dressed with grease, and a drier appearance is consequently presented than in other articles.

Grease such as dubbing or tallow is only a preservative when it enters the fibres of the leather. The best way to ensure this is to apply it when the leather is in a damp condition, for as the moisture dries the grease enters. But it must be remembered that only a certain amount can be absorbed; and therefore to use it in excessive quantities is both useless and wasteful, and only produces a surface to which dirt readily adheres.

Digitized by Google

The following articles should be treated with tallow :—

ARTICLES.

All articles of officers' saddlery, but seats and flaps of saddles on the smooth surface only.
Cavalry rifle buckets (on the smooth surface only).
Strapping or leather fittings of numnahs or numnah pannels.
Saddles, S.A. seats and flaps (on smooth surface only).
V-girth attachments and straps.
Packsaddlery pannels, backs of.
Leather parts of web girths.
Packsaddlery breast collars and breechings.
Caps, shovel.
Cases, spare barrel.
Neck collars—all parts except lining.
Pads, luggage, R.H.A.
Saddles, luggage—seats and flaps on smooth surface only.

Dubbing will be used on all articles other than these.

Method of Treatment.—All dirt or dust should first be removed. The leather work should, wherever possible, be made slightly damp on both surfaces by sponging with cold water. Both surfaces should then be treated with the tallow or dubbing, as the case may be, which in the winter may be slightly warmed if necessary.

Articles of crop leather (as they require treating with tallow on the grain side only) will only be damped on that side.

8. *Metal Parts.*—Rust must be carefully guarded against by lacquering the iron or steel parts with varnish. If rust has formed it must be removed before relacquering.

ARTICLES OF HARNESS, SADDLERY OR PACKSADDLERY IN USE.

9. *Handling and Repairs.*—Reasonable care must be exercised in the handling of articles of harness and saddlery.

Fractured arches or broken sidebars result when saddles are carelessly dropped or thrown about; a rifle bucket may damage the rifle itself if the body is bent out of shape; the usefulness of a collar pad is destroyed when its shape is altered by rough usage; the "throat" of a neck collar is weakened or even broken by unduly stretching the top—these are a few of the more common results of misuse.

Minor defects should be attended to at once—a serious repair is often thus avoided. Stitching should be tested from time to time, as the life of thread is shorter than that of leather. Making holes in strapping by any means other than that of the saddler's punch should be discouraged.

Girth straps require special attention, as the scoring of the leather between holes incidental to "girthing up" results sooner or later in the strap becoming unserviceable owing to a break in the material.

10. The scrubbing of leather is undesirable as it rots the stitches. It should not be resorted to unless the dirt or grease is too thick to be removed by washing in lukewarm water and soap with a sponge. Soda in the water, or hot water, destroys the leather, and must not be used.

Digitized by Google

11. The drying of leather by the fire, or keeping it near fires or heating apparatus, destroys its durable properties.

12. *Care and Preservation.*—Particular attention is drawn to paragraph 7 of this Appendix regarding leather and its preservation, which is also applicable to articles in use, except that dubbing will be used instead of tallow.

It is desirable that harness, saddlery and packsaddlery in continuous use by troops should, when the necessary facilities are possible, be laid by in dubbing for two or three days once in every six months, as in this way the life of the article is prolonged by the leather being fed. The whole of the strapping should be taken to pieces, and the leather damped and treated with dubbing as laid down for new articles in store.

Soft soap is not a preservative in the same sense as dubbing or tallow. It should only be employed on articles in actual use to produce mellowness in the leather. If applied too freely it gives a dark appearance which is unsightly.

Saddle soaps commonly used to produce the same effect are not objectionable provided they are of good quality.

Soft soap should be used daily where articles are in constant use to produce mellowness in the leather with subsequent pliability of strapping and preservation of the "grain." But similarly to dubbing it is only waste to use it thickly, and the best way is to apply it in a lather with a sponge.

Leather which has become wet in use should be treated with a light application of dubbing to prevent a hard and stiff condition arising when dry.

Parts of harness or saddlery affected by sweat from the animal, *i.e.*, the inside surfaces of breast collars, leather girths, etc., should be sponged after use with clean cold water, and then soft-soaped to keep them pliable and soft.

When harness and saddlery is not kept in saddle or harness rooms but is hung in the stables, the leather suffers somewhat from the action of ammonia, but the six-monthly treatment with dubbing usually prevents any ill-effects that might arise.

13. *Care of Felt, Web, Rope, and Textile Parts.*—Saddle blankets, pannel numnahs, the lining of neck straps, etc., should after use be placed in the sun or wind to dry, and then beaten and brushed. Scraping the grease from felt must be prevented—it should not be allowed to become necessary.

Web girths may be scrubbed with clean cold water, and drivers' whips may be similarly treated, but scrubbing of rope work must be avoided unless absolutely necessary, as it tends to rot the rope.

14. *Care of Metalwork.*—Bits, stirrups, etc., should be wiped dry after use and then rubbed over with an oiled rag. Much trouble will be saved if this is done before the rust has time to form. Before using the bit again, wipe the oil from the mouthpiece.

Grease must also be removed from the under surface of collar pads—this if done daily removes one of the causes of sore withers.

APPENDIX VI.

DETAIL OF CHEST, TOOL, COMPLETE.

BLACKSMITH'S MARK "B*" (M.T.).

Part No.	Description.	No.
43962	Chest, complete with tools, consisting of the following :—	
8315	Chest, tool, empty	1
22768	Apron	1
1049	Calliper, outside, 8-inch	1
1051	Calliper, inside, 8-inch	1
1736	Chisel, cold, crosscut, 7-inch × ¼-inch	1
1732	Chisel, cold, flat, 8-inch × ¾-inch	1
22791	Compass, wing, 9-inch	1
12750	Crease, bottom, ⅜-inch	1
9505	Crease, bottom, ½-inch	1
9506	Crease, bottom, ⅝-inch	1
9507	Crease, bottom, ¾-inch	1
9508	Crease, top, rodded, ⅜-inch	1
9509	Crease, top, rodded, ½-inch	1
9510	Crease, top, rodded, ⅝-inch	1
9511	Crease, top, rodded, ¾-inch	1
S/3722	File, flat, bastard, 14-inch	1
3729	File, half-round, bastard, 14-inch	1
S/3736	File, round, bastard, 14-inch...	1
3109	Flatter	1
3262	Fuller, bottom, ⅜-inch	1
3265	Fuller, bottom, ½-inch	1
3598	Fuller, bottom, ⅝-inch	1
3599	Fuller, bottom, ¾-inch	1
3263	Fuller, top, ⅜-inch	1
3264	Fuller, top, ½ inch	1
3597	Fuller, top, ⅝-inch	1
3600	Fuller, top, ¾-inch	1
4540	Hammer, ball pane, 2½-lb., handled	1
26961	Hammer, fore, 7-lb., handled	1
11450	Hammer, fore, 10-lb., handled	1
12680	Hammer, set, handled	1
4491	Handle, file, wood, assorted	4
4493	Handle, hammer, 36-inch	1
12646	Handle, hammer, 18-inch	2
12684	Handles, wire, for punch	4
14105	Hardie (or anvil cutter)	1
21944	Poker	1
6670	Punch, centre, 4½-inch	1
9589	Punch, rivet, ½-inch	1
18384	Punch, rivet, ⅝-inch	1
18?83	Punch, rivet, ½-inch	1
22771	Punch, round, rodded, ⅝-inch	1
12204	Punch, round, rodded, ½-inch	1
6672	Punch, round, rodded, ⅜-inch	1
4342	Rake	1

INSTRUCTIONS FOR MARKING W.D. HORSE AND MECHANICAL TRANSPORT VEHICLES AND BICYCLES, AND CALIBRATION DETAILS ON GUNS AND HOWITZERS.

REGIMENTAL MARKS.

1. All vehicles and bicycles will be marked with the title of the unit in whose charge they are held. In the case of artillery batteries the letter of the sub-section will also be marked on vehicles.

The abbreviations to be used for titles of units are shown in Table 1.

The position of the marks will be as follows:—

Gun and howitzer carriages ...	On trail, off side.
B.L. 9·2-inch howitzer—	
Carriage, transporting—	
Bed	On rear of axletree, off side.
Body and cradle	On rear of axletree between the axletree clips.
Limber, transporting—	
Bed	On front face of the frame draught between the upper and lower plates.
Body and cradle	
Wagon, transporting	On off side of body between the bracket carriage body and the strut strap.
Limbers and ammunition wagons—	
Q.F. 13- and 18-pdr.	Centre of back of ammunition boxes.
B.L. 60-pdr.—	
Gun limbers	Back of off limber box, close to top.
Ammunition wagons and limbers	Back of ammunition box, off side, close to top.
B.L. 6-inch 26-cwt. howitzer ...	Back of limber box, near side, close to top.
Q.F. 4·5-inch howitzer ...	Back of ammunition or limber box, off side, low down.
B.L. 6-inch gun and 8-inch howitzer	Back of limber box, near side, close to top.
Anti-aircraft equipments—	
Mountings	On front of the pedestal.
Lorries or other transport ...	Off side, in most convenient position.

Digitized by Google

Railway truck equipments—	
Mountings and trucks	On either side, in most convenient position.
Wagons, ammunition	
Carts—	
Tool, R.E.	Off side at front (on side frame).
Water tank, Mark IV	Off side of tank, at front.
Water tank, Marks V to VII ...	End of barrel, near side.
Kitchens, travelling	Rear of body and rear of limber, off side.
Wagons—	
Airline	Off side of front body, low down.
Cable	Off side of futchel of body, and off side of footboard of limber.
G.S., Mark IX	On diagonal portion of body under footboard, off side.
G.S., Marks X and X*	Body of wagon, off side, at front.
Pigeon Loft	
Limbered, G.S.	On rear of both portions, off side.
Pontoon (or trestle)	Off side, at front.
Telephone	On off block, supporting drum bearings of wagon body at front and on off side of limber box.
Other vehicles (if construction admits)	On body of vehicle, off side, as far to the front as possible and low enough to be clear of the cover. *Limbered vehicles will be marked on both portions.*
Bicycles	Across the rear mudguard, 4 inches above the bridge, and on the upper side of the bottom tube commencing just clear of the bottom lug of the ball-head.

Medical Units.

2. All vehicles in possession of medical units will be marked with the Geneva Cross.

Digitized by Google

WEIGHT AND LOAD.

3. The "weight of vehicle" and the "weight of load the vehicle is designed to carry," as shown in List of Changes, will be marked on the near side of vehicles as near the centre as possible, low down.

MECHANICAL TRANSPORT.

4. All M.T. vehicles will be numbered and the general register of numbers will be kept by the Officer i/c Vehicles Records, M.T. Stores Depôt. Vehicles will be numbered consecutively irrespective of class, but the following identifying letters will be allotted to each class; the serial numbers for this purpose will be issued by the M.T. Stores Depôt to M.T. units in the United Kingdom :—

C. for motor cycles.
M. for motor cars.
V. for motor vans.
A. for motor ambulances.
L. for motor lorries.
T. for tractors of all kinds.
X. for trailers of all kinds

57 Veh. 235

The W.D. numbers will always be shown with the appropriate class letter mentioned above.

5. *Method of marking.*—The following marks will be painted on all M.T. vehicles :—

(*a*) Weights, etc., as required by law.
(*b*) Registration number.
(*c*) Designation of arm of service.
(*d*) War Department number and class letter.
(*e*) Load-carrying capacity (light lorries and motor vans (heavy)).

6. The position of these will be :—

(*a*) The authorized speed should be shown on the bottom of the near side of cab, the weights being shown in a corresponding position on the off side of cab. The weights to be shown are unladen weight—U.W.; front axle weight—F.A.W.; and hind axle weight—H.A.W. The axle weights are the maximum permissible laden weights. Where a vehicle on receipt is not inscribed with the weights, details will be furnished on application to the O.C., M.T. Stores Depot. The inscription of weights applies only to vehicles over 2 tons weight unladen and to trailers over 1 ton weight unladen, *i.e.*, all W.D. lorries and heavy trailers. The inscription of speed in miles per hour applies to lorries but not to trailers.

A.O. 197 1925

(*b*) On plates suspended at front and rear of chassis as required by law.

(*c*) In the case of lorries, box vans and ambulances, on near side of body. A stencil plate to be obtained from the M.T.

Digitized by Google

Stores Depôt, Feltham, Middlesex, will be used for this purpose.

Cars, except those specially exempt (for which a metal plate to be fixed to the inside of the dash may be supplied locally), should be marked in 1-inch letters and figures on the outside of the dash on near side of car, the design taking the general form of the stencil used for other vehicles.

In the case of lorries, cars, box vans and ambulances the W.D. number, in addition to being marked in the manner shown above, will also be marked in letters of convenient size on an accessible part of the near side member of the frame, in order to prevent loss of identity of the chassis, if at any time occasion arises to remove or exchange the body. In the event of any such changes the body number must in all cases be amended to tally with the number borne by the chassis to which it is attached.

Motor cycles will be marked on the near side of the petrol tank in letters and figures of convenient size.

(*d*) The class letter will be placed below the corps initials, and the War Department number below the class letter, thus :—

R.A.S.C.
M.
251

in accordance with the stencil supplied.

A.O. 197 1925

(*e*) In the case of light lorries and motor vans (heavy), the load-carrying capacity will be painted across the tail-board in letters three inches high, thus :—

For motor lorries (light).
LOAD NOT TO EXCEED 30-CWTS.

For motor vans (heavy).
LOAD NOT TO EXCEED 15-CWTS.

7. In any case where it is desired for special reasons to modify the application of 6 (*c*) and (*d*) in the case of motor cars the matter will be referred to the War Office.

GENERAL INSTRUCTIONS.

8. White paint will be used for the marking referred to in paragraphs 1 and 3. The size and style of marking will be as laid down in Table 2. Stencils, paint and brushes will be supplied by the R.A.O.C.

Digitized by Google

TABLE 1.—ABBREVIATIONS TO BE USED FOR TITLES OF UNITS.

Unit.	Abbreviations.
The Ayrshire Yeomanry	Ayr Yeo.
The Cheshire Yeomanry	Cheshire Yeo.
The Lanarkshire Yeomanry	Lanark Yeo.

52nd (Lowland) Divisional Mobile Veterinary Section, R.A.V.C.	52 Div. Mob. Vet. Sec.

NOTE.—Slight expansion of the abbreviated titles to show the derivation or special sub-title of units may be permitted, provided prior War Office authority be obtained in each case.

TABLE 2.—SIZE AND STYLE OF MARKING.

Marking.	Size of Letters and Numerals on—		Style.
	Vehicles.	Bicycles.	
Weight and load of vehicle (*see* para. 3)	¾-inch	—	Plain block, except division numeral, which will be "Roman."
All other regimental marks—			
Capitals and numerals ...	1½-inch	½-inch	
Remainder	1-inch	⅜-inch	

TABLE 3.—INSTRUCTIONS FOR MARKING CALIBRATION DETAILS ON GUNS AND HOWITZERS.

1. To secure uniformity, the recording of calibration details on guns and howitzers should be in accordance with the examples shown in the following table.

2. In all cases ¾-inch letters or numerals and white paint will be used (*a*).

Nature of ordnance.	Example of marking.	Position of marking.
Q.F. 18-pr. gun, Mk. IV B.L. 60-pr. guns, Mks. II & II* B.L. 6-in. gun, Mk. XIX Q.F. 3·7-in. howitzer, Mk. I B.L. 6-in. 26-cwt. howitzer, Mk. I B.L. 8-in. howitzers, Mks. VII to VIII	M.V. 1615 21/4/23 R.D.B. M.V. 806 21/4/23 CH. IV, R.D.B.	Painting to commence just in front of the breech ring on the right.
Q.F. 4·5-in. howitzers, Mks. I & II	M.V. 806 21/4/23 CH. IV, R.D.B.	Painting to commence just in front of breech opening on the right.
Q.F. 13-pr. guns, Mks. I to II Q F. 18-pr. guns, Mks. I to II B.L. 60-pr. guns, Mks. I to I**	M.V. 2110 4/23 N.C.T.	Painted on the right-hand side of the breech ring.
B.L. 9·2-in. howitzer ...	M.V. 1010 4/23 CH: IV. M.D.	

(*a*) For this purpose ½lb. of white paint per battery is allowed.
NOTE.—Two pence per letter or numeral will be allowed for the above marking.

TABLE 7.—MISCELLANEOUS STORES.

Description of stores.	No. for each regiment.
Section B. 2.	
Pistols, signal, No. 1	3
Section B. 3.	
Tools, cleaning—	
Funnels	8
Pots	8
Sticks	8
Section A. 1.	
Cases, pistol signal	3
Frogs, cutter, wire, folding	24
Straps, with buckle	24
Straps, with stud	24
Section No. 2A.	
Boxes, stationery, field, large	1
Screens, casualty—	
Blue	12
Red	12
Section No. 7.	
Bags, tool, farriers, filled (*a*)	1
Cutters, wire, folding	24
Holdalls, tool, saddlers (filled) (*a*)	4
Section V. 2.	
Compasses, prismatic, Mk. VIII	6(*b*)

(*a*) For detail of contents, *see* Appendix VI.
(*b*) For use of officers for training purposes.

TABLE 8.—Detail of Contents of Bag, Spare Parts and Tools M.G., Hotchkiss, ·303-inch.

Description of stores.	Number.
Section No. 16B.	
Boxes, tin, small parts, M.G.	1
Cans, oil, M.G.	1
Guns, machine, Hotchkiss, ·303-inch—	
Brushes, cleaning	1
Cleaners, gas cylinder	1
Covers, sight, fore	1
Ejectors	1
Extractors	1
Extractors, hand	3
Keys, ejector	1
Pins, firing	2
Rods, cleaning bore	1
Screws, locking	2
Sights, fore (*a*)	2
Springs—	
Cartridge stop	1
Ejector	1
Extractor	2
Feed, No. 2	2
Recoil	1
Sear	2
Washers, spring, backsight	6
Wrenches, dismounting	3(*b*)
Hammers, M.G.	1
Punches, No. 3, M.G.	1
Reflectors, mirror, ·303-inch, M.G.	1
Screwdrivers, large, M.G.	1
Section B. 1.	
Pull-throughs—gauze	4
Pull-throughs, double, Mark 1 "A"	2
Section B. 3.	
Brushes, hard, armourers	1

(*a*) Of heights corresponding with those fitted to the barrel in the gun, and spare barrel, respectively.

(*b*) One to be carried in pocket on gun butt.

TABLE 9.—DETAIL OF CONTENTS OF THE BOX AND OF THE CASE, SPARE PARTS AND TOOLS, VICKERS ·303-INCH, M.G.

Description of stores.	Number.
BOX, SPARE PARTS AND TOOLS. *Section No.* 16B.	
Belts, ammunition, ·303-inch, 250 rounds—	
Eyelets, long ... ... oz.	½
Strips, long	25
Strips, short	25
Boxes, tin, small parts, M.G.	3
Guns, machine, Vickers, ·303-inch—	
Blocks, feed, right-hand	2
Bushes, axis, side levers	1
Collars, roller	1
Cups, muzzle attachment, Mk. II	1
Discs, muzzle attachment	4
Fusees, with chain	1
Gibs	1
Levers, extractor, left	1
Levers, extractor, right	1
Packings, asbestos (pieces 5 yards long)	4
Pins, axis, trigger	1
Pins, axis, tumbler	1
Pins, firing	2
Pins, screwed, fixing, crank handle	1
Pins, split, fixing, collar, roller, No. 2	2
Pins, split, keeper, bush, axis, side levers	1
Pins, split, keeper, check nut, long	3
Pins, split, keeper, muzzle attachment	1
Pins, "T," fixing, rear-crosspiece	2
Plugs, front cover catch	2
Plungers, front cover catch	2
Rollers	1
Springs, bottom pawl, R.H. feed block	1
Springs, rear cover lock	2
Springs, front cover catch	2
Springs, gib	1
Springs, lock	4
Springs, sear	2
Springs, top pawls, feed block	2
Tools, belt repairing	1
Guns, machine, Vickers, ·303-inch, Mk. I—	
Corks, for plug	1
Glands, packing...	1
Plugs, cork	1
Plugs, screwed	1
Sight, fore	1
Sight, tangent	1
Springs, safety catch	2
Springs, sliding shutter catch	2
Springs, tangent sight	1
Springs, trigger bar	2
Hammers, M.G.	1

TABLE 9.—Detail of Contents of the Box and of the Case, Spare Parts and Tools, Vickers ·303-inch, M.G.—*continued.*

Description of stores.	Number.
BOX SPARE PARTT AND TOOLS—*continued.* *Section No. 16B—continued.*	
Mountings, tripod, ·303-inch, M.G., Mk. IV—	
Washers, packing nut elevating	6
Screwdrivers, large, M.G....	1
Spanners, shifting, ·303-inch, M.G.	1
Section G. 1.	
Pins, keep, split ⅛-inch by 2½-inch (*a*)	6
Section B. 1.	
Pull-throughs, Gauze	4
CASE, SPARE PARTS AND TOOLS (*b*).	
Section No. 16B.	
Balances, spring, M.G.	1
Cans, oil, M.G.	1(*c*)
Guns, machine, Vickers, ·303-inch—	
Locks	1
Plugs, clearing	1
Springs, fusee, with fittings	1
Tools, combination	1
Wallets, case, spare parts and tools, Vickers ·303-inch, M.G., filled (*b*)	1
WALLET, CASE, SPARE PARTS AND TOOLS (*b*).	
Section No. 16B.	
Guns, machine, Vickers, ·303-inch, Mk. I—	
Corks, for plug	1
Guns, machine, Vickers, ·303-inch—	
Cups, muzzle attachment, Mk. II	1
Discs, muzzle attachment	1
Fusees, with chain	1
Gibs	1
Pins, axis, trigger	1
Pins, axis, tumbler	1

(*a*) For Mk. IV. tripod mounting.

(*b*) Each "case, spare parts and tools" contains a filled "wallet." The stores which the latter contains are shown for convenience in this table. Cases are separately accounted for.

(*c*) Additional to those shown in Table 6.

TABLE 8.—Lewis Machine Guns and Equipment.

Description of stores.	For each Battalion on attaining— 50 per cent. of Peace Establmt.	75 per cent. of Peace Establmt.
Section A. 1.		
Braces, pouch, Lewis gun	164	324
Pouches, magazine, Lewis gun	328	648
Slings, Lewis gun	18	34
Section No. 16B.		
Bags, spare parts and tools, M.G., filled, Lewis ·303-inch (*a*)	18	34
Boxes, carrier, magazine, Lewis ·303-inch M.G.	68	132
Carriers, magazine, Lewis ·303-inch M.G.	36	68
Chests, Vickers or Lewis ·303-inch M.G.	18	34
Covers, Lewis ·303-inch M.G.	18	34
Guns, machine, Lewis ·303-inch—		
Bands, barrel	4	8
Barrels, Mk. I	18	34
Brushes, wire, rod, cleaning cylinder (*b*)	18	34
Butts, Mk. II	4	8
Caps, butt, Mk. I*	4	8
Cleaners, gas regulator	4	8
Cylinders, gas	18	34
Handles, loading, magazines (*b*)	90	170
Magazines, Mark I	372	724
Magazines, D.P.	(*f*)	(*f*)
Mops, rod, cleaning cylinder (*b*)	18	34
Rods, cleaning, cylinder	18	34
Rods, piston, complete	36	68
Guns, machine, Lewis ·303-inch, Mk. I (*c*)	18	34
Aim correctors	2	2
Jacks, screw, assembling and removing barrel (with collar)	2	4
Sights, back, A.A., Mk. II	2	2
Sights, fore, A.A., Mk. II	2	2
Guns, machine, Lewis ·303-inch, Mk. I, D.P. (*d*)	4	4
Holders, Lewis ·303-inch M.G., mounting tripod A.A.	2	2
Indicators, range, stadia, M.G.	2	2
Mountings, tripod, A.A., Lewis or Hotchkiss ·303-inch M.G.	2	2
Mounts, field, ·303-inch Lewis M.G., Mk. III (*e*)	22	38
Rods, cleaning, ·303-inch M.G., Mk. II	18	34
Section No. 27A.		
Cartridges, S.A., drill, ·303-inch rifles, carbines or M.G., Mk. VI	850	850

(*a*) For detail of contents, *see* Table 11.

(*b*) In addition to those included in spare parts bags.

(*c*) Includes two equipped for A.A. Defence.

(*d*) This is the normal scale, but variations to suit local conditions have been approved and equipments will be adjusted in accordance with instructions issued by G.Os.C. in C.

(*e*) Includes one for each D.P. Lewis M.G. in the normal scale, but will vary according to any variation in the guns; *vide* note (*d*).

(*f*) 3 for each service and D.P. gun.

APPENDIX XVIII.

INSTRUCTIONS ON THE CARE AND PRESERVATION OF TRAVELLING KITCHENS.

(*Referred to in paragraph* **120.**)

GENERAL.

1. Where possible, travelling kitchens must be kept under cover and, if necessary, rough shelters should be erected.

2. Every endeavour should be made to avoid rough roads when the kitchen is moved from one place to another.

3. They will not be used in standing camps or when other means of cooking can be utilized.

4. Before detaching the rear portion of the kitchen the props must be fixed under the perch, whilst the iron stay should be placed under the back to prevent the rear portion tipping up.

5. The carrying of unauthorized kit, etc., on the kitchen is forbidden.

LIFTING THE BOILER.

6. The boiler bearer must invariably be used for lifting the boiler on and off the fire. On no account should the boiler be lifted by hand.

7. The greatest care must be exercised to ensure that the boiler is not empty when it is replaced on the fire.

8. Boilers must be carefully handled at all times

CLEANING THE BOILER.

9. The boiler will be cleaned with hot water and soda after every meal and dried with a dish-cloth. Emery cloth, bath brick, sand, etc., must *never* be used in cleaning the boiler.

HEATING THE BOILER.

10. Before the fire is lighted care must be taken that all the boilers are properly filled.

Only the minimum fire should be maintained, especially during travelling. After use the fire should be completely raked out and the kitchen allowed to cool gradually. The kitchen should be covered up before becoming quite cold in order to avoid condensation. Before being stored for any length of time, parts in contact with the fire should be coated with mineral jelly.

The fire must not be extinguished with water, except in cases of urgent military necessity.

APPENDIX XIX.

(*Referred to in paragraph* **38** *and Appendix* II.)

List of stores the registered numbers of which are to be recorded in manuscript at the end of the equipment ledger, and to be quoted on vouchers and packing notes.

SECTION No. 15B.

Anemometers, electrical.
Apparatus, illuminating sights.
,, rangefinding, attachments, horizontal.
,, ,, brackets, horizontal, receiver, micro phone.
,, ,, position finders.
Binoculars, night.
,, prismatic and non-prismatic.
Boards, galvo, einthoven.
,, camera, auto-developing.
Cases stand, director.
Chronographs, Jacquet.
Clinometers, A.A., M.L., 3-inch mortar.
,, field.
,, inspectors.
,, large.
,, M.L., 6-inch mortar.
,, M.L., 3-inch and 4-inch mortars.
Clinometers, sight.
,, Vickers, ·303-inch machine gun.
Directors.
Galvos, einthoven.
Height and rangefinders.
Instruments, angle of sight.
Lanterns, galvo.
Lath, adjusting artillery rangefinders.
Monoculars, prismatic.
Motors, series, sound-ranging.
Paralleloscopes.
Periscopes, Nos. 14A, 25 and 31.
Plotters, field.
,, observation of fire.
Range, artillery miniature.
Rangefinders, artillery.
,, infantry.
,, depression.
Relays, starting, S.R.
Sights, dial.

Digitized by Google

Stands, stereoscopic telescope.
,, paralleloscope.
,, artillery rangefinders.
,, field artillery, telescope.
,, signalling telescope.
,, stereometer.
,, V.P. telescope.
Switches, power, S.R.
Testboards, 40 pair test and balancing.
Telescopes, sighting.
,, signalling.
,, marine.
,, stereoscopic.
,, variable power.
,, garrison.
Tuning forks, S.R.

SECTION No. 16B.

Guns, machine, Hotchkiss, ·303-inch.
,, ,, Lewis, ·303-inch.
,, ,, Vickers, ·303-inch.

SECTION C. 2.

Bicycles.

SECTION No. 28A.

Generating sets (engine, magneto and dynamo members).

SECTION No. 28B.

Bridgemeggers, 500 volts, 40 megohms.
Coils, resistance.
Exploders, dynamo.
Galvanometers.
Torches, signalling.
Voltammeters.

SECTION V. 2.

Alidades, telescopic.
Barometers, aneroid.
,, standard.
Clinos., Indian.
Compasses, magnetic, pocket.
,, prismatic.
,, ,, liquid.

Digitized by Google

Levels, telescopic.
Sextants, pocket.
Theodolites.
Watches, G.S.
,, R.A.
,, stop, 1/5th second.

SECTION Z.

Amplifiers.
Autakyms.
Compasses, magnetic, W.T.
Galvos.
Measuring sets—
Aerial.
Capacity.
Inductance.
Oscillators, C.W., valve.
Reception sets, auto.
Relays, autakym.
Tachometers, hand (12,000 r.p.m.)
Watches, non-magnetic, W.T.
Wavemeters.
W.T. sets.

REGULATIONS FOR THE EQUIPMENT OF THE ARMY, 1935

PART 3.—TERRITORIAL ARMY

CHAPTER I.—GENERAL REGULATIONS

CARE AND CUSTODY OF PUBLIC EQUIPMENT

1. These regulations govern the supply of public equipment and are the sole authority for the issue, etc., of such equipment.

The term " public equipment " relates to all stores (such as arms, ammunition, harness, saddlery and packsaddlery, ordnance, vehicles and technical military equipment) issued in kind and maintained by the Government, for which an equipment account has to be rendered to local auditors for audit on behalf of the War Office. Articles such as clothing, personal equipment and certain articles of minor importance, which are provided or maintained by County Associations out of money grants allotted to them, do not fall within the category of public equipment.

2. A County Association is responsible to the Army Council for all public equipment supplied to units administered by the Association. The C.O. of a unit will, on behalf of the County Association, be responsible that all public equipment supplied for the use and equipment of his unit is maintained in a serviceable condition, complete in all details and in the authorized proportions, subject to paragraphs **222** and **223.**

3. C.Os. of units will render a report on A.F. G 919 on the first of each month to the D.A.D.O.S. of the area, showing the action taken to carry out alterations to patterns of public equipment on their charge ordered by List of Changes in War Materiel, Army Orders or other War Office authority.

4. Initial issues, and replacements of all stores and clothing except ankle boots, will be made by the R.A.O.C.

5. The C.O. will make, or cause to be made, frequent inspections of the whole of the equipment for which he is responsible, and, if any defects are discovered, will take steps to remedy them. Should any men be absent from the inspection, a

Digitized by Google

certificate will be furnished by the C.O. (or, in the case of yeomanry or infantry, by the squadron or company commander) that the arms allotted to such men have been inspected, and that they are in an efficient condition; this certificate will be appended to the report made by the officer who carries out such inspection.

6. An officer, on assuming command, and thereafter annually during October, will ascertain by inspection and stocktaking, carried out either by himself or by an officer acting under his authority, the actual state of the public equipment on charge, satisfying himself that the articles agree in quantity with those shown in the equipment account, that all the equipment is properly appropriated, that it is in a thoroughly serviceable condition and complete in all details and that it is under proper protection, and in all respects in accordance with the orders of the Army Council.

Any surpluses, if the relative receipt vouchers cannot be traced, will be brought on charge and any deficiencies adjusted in accordance with paragraphs **30** to **37.**

Articles of public equipment must on no account be taken into private use by individuals.

The formal receipts given by the men allowed to retain arms under paragraph **65** will not be regarded as dispensing with the actual production of the arms when stocktaking is being carried out.

7. The C.O. will be responsible that valuable and attractive stores, when not in use, are kept under lock and key, that the keys are not interchangeable and that the keys remain in the personal custody of the officer or other responsible person to whom the safe custody of the stores is deputed.

8. On a change of command of a unit, a certificate in triplicate, in the form given in **Appendix I,** as to the state of the equipment, signed by the outgoing C.O. and the next senior officer upon whom the command devolves, will be forwarded to the G.O.C.-in-C. One copy of the certificate will be transmitted by the G.O.C.-in-C. to the local auditor; the duplicate will be sent to the Secretary of the County Association concerned, and the triplicate will be returned to the officer assuming command, to accompany his equipment account.

Should the officer temporarily taking over the command be appointed C.O., no further certificate will be necessary.

Should another officer be appointed, a similar certificate, signed by himself and the officer temporarily in command, will be forwarded by the former to the G.O.C.-in-C.

When deficiencies or damages are discovered on the transfer of the public equipment, the value of the articles deficient, or

Digitized by Google

the cost of making good the damages, will be recovered from the officer giving over the command, unless he is relieved of the responsibility by superior authority.

9. Should a difference of opinion exist between C.Os., on the occasion of transfer of public equipment, as to the state, quantity or description of the articles to be transferred, application will be made to the G.O.C.-in-C., by either of the officers concerned, for the assembly of a board of officers to investigate and report on the matter.

10. No trials or experiments involving the use of any article of public equipment will be made without the prior sanction of the Army Council through the G.O.C.-in-C.

11. All communications connected with the supply of equipment, whether authorized by or in excess of regulations, will be addressed to the D.A.D.O.S. of the area, or, in the case of mechanical transport stores for R.A.S.C. units or for units with vehicles maintained by the R.A.S.C., to the C.O. of the regular R.A.S.C. unit to which the unit concerned is affiliated, who will, if necessary, take the orders of superior authority on the subject.

INDENTS AND ESTIMATES FOR PUBLIC EQUIPMENT

12. Indents for R.A.O.C. stores will be forwarded in duplicate to the D.A.D.O.S. of the area on the undermentioned Army Forms :—

A.F. G 812 for S.A.A.
,, G 968 for camp equipment.
,, G 997 for gun, howitzer and aiming rifle ammunition for practice and exercise, R.A. (all arms).
,, G 997 for other stores.
,, G 997A for clothing and necessaries.

A separate sheet of A.F. G 997 will be used for each vocabulary sub-section, and each sheet will bear the regimental or corps office stamp. Stores will be entered on indents in the same alphabetical order as they appear in the vocabulary.

To enable technical parts to be readily identified, the number allotted to such parts, as shown in the official Identification List, appropriate vocabulary or makers' catalogue, will be included in the indent and should precede the designation of the item.

When garments of special size are required a separate A.F. H 1119 in duplicate, for each size and type of garment, detailing the measurements must accompany the indent.

Indents for small arms, Lewis guns and certain items of Lewis and Vickers gun equipment must state the full designation of the unit and the consecutive numbers to be marked on the arms and equipment. *See* paragraph **86.**

Digitized by Google

The instructions for the preparation of the indents printed on the Army Forms will be strictly adhered to.

Indents for stores for mechanical transport (other than those for R.A.S.C. units or units with vehicles maintained by the R.A.S.C., which are dealt with in Regulations for Supply, Transport and Barrack Services) will show the number of vehicles of each type on charge for which stores are demanded, and separate sheets will be prepared for each type of vehicle in addition to those for different sections of the Vocabulary of Miscellaneous Stores for Mechanical Transport. Indents will be marked " A " or " B " in the right-hand top corner, according to the classification of the vehicle to which they refer.

Indents will show the type, horse-power, make and chassis number of the vehicle for which spare parts and stores are required, and the part numbers and nomenclature as shown in the Vocabulary of Miscellaneous Stores for Mechanical Transport will be strictly adhered to. The nomenclature to be used in demanding articles " not in vocabulary " is as laid down in makers' catalogues, modified as follows :—

Makers' Catalogues

Indents to show :—

Vehicle—Chassis No.—Part No.—Designation and Code Word.

13. All indents for public equipment will be signed by the C.O. of the unit, or by an officer acting on his behalf, and countersigned by the Secretary of the County Association concerned and will be made in sufficient time to allow of the issue or exchange of the stores without difficulty by the date on which they are required.

14. The C.O. will bring to the notice of the D.A.D.O.S. of the area any undue delay in the supply of ordnance stores, using A.F. G 1063 for this purpose.

15. Indents for public equipment to replace articles deemed unserviceable will not be made until the C.O. has satisfied himself that the articles are thoroughly unserviceable or cannot be repaired by the means at his disposal.

Issues to replace will not be made until the unserviceable articles have been returned to the R.A.O.C., inspected and condemned.

16. In the case of units having outlying detachments, the indents will be made by the C.O. of the unit, who will state to what place or places the articles are to be sent. The vouchers will be signed by the C.Os. of the detachments concerned, and sent to the C.O. of the unit, to be countersigned by him, or, in his absence, by the adjutant.

17. When stores are to be drawn by troops direct from an

Digitized by Google

ordnance depot, the issue vouchers will be sent as a notification that the stores are ready for removal. Units will then arrange for the conveyance of the stores, and will produce the vouchers when applying for them.

18. Stores and equipment other than public equipment and those mentioned in paragraphs **111** and **232** may be supplied on repayment to County Associations at the rates prescribed in the Priced Vocabulary of Stores and Clothing at the time that the indent is received, subject to the following conditions and restrictions :—

(*a*) That the articles demanded are not ordinarily obtainable from outside sources and are of an exclusively military nature, necessitating standardization of pattern or expert technical inspection.

(*b*) That the articles demanded are solely for use of units of the Territorial Army and will not be used for any private purpose.

(*c*) That the articles purchased will be retained, so long as they are serviceable, as Association property, and will not be disposed of until worn out.

(*d*) That the units for which articles are required will be shown on the indents, and the stores, etc., demanded are of pattern identical to, or of a kindred nature to, those supplied under Equipment Regulations to corresponding units of the Regular Army. The numbers required must not be in excess of the proportions authorized by the scales of equipment.

War Office approval must be obtained before issues are made when :—

(*e*) The articles demanded are of a new pattern which is being gradually introduced into the Regular Army and has not been authorized for issue to Territorial Army units.

(*f*) The articles demanded are intended to supplement scales of which free issues are made or to anticipate such free issues, except as provided for in paragraphs **22**, **85** and **139**.

(*g*) The articles are included in the Barrack and Hospital Schedules.

Applications should be addressed to the D.A.D.O.S. of the area, or, in the case of mechanical transport stores for R.A.S.C. units or for units with vehicles maintained by the R.A.S.C., to the C.O. of the regular R.A.S.C. unit to which the unit concerned is affiliated, and they must contain full details of the reasons which render them necessary.

Digitized by Google

The following will not be supplied :—

(*h*) Articles of an experimental pattern under trial in the Regular Army.

(*i*) Articles of a special pattern not in general use in the Regular Army.

(*j*) Explosives and gun ammunition.

All indents for issues on repayment must be signed by the secretary of the County Association concerned and be headed in red ink with the words " On Repayment." If it is desired that the stores should be distributed by the R.A.O.C. or M.T.S.D., R.A.S.C., Feltham, to units, or detachments of units, a detailed distribution list with full consignment particulars must accompany the indent.

19. Service pattern articles which form part of the regulation field kit of an officer of the Territorial Army, and are required for his personal use, may be issued on prepayment. (*See* Regulations for the Territorial Army.) Such issues, however, must be confined to articles which are not provided for his use on mobilization at the public expense.

20. The value of stores issued on repayment will be recovered through the command paymaster of the command in which the County Association indenting for the stores is located, except in the case of issues from the Royal Arsenal, Woolwich, for which recovery will be made through the Paymaster, Royal Arsenal, Woolwich.

The issuing officer will prepare priced vouchers on the appropriate army forms in quadruplicate. The original and duplicate copy, with a demand slip (A.F. P 1921) affixed, will be forwarded to the County Association liable for payment, and the triplicate copy to the command paymaster or the Paymaster, Royal Arsenal, Woolwich. The quadruplicate copy will be retained by the issuing officer.

On receipt of the priced vouchers, the County Association will add its receipt (or that of the unit, if the stores have been delivered direct to the unit) on one copy and forward both copies, together with a remittance for the sum due, to the command cashier, or Paymaster, Royal Arsenal, Woolwich, who will return one copy duly receipted to the County Association. The cashier or Paymaster, Royal Arsenal, Woolwich, will endorse the second copy with a reference to the account in which credit has been given to the public and return it to the issuing officer. The third copy will support the credit in the account of the paymaster concerned.

In the case of stores issued under paragraphs **19** and **82,** the issues will be on prepayment. Priced vouchers will be prepared and disposed of as above, except that the copies

Digitized by Google

required to be forwarded to the County Association will be sent to the unit concerned. On receipt from the paymaster of the second copy of the voucher, duly endorsed with a reference to the cash credit, the issuing officer will issue the stores and obtain the receipt of the purchasers.

21. The cost of carriage of articles of public equipment (as defined in paragraph **1**), when issued from and returned to the War Department, will be chargeable to army funds. (For carriage of camp equipment, *see* paragraph **166**.)

For conditions of transit by road or rail of W.D.M.T. vehicles, *see* paragraph **214**.

When initial issues are ordered by the War Office, and when the stores so issued are maintained by County Associations, the cost of carriage will be chargeable to army funds.

When it is necessary for Associations to employ civilian labour in connection with the issue from and return to the War Department of public stores, the cost of such labour will be chargeable to army funds.

The cost of carriage of any stores, except clothing, issued on repayment, whether to County Associations or individuals, will not be defrayed from army funds.

22. Stores required by County Associations for the care, repair, replacement or maintenance of authorized equipment may be obtained from the R.A.O.C. on repayment, subject to the conditions laid down in paragraph **18.**

RECEIPT OF STORES

23. When equipment is received by the troops, the officers or others receiving it will, before giving a receipt to the carrier, ascertain that the various packages are in good order and condition, and that sealing labels, where used, are not broken, but, whether externally in good order or not, all packages must be immediately weighed and compared with the weight marked on the outside.

Should the weights differ, or packages appear to have been tampered with or damaged in transit, the contents will be examined and compared in the presence of the carrier's representative with the packing note which each package should contain. Any damage or deficiency must be recorded on the carrier's note or bill of lading, and confirmed in writing on A.F. G 978.

Where it is not possible to comply with these instructions in full, the receipt given will be qualified by the term "Unexamined." The stores will be examined as soon as possible, and, should any deficiencies or breakages not due to faulty packing be then discovered, the consignee should immediately inform the railway company or carrier delivering the goods

Digitized by Google

and the R.A.S.C. officer i/c transport of his sub-district, confirming any verbal report on A.F. G 978 within three days after the delivery of the stores by the railway company or carrier. In any case in which a unit or department is not at the time in possession of A.F. G 978 the report will be made by letter. In cases of non-delivery of a whole consignment the railway company must, under railway by-laws, be notified in writing within 14 days of the date of despatch; but, to avoid any possibility of the period allowed by the railway companies being exceeded, a preliminary notification should be sent to the railway company by the consignee within 12 days. Unless such written notification is given within the prescribed periods, it may not be possible to enforce the claim against the company. Notification of the damage, discrepancy or non-delivery, and the action taken thereon, should also be made to the R.A.S.C. officer i/c transport of the consignor's sub-district or (in cases in which that officer is not concerned) to the consignor, who will take the matter up with the forwarding railway company, recovering in due course the value of any goods short delivered or the cost of making good any damages.

24. The stores will be carefully inspected, to verify that the articles delivered agree with the particulars in the vouchers, and that they are correct in point of quality and pattern. Articles received by number and weight will be both counted and weighed. When there is no discrepancy, the vouchers will be completed in the right-hand bottom corners, and the duplicate copy signed and returned to the consignor at once. The receipted vouchers (unless a discrepancy has been reported) will be sent off within 48 hours of the delivery of the consignment.

25. Should the precautions in the preceding paragraphs be omitted, the officer receiving the stores will render himself liable for any discrepancies.

26. When discrepancies are found to exist between the quantities or descriptions of stores actually received and those charged, a discrepancy report on A.F. G 985, in duplicate, accompanied by packing notes, will be sent to the consignor. The fullest information will be given thereon, all numbers and weights, and any marks upon the packages giving evidence of their having been tampered with, being carefully recorded. The packages, with their notes and all wrappers, will be retained until the inquiry closes. The original copy of the discrepancy report, with the subsequent correspondence, will be attached to the receipt voucher in support of the alterations made therein. The original entry in the consignor's ledger will be allowed to stand. The duplicate copy of the discrepancy report, showing how the discrepancy has been adjusted,

Digitized by Google

will be attached by the consignor to the issue voucher. The numbers and descriptions of stores actually received will be brought to account, and a receipt given to the consignor for these numbers and descriptions only, except where it is clear that the full numbers charged were actually issued by the consignor, and it is also evident to the consignee how the deficiency has arisen, *e.g.*, a loss from a sling in unloading a vessel, in which case the matter will be dealt with by the consignee in accordance with King's Regulations, a clear receipt being given to the consignor and a copy of A.F. G 998 recording the decision being attached to the receipt voucher by the consignee.

If the discrepancy is admitted by the consignor, his account will be adjusted by certificate receipt or issue voucher for the numbers over or under charged, a reference being given on the certificate voucher to the original issue voucher, and on the original issue voucher to the certificate voucher.

When the consignor cannot admit that the consignee's report of the discrepancy represents the actual issue, the matter will be dealt with by the consignor, and in the case of deficiencies action will be taken in accordance with King's Regulations and the consignee notified to this effect on the original copy of the discrepancy report. A copy of A.F. G 998, on which will be recorded the decision of the superior authority or of the War Office, will be attached to the issue voucher by the consignor.

27. Objections that may arise on the ground of equipment being of an inferior quality or of an obsolete pattern, or for any other cause, will, if possible, be made to the D.A.D.O.S. of the area or the C.O. of the regular R.A.S.C. unit, as the case may be, by the C.O. before the articles are taken on charge, as after the receipt has been signed the responsibility for the condition of the articles will devolve upon him. Serviceable articles will not be objected to on account of their being part worn.

28. A C.O. in receipt of articles of equipment which are not brought on charge will, pending the result of a report on their condition, be held responsible for their safe custody until a decision has been given as to their disposal, when he will either take them on charge or return them to store, as may be ordered. He will also be held responsible for the immediate return to store of any equipment issued to him that, in cases of emergency, he may be unable to take on charge. Should he fail to carry out these instructions, he will be liable for any loss that may ensue.

29. The hermetically closed cases in which fuzes, tubes and certain other articles are issued will not be opened until the contents are required for use. These cases with their contents,

Digitized by Google

as well as packages containing small-arm ammunition and gunpowder, will be taken on charge unopened. Any defects or discrepancies that may be discovered when the stores are subsequently inspected or used will be at once reported, and all details on the cases will be quoted.

DAMAGES AND DEFICIENCIES

30. When public equipment is lost, stolen, destroyed or damaged, and it is a matter for consideration on whom the expense of repairing or replacing it should fall, owing to the responsibility not being clear or the charge being demurred to by the person held responsible, or for other reasons, the C.O. will make a full inquiry into the circumstances, and forward a report thereon, with his recommendations as to any recoveries that he considers should be effected from the individual or individuals concerned, to the D.A.D.O.S. of the area or the C.O. of the regular R.A.S.C. unit, as the case may be, for submission to the G.O.C.-in-C. The report will be accompanied by a list of the damaged or deficient stores on A.F. G 998, duly completed in strict accordance with the instructions contained thereon. The damage or loss will be assessed as provided for in paragraph **32.**

The account will at once be provisionally adjusted by a certificate issue voucher, briefly detailing the circumstances of the loss, and the action taken for investigation. The authority for the write-off, when obtained, will be attached to the certificate issue voucher.

In the case of loss by theft or suspected theft the police must at once be informed and their report attached to A.F. G 998.

31. When the G.O.C.-in-C. decides the action to be taken in the case, the date and registered number of such decision will be quoted on the indent on the R.A.O.C. or regular R.A.S.C. unit for any stores required in replacement. When the case is referred to the War Office for decision, indents for the stores required in replacement may be put forward on the R.A.O.C. or regular R.A.S.C. unit without waiting for the decision of the War Office in the matter, but the date and number of the letter from the G.O.C.-in-C. to the War Office will be quoted on the indents.

32. When public equipment is lost or rendered unserviceable by neglect or culpable mismanagement, or if small arms or machine guns are rendered unserviceable by the use of ammunition not of Government issue (*see* paragraph **150**), charges will be made against the individual responsible, for such amount as may be assessed by the County Association, or the

Digitized by Google

C.O. of the unit on its behalf, due regard being paid to the condition of the article according to the best evidence obtainable.

Charges, except for small arms, machine guns, mountings and bicycles, for which *see* paragraph **33**, will be as follows :—

(*a*) *Repairable damage.*—The actual cost of repair, including both wages and materials, or components. Materials and components will be charged at the vocabulary rates. If the cost of repair exceeds the amount which would have been chargeable had the article been damaged beyond repair, the County Association may, at its discretion, authorize the less amount to be charged.

(*b*) *Loss or damage beyond repair.*—75 per cent. of the vocabulary rate for the article, unless it is established by evidence that the actual value * is greater or less. In that event, the nature of the evidence will be indicated on the voucher and the actual value will be charged.

33. Charges for repairs and damages specified below will be made in accordance with the following scale :—

(*a*) *Rifles, Nos.* 1 *and* 2 *; Pistols, revolver, No.* 1 *; Swords ; Scabbards, sword ; Bayonets, No.* 1 *; and Scabbards, bayonet, No.* 1.

Deficiencies	75 per cent. of the vocabulary rate (subject to paragraph **32** (*b*)).
Damage to components or accessories—	
Not repairable (unserviceable)	75 per cent.
Repairable, but beyond the resources of the unit†	10 ,,
Repairable under local arrangements (including removal of rust and cleaning by examiner before sentence can be given)	4 ,,
Not repairable, but not rendering the component unserviceable (barrel slightly cordworn)	4 ,,

* The actual value means the value *to the Department* and not the disposal value. It will be determined by assessing the article at some definite proportion of its vocabulary price.

† Except re-sandblasting of pattern '07 bayonets which have been polished contrary to regulations, for which the specific charge will be 6*d.* each bayonet.

Digitized by Google

In the event of a complete arm being sentenced "unserviceable" or to be exchanged owing to damage not due to fair wear, any claim that may be preferred will be based on the sum of the value of the components damaged only if the total value of these components is less than the vocabulary rate for the complete arm.

In cases of injury to barrels the percentage of the price of the barrel or cost of repair only will be charged, provided that the body is in a serviceable condition.

(*b*) *Machine guns, mountings and bicycles.*

Deficiencies ... ... 75 per cent. of the vocabulary rate (subject to paragraph **32** (*b*)).

Charges will not normally be preferred for minor damage. In special cases, however, in which the extent of the damage, the circumstances or the general condition of machine guns, mountings or bicycles appears to warrant it, claims may be preferred at the discretion of the officer responsible for the inspection. When necessary the matter will be dealt with as provided for in paragraph **30.** Any claim that may be preferred, or the cost of the damage, will be assessed in accordance with the scale for rifles and pistols at (*a*) above.

(*c*) Claims for deficiencies or damages due to neglect or culpable mismanagement noted at C.I.S.A. or R.A.O.C. inspection will be preferred by the responsible officer concerned. Claims will not be preferred when the circumstances are such as to indicate that the damage is likely to have occurred in the ordinary course of training.

(*d*) No charge for damages will be made for D.P. or E.Y. arms, except for such as are manifestly wilful.

(*e*) No charges will be made against the troops for browning their small arms when the service is rendered necessary by fair wear.

(*f*) In cases of doubt regarding the assessment of charges, or where exceptional circumstances seem to warrant a special charge, the matter will be referred to the C.I.S.A.

34. If it is proposed to allow any portion of the loss to fall on the public, the matter must be dealt with under King's Regulations.

Digitized by Google

35. Articles of public equipment which are lost and not chargeable against the public will be paid for, and struck off charge in the equipment account by A.F. P 1925. The value will be paid to the cashier of the command, and the voucher striking them off will be signed by the command paymaster, who will give a reference to the cash account in which the value will be found credited to the public.

When articles of public equipment rendered unserviceable are not chargeable against the public, a similar reference will be given, but the unserviceable articles will be returned to the ordnance depot. The indent for new stores required to replace those lost or destroyed will also give a reference to the expense voucher by which the latter are struck off. These indents should be rendered quarterly from the 1st January.

36. Should any deficient articles for which a charge has been made be subsequently recovered, a refund of the amount paid may be made if authorized by the Divisional Commander, Cavalry Brigade or Air Defence Brigade Commander, or the Colonel, R.A., or C.E. on Command Staff. The refund will be supported by a reference to the cash credit, and to the voucher and account by which the returned articles have been brought on store charge.

37. Claims against units for deficiencies or damages of public equipment which cannot be borne by the public will be made through the County Association concerned, who will take the necessary steps for recovery from those actually responsible for the loss or damage. (*See also* Regulations for the Territorial Army.)

RETURN OF EQUIPMENT INTO STORE

38. Whenever it becomes necessary to return stores to the R.A.O.C., authority will be obtained from the D.A.D.O.S. concerned by submitting A.F. G 1033, or A.F. G 1033A in the case of stores which will be returned to the C.O.O. Didcot, in quadruplicate, particulars of the consignee and details of the date and mode of conveyance being at this stage omitted.

A covering memorandum will be forwarded with the vouchers giving an explanation for the return of stores other than unserviceable, except when the return is authorized in A.C.Is. or War Office letters, etc., when it will be sufficient to quote such authority on the A.F. G 1033. On receipt of A.F. G 1033, or 1033A, the D.A.D.O.S. will endorse all copies with the authority for the return of the stores and the depot to which they are to be consigned. Three copies will be returned to the unit for transmission to the R.A.O.C. when the stores are returned and the quadruplicate copy forwarded to the R.A.O.C. depot concerned. A.F. G 1033,

Digitized by Google

or 1033A, will be passed to the ordnance officer of the receiving depot at least 72 hours before the stores are likely to arrive, unless the stores are actually handed over at an ordnance depot, in which case the vouchers can accompany the stores and a temporary receipt will be given to the consignor on the quadruplicate copy of the voucher.

39. A separate voucher will be prepared for each vocabulary section or sub-section, and each sheet will bear the regimental or corps office stamp. The identification number of technical parts, as given by identification list, will be shown on the voucher immediately preceding the designation of the item. The W.D. registered number or, if such does not exist, the maker's name and number, of any of the stores detailed in **Appendix 3** will be inserted on the vouchers. In the event of any of these articles having no such number, the remark " No identification mark exists " will be entered. Catalogue numbers and sizes, where applicable, will be shown in the appropriate columns of A.F. G 1033A for such stores as have been allotted catalogue numbers in the Priced Vocabulary of Ordnance Stores. The vouchers will be signed by the consignor, and one copy, duly signed by the consignee, will be returned as soon as practicable after the stores have been received. When stores are passed to other accountants, the vouchers will be forwarded in duplicate only.

40. Packages, including sacks used for packing purposes, will be charged or mentioned on the same voucher as the stores that are contained in them. In the event of stores on two or more separate vouchers being contained in one package, the vouchers on which the stores are charged will give a reference to that on which the package is charged.

41. When articles are returned to store in packages, a packing note on A.F. G 1028, signed by the packer and also by the person witnessing the packing, will be placed in each package. The W.D. registered number, or, if such does not exist, the maker's name and number, of any of the stores detailed in **Appendix 3** will be inserted on the packing note. In the event of any of these articles having no such number, the remark " No identification mark exists " will be entered.

42. When stores are returned to an ordnance depot, the voucher number will be conspicuously marked on the outside of each case or package to enable the consignee to identify it immediately on receipt. The vouchers will also quote the number and date of the carriers or convoy note on which the stores were despatched. Each case, bale or package will be weighed and the weight marked on it.

43. Stores sent to the R.A.O.C. for repair must be clearly

Digitized by Google

labelled " R.A.O.C. Workshops for Repair," and A.F. G 1045 must be submitted in triplicate to the D.A.D.O.S. of the area detailing the stores to be sent in for repair and the nature of work to be executed.

The packages containing the stores must be clearly marked " Stores for repair " and the details of such packages entered on the relative A.F. G 1045 so that they can be readily identified for return to the unit with the repaired stores.

Stores requiring modifications in R.A.O.C. workshops will not be sent to R.A.O.C. depots until called in by the D.A.D.O.S. of the area.

44. C.Os. are responsible that all packages (including sacks used for packing purposes) received with equipment of any kind are handed over, as soon as they can be dispensed with, to the R.A.O.C., except in the case of R.A.S.C. M.T. store packages, which will be handed over to the regular R.A.S.C. unit, and, if possible, without cost to the public. The packages will be addressed :—

The Ordnance Officer, or C.O..... Coy. R.A.S.C.
From the Officer Commanding.....

45. Where the cost of carriage of ammunition, stores or equipment is payable by the public, a carrier's note (A.F. G 980 for ordinary stores and A.F. G 996 for explosives, inflammable and other dangerous stores), detailing the number and weight of the packages, bundles and loose articles, as well as the number of articles in each bundle, will be sent to the local transport officer, who will arrange the mode of conveyance.

46. When stores and explosives are authorized by the D.A.D.O.S. to be returned to Woolwich or Weedon, application for instructions as to the mode of transport will be made to the Assistant Director of Military Transport, Royal Arsenal, Woolwich, or to the Transport Officer, Weedon ; the carrier's note will be made payable by " Transport, Royal Arsenal," or " Transport, Weedon," as the case may be.

47. When consigning stores, etc., C.Os. will arrange that packing cases and chests not securely fastened with hoop-iron bands are sealed with labels (A.F. G 1018), which will be securely pasted over the external junctions of the bottom and body, and lid and body of the cases, etc. The labels, when put into use, will, for identification purposes, be impressed with the consignor's regimental or office stamp.

These instructions will not apply to packages containing explosives already sealed with explosives labels, or to boxes containing such stores as horseshoes, nails, etc., which are not liable to theft.

Digitized by Google

48. The utmost vigilance is required on the part of officers returning stores, in order to guard against explosives being returned into ordinary store depots instead of into the magazines, as well as to preclude the possibility of matches, nails, etc., being left among stores of any kind. Particular attention will be paid to the inspection of personal equipment to see that no live rounds of S.A.A. are contained therein. Ball and blank small-arm ammunition must never be returned to store in the same package, nor must live ammunition of any description be packed with empty cartridge cases (*see* paragraphs **158** and **162**).

49. If articles returned into store as unserviceable are found on receipt by the R.A.O.C. to be still serviceable or capable of repair, or if any of those which are unserviceable are considered to have become so from improper use or negligence, the D.A.D.O.S. will call upon the officer returning the stores to furnish an explanation, and, in the event of this not being satisfactory, the D.A.D.O.S. will bring the matter to the notice of the G.O.C.-in-C. Should it be decided to return articles to the unit for further wear, the cost of carriage unnecessarily incurred will be claimed from the County Association.

PUBLIC EQUIPMENT ACCOUNTS

50. An equipment ledger containing a record of all articles of public equipment, and of all ammunition supplied gratuitously, will be kept under the orders of the C.O. of the unit. The ledger will at all times be kept posted strictly up to date.

Detailed instructions for keeping equipment ledgers are contained in **Appendix 2.**

For the purposes of regimental equipment accounts the term "unit" may be defined as under :—

Yeomanry and Scouts	...	The regiment.
Infantry	...	The battalion.
Divisional Signals	...	The unit.
All other units ...	...	The battery, company, etc.

When the equipment is not all located at the headquarters of the unit, a distribution book will be kept to show the manner in which the articles are allocated between the outlying squadrons, companies or stations, as the case may be. In such cases a record of the equipment in possession of each detachment will be kept at the station. A.F. G 1054 will be used for this purpose by yeomanry, divisional and fortress engineers and infantry units only; artillery units will keep the record in manuscript. On 31st October in each year the record, duly certified by the officer in charge, will be forwarded to headquarters for comparison with the distribution book and the equipment ledger of the unit. After verification it will be

Digitized by Google

initialled by the adjutant or other responsible officer and returned to the officer in charge of the equipment.

51. Camp equipment, issues on payment, consumable stores (except ammunition, explosives and the consumable stores referred to in paragraph **54**) drawn periodically in regulated proportions, and cartons used for packing small arm ammunition, will not be shown in the account. Any quantities of consumable stores remaining unused at the end of the year will be shown as in possession in the indent for next year's supply.

52. All packages received containing clothing or stores will be accounted for as public equipment.

53. Stores sent to the R.A.O.C. for repair and return to the unit, also the packages containing the stores, will not be struck off equipment ledger charge unless the D.A.D.O.S. of the area gives special instructions for vouchers to be passed. This course will, as a rule, only be necessary when stores are condemned as being beyond repair.

54. The whole of the consumable stores issued annually for the instruction of engineer units under Chapter XV will be brought on equipment ledger charge by the unit. Quantities expended will be written off charge by expense vouchers on the certificate of the C.O. that the expenditure has actually taken place.

Any unexpended balance remaining at the end of the training season may be retained towards meeting the following year's requirements, the quantities in hand being shown on the annual indent submitted to the D.A.D.O.S. of the area. Sandbags may be accumulated up to, but not exceeding, treble the quantities allowed as the annual supply.

55. Ammunition issued gratuitously for practice and exercise will be written off charge, when expended, by expense vouchers as follows :—

Army Form	Ammunition, unit, etc.
P 1925 ..	Gun ammunition for horse, field, medium, anti-aircraft and light batteries. (To show full particulars of the allowance, ammunition used, authority for allowance, etc.)
P 1926 ..	Gun ammunition expended under a money allowance by heavy batteries.
P 1925 ..	Small-arm, machine gun ammunition and ·22-inch ammunition.

Digitized by Google

CHAPTER II.—ACCOUTREMENTS

56. Accoutrements will be provided up to the peace establishment of each unit in the proportions detailed in **Tables 1** to **12.** County Associations will draw accoutrements by indenting upon the D.A.D.O.S. of the area in which they are situated. All supplies will be issued on repayment at vocabulary rates, the cost being recovered from the County Association concerned by the command paymaster.

57. Accoutrements for permanent staff, including acting serjeant-majors, will be provided as public equipment in the proportions detailed in **Table 12.**

Digitized by Google

CHAPTER III.—SMALL ARMS, MACHINE GUNS AND MOUNTINGS, AND BICYCLES

GENERAL

CARE, CUSTODY AND INSPECTION

58. All small arms, machine guns and bicycles issued to units remain the property of the public, and the C.O. will take such precautions as will prevent them being hired by, or lent to, other persons, or used for purposes other than those for which they were issued to the units.

The sale, exchange or gift outside the units of any components obtained from the R.A.O.C. is prohibited.

The transfer of small arms from one unit to another is forbidden.

59. Tampering with government weapons and bicycles is a serious breach of discipline, and will render any man who may be guilty of it liable to punishment. Any damages so caused will be charged against the individual concerned.

Any weapons that, on inspection, may be found to have had their actions or other parts improperly altered will be at once returned to store and repaired at the expense of the unit.

60. A copy, in large type, of paragraphs **59** and **81** will be affixed to the door of all armouries and drill sheds, together with a notice that permission to keep his rifle in private custody will be at once withdrawn from any man who may offend against these regulations.

61. Testing weapons of any kind in charge of troops is strictly forbidden. This does not apply to local firing tests for accuracy, *see* paragraph **116** and as authorized by Small Arms Training. Only ammunition obtained from the R.A.O.C. will be used for this purpose.

62. The C.O. is responsible that arms and equipment on his charge are at all times in order and in readiness for immediate service. His arrangements will be most definite to ensure that arms are cleaned and examined after every occasion on which they are used, as even slight neglect may cause serious damage.

63. The duty of selecting suitable armouries devolves upon County Associations. Armouries must be of sufficient size to contain all the arms of the unit, or detachment of the unit.

Digitized by Google

to which they may be allocated. They should also be thoroughly dry and well aired, and free from worm-eaten timber, and be kept perfectly clean.

64. A record will be kept in each armoury of all articles of public equipment issued therefrom to individuals.

Except where a central armoury exists for the whole unit, this record will be kept by squadron or company commanders in A.B. 316A, a separate book being used for each company, etc. In central armouries the record will be kept by the C.O. of the unit in A.B. 316. The keeping of the record by a company officer will not in any way relieve the C.O. of his responsibility as laid down in paragraph **2.**

Soldiers to whom public equipment is issued under the authority contained in paragraph **65** must be warned that they are individually responsible for keeping such equipment in good order and condition, and for producing it when required. Their responsibility in the matter will continue until the equipment has been returned to the custody of the unit, and duly entered and signed for in the above army book.

65. The arms will be deposited after drill in the armouries of the units, except when (subject to any orders issued by the G.O.C.-in-C. of the command or G.O.C. the district) the C.O. gives a written permission to members to take custody of their arms at their own houses.

Such permission does not relieve the C.O. of his responsibility for these arms. It will be given with care and may be withdrawn at his discretion. The arms will be called in during times of riot or of anticipated disturbance.

Arms retained in private custody will be subject to inspection at any time by the brigade commander, and must always be produced for inspection as required by paragraphs **5, 6** and **101.** In any case in which arms are neglected the discretionary power granted to the C.O. in this paragraph will be withdrawn.

66. When in store, and also when packed for transmission other than by sea, the exposed surfaces of steel of small arms of all natures except sword and steel sword scabbards, and the unpainted surfaces of steel of machine guns, their spare parts and tools, will be covered with a thin coating of a mixture consisting of equal parts, by weight, of red mineral jelly and oil, M.80. Thick coatings must not be applied owing to the difficulty of removal.

The woodwork of rifles will also be wiped over lightly with this mixture.

Red mineral jelly only will be used for swords and steel sword scabbards.

Digitized by Google

In cold weather the mineral jelly, or mixture, must be warmed until it becomes liquid.

When packed for shipment overseas, red mineral jelly only will be used for both small arms and machine guns, and will be more freely applied.

The bores of rifle, pistol and machine gun barrels will be similarly treated, the preservative being warmed as necessary until it becomes thin. The exterior of machine gun barrels will be coated with the preservative in a cooler condition.

The chambers of rifles and revolvers will be coated with the preservative in an unheated condition.

The method of applying the preservative is detailed in Equipment Regulations, Part I, **Appendix 51.**

67. Fabric materials, such as linen, cotton (including flannelette, etc.) or woollen rag, must not be employed as a direct wrapping, nor for plugging the ends of steel parts such as barrels, etc., owing to their tendency to absorb moisture from the atmosphere, and so cause the formation of rust. The use of brown paper as a direct wrapping is also forbidden, as this also is liable to rust the metal.

68. When chests and cases for small arms, machine guns and mountings have been emptied, the fittings must not be thrown in loosely but will be carefully replaced in position.

When fittings have been damaged by unfair treatment, their value will be charged against the unit concerned.

EXAMINATION, REPAIR AND CLEANING

69. On no account must live cartridges be taken into a workshop or other building used for examination or instructional purposes.

Before firearms are examined or repaired, etc., it must be ascertained that the weapon is unloaded. Whenever live ammunition is found in a weapon under examination, etc., the fact must immediately be brought to the notice of the C.O. of the unit and the ammunition transferred to the magazine.

Regular examination of dummy cartridges must be made before use each day to ensure that no live rounds are present.

Weapons must never be left cocked.

70. The inspection of small arms, machine guns, mountings and bicycles will be carried out as detailed in **Appendix 4** and in general conformity with Equipment Regulations, Part I.

Digitized by Google

71. A certificated instructor * will examine every arm quarterly to ensure that the bore and action are clean and free from rust and that the correct functioning of the arm is unaffected; and will examine thoroughly every arm once yearly immediately after annual training. (*See* **Appendix 4.**) He will keep a record of the condition of the arms; will make detailed reports to the C.O., who will be held responsible that the duties of the instructor are properly performed; and will execute such minor repairs as are laid down in the book of instructions issued to certificated instructors.

72. Should a C.O. doubt whether small arms, machine guns or bicycles of any description under his charge are serviceable, he will report the matter to the D.A.D.O.S., stating the reason for his opinion. The D.A.D.O.S. will arrange for the arms, etc., to be examined, reference being made to the C.I.S.A. if necessary.

73. The cost of replacing deficiencies or of carrying out repairs other than those due to fair wear will be assessed under paragraphs **30–37,** and will be claimed from the County Association. Repairs necessitated by fair wear will be executed free of charge.

74. The arrangement for the inspection and repair of small arms, machine guns, mountings and bicycles does not relieve C.Os. from responsibility for their care and repair. Should repairs be required between the periodical inspections which cannot be executed by the certificated instructor within the limits permitted to him, the C.O. will apply to the D.A.D.O.S., who will arrange for the execution of the repairs.

When the cost of such repairs is recoverable through the County Association, the cost of carriage will also be defrayed by the Association.

75. The following action will be taken on completion of the C.I.S.A's. examination :—

(*a*) Reports (A.F. C 351) showing the condition of small arms, machine guns, mountings and bicycles examined by the C.I.S.A. will be forwarded to the commands. These reports will show condition, damage not due to fair wear (*i.e.*, neglect or culpable mismanagement), deficiencies, and also parts not of service pattern, and will state that charges will be preferred in due course.

Differences from authorized equipment scales or from numbers on ledger charge will not be shown.

* The term "certificated instructor" means a warrant officer, N.C.O. or man who possesses a certificate, granted by either the C.I.S.A. or the Commandant, Military College of Science, that he has passed a course of instruction in small arms and machine guns.

Digitized by Google

(*b*) Upon receipt of the report, commands will send one copy to the units and will inform them of the damages and deficiencies to be charged against them, and will also inform the C.I.S.A. of any action that has been taken to relieve the unit of any charges pending, quoting the relevant authority. Such charges will not be preferred by the C.I.S.A. on his claim (A.F. G 838).

(*c*) After the expiration of a period of not less than six weeks from the date on which details of the damages and deficiencies are reported to commands, the C.I.S.A. will prepare claims (A.F. G 838) in quadruplicate; two copies, to one of which will be attached a demand slip (A.F. P 1921), will be sent to the Secretary of the County Association for transmission to the unit from which the payment is due. The third copy will be sent to the paymaster of the command in which the unit is serving, and the fourth copy will be retained by the C.I.S.A.

(*d*) After the despatch of the claims it will not be competent for the commands to write off any of the damages or deficiencies included therein. The claims must be paid in full and, should good cause exist for an objection thereto, a refund may be made if authorized by the G.O.C.-in-C. The refund will be supported by a reference to the cash credit and to the voucher and account by which a returned article has been brought on charge. When payment has been received, the paymaster will endorse the third copy and retain it as a voucher to his account. He will also endorse the second copy (bearing the demand slip) with a reference to the account in which credit has been given, and return it to the C.I.S.A.

(*e*) Where it is claimed by a unit that the articles shown as deficient have been recovered, the command should furnish to the C.I.S.A., within the period of six weeks referred to above, a certificate (to be signed by the C.O. personally) that the unit has the articles in question in a complete and serviceable condition.

76. The rules for assessing charges for damages and losses of small arms, machine guns, mountings and bicycles are laid down in paragraph **33.**

77. The C.O. will subsequently forward a certificate to the C.I.S.A., through the D.A.D.O.S. of the area, to the effect that the repairs and replacements indicated as necessary in the reports have been carried out.

Digitized by Google

78. The C.I.S.A's. examiners, when inspecting arms of T.A. and O.T.C. units, will be provided with such components of small arms and machine guns as they may require to enable replacements to be effected during inspection.

On completion of each tour, the C.I.S.A. will forward a statement to the D.A.D.O.S. of each area showing the components expended in the minor repair of small arms and machine guns of each unit. This will enable the area D.A.D.O.S. to watch that the annual allowance of components is not exceeded without due authority (*see* paragraph **82**). The statement will also show components which have been utilized to replace deficiencies and which have been included in the C.I.S.A's. charges.

Unserviceable components left by the C.I.S.A's. examiners will be collected and disposed of in accordance with instructions to be obtained from the D.A.D.O.S.

79. Following the R.A.O.C. inspections under paragraph **70**, similar action to that laid down for the C.I.S.A. will be taken, and claims will be preferred by the responsible officer concerned.

80. Damaged small arms, machine guns, mountings, bicycles or components for special examination by the C.I.S.A. must have labels attached giving a reference to the War Office or other authority. They will be forwarded to the C.I.S.A., Enfield Lock, direct.

A copy of the proceedings of any board or court of inquiry that may have been held regarding them will accompany the vouchers.

81. No repairs to weapons of any kind will be executed by soldiers, other than certificated instructors, or by any civilian employed by them.

82. When a unit requires components in excess of the authorized allowance, the C.O. will furnish an explanation of the cause. The matter will be dealt with by the G.O.C.-in-C. and, in deciding whether the issue is to be free or otherwise, he will take into account whether the annual allowance has been drawn periodically in full. Indents will then be forwarded by the unit through the County Association to the D.A.D.O.S. of the area, supported by a copy of the decision of the G.O.C.-in-C. C.Os. will be responsible that government arms are only repaired with components supplied by the R.A.O.C.

83. The work of repair and rebrowning (following inspections by the C.I.S.A. or the R.A.O.C.) will be carried out in the

Digitized by Google

R.A.O.C. workshop, and all necessary arrangements will be made by the A.D.O.S. of the command.

Small arms, machine guns, mountings and bicycles sent to the R.A.O.C. workshops will not be taken on charge in the store accounts, but will be dealt with as stores received for repair (*see* paragraph **53**). The R.S.A.F. is accounted as the workshop for the Eastern Command.

Vouchers must in all cases be passed for stores sent to the R.S.A.F., Enfield Lock.

84. Every attention must be paid to the proper cleaning and care of the arms, instructions for which will be found in Small Arms Training.

C.Os. will caution their men that any neglect in this respect may be attended with danger to themselves, and will impair the accuracy of the weapon as well as render the unit, or themselves, liable for the cost of any repairs or removal of rust or dirt that may be found necessary on the inspection of the arms. Arms will be cleaned immediately after use.

All arms must, on first issue, be thoroughly cleaned before being placed in the hands of troops. Special attention will be paid to the bore of the weapon in this respect.

85. The scale of material for cleaning, lubricating and preserving arms, and lighting, cleaning and lubricating bicycles, is shown in **Table 50.**

Oil M.80 will be used for lubricating actions and cleaning. The mixture, consisting of equal parts of red mineral jelly and oil M.80, will be used for preservation. Red mineral jelly only will be used for lubricating between fore-end and barrel.

For materials which must not be used as a direct wrapping, etc., for steel parts, *see* paragraph **67.**

Should further supplies be required beyond the annual allowances, they must be obtained from the R.A.O.C. on payment.

MARKING

86. Small arms, Lewis machine guns and certain items of Lewis and Vickers machine-gun equipment will be marked with the unit's corps mark and consecutive numbers before issue by the R.A.O.C. The full designation of the unit, and the consecutive numbers to be marked on the arms and equipment, will be stated on all indents. Articles issued in replacement will be given the consecutive numbers of those replaced.

Digitized by Google

Articles already in possession of units which were not marked before issue will be dealt with as under :—

Those requiring marking with stencils or copper stamps (or stamps marking textiles) ; also leather articles—
will be marked regimentally by certificated instructors.

Metal articles requiring marking with steel stamps—
will be marked at the earliest opportunity by circuit armourers.

Full instructions as to marks will be found in Equipment Regulations, Part I.

87. When authorized transfer of articles from one unit to another is made, the marking on canvas, web and leather articles will be cancelled with the cancellation mark. The marking on stencilled articles will be painted over. This will be done by the receiving unit, which will re-mark such stores with the corps mark and consecutive numbers, and keep a record of the transfer and the previous corps marking.

88. Instructions for marking bicycles are given in **Appendix 5.** First issues of bicycles from store will have the corps marks added by the R.A.O.C. before issue, units giving the necessary marking particulars on their indents.

89. Stars in front of the knox-form of barrels of rifles, and on the left-hand side of the top strap of pistols, denote that the trace of a cut or of rust may be found inside the barrels. Stars on other positions of small arm or machine-gun barrels denote that a trace of exterior rust pitting exists in the region of the star.

No charge will be made against troops at subsequent inspections for such cuts or rust.

These markings will be carried out by the C.I.S.A's. examiners or the R.A.O.C. during the quadrennial inspections, etc., or in the R.A.O.C. workshops.

90. Barrels of rifles sentenced and reported "rusty, to be cleaned" will be marked "R" on the knox-form; and barrels of rifles found cord-worn (if not thereby rendered unserviceable) will be marked $\overset{\bullet}{\text{W}}$ on the left side of the knox-form at the rear end of the reinforce if the wear is at the breech, and at the front end if the wear is at the muzzle. Such barrels will not again be reported for rust (except when their condition necessitates cleaning in the R.S.A.F., Enfield Lock) or cord-wear at subsequent inspections.

91. The adoption of an unauthorized method of marking, or the employment of stamps differing from the standard patterns, will render a unit liable to charges for damages.

Digitized by Google

92. Stamps, etc., for marking purposes are authorized as laid down in paragraph **224** and **Table 51.** The necessary stencils required for the regimental marking referred to in paragraph **86** will be supplied by the R.A.O.C. on indent.

VIEWING PRIVATE ARMS

93. Any private arm of government pattern that may be desired for use in shooting matches, or any new barrel that may be required for such arm to replace a worn-out barrel, may be inspected by the C.I.S.A. Application will be made by the owner of the arm or barrel, through his C.O., to the C.I.S.A., Royal Small Arms Factory, Enfield Lock, who will cause it to be viewed. The name of the maker from whom the rifle, or new barrel, has been ordered will be stated in the application.

94. A charge of one shilling for each arm and sixpence for each barrel viewed will be made against the owner. The cost of carriage to and from the R.S.A.F. will be defrayed by the owner.

95. A certificate to the following effect will, if required, be returned with each arm viewed and passed :—

> "This is to certify that the * barrel (and breech action) submitted by has been viewed and found to be correct and in conformity with the government pattern so far as regards length, weight, bore, rifling, form of chamber (and fitting of breech action), that it takes the government ammunition, and that it may be used in any match restricted to government military rifles of this pattern."

SMALL ARMS

96. Small arms of the description shown in **Tables 13–23** will be issued by the R.A.O.C.

They will be supplied only for the ranks detailed in those Tables, the total number issuable being limited to :—

(*a*) THE FULL ESTABLISHMENT OF SUCH RANKS.	When the strength of the unit is equivalent to its approved establishment.
(*b*) THE ACTUAL STRENGTH plus 5 per cent. spare in the case of rifles, or such additional numbers as the G.O.C.-in-C. may approve.	When the strength of the unit is below its approved establishment, provided always that the maximum number issuable under (*a*) is not exceeded.

* Here insert the description of the arms or barrels.

Digitized by Google

Unless War Office authority is first obtained, units will not be permitted to hold small arms in excess of the maximum authorized establishment for which small arms are normally issuable under these regulations.

97. Sufficient small arms will be maintained by the R.A.O.C. in each command to complete the war equipment of all units on mobilization.

98. The necessary adjustment in the number of small arms held on charge will be made on the 1st April of each year, according to the strength, exclusive of officers, shown on A.F. B 157B rendered on that date.

99. Certain small arms are classified as follows :—

(*a*) **Rifles**—

For rifle grenade training—
are distinguished by the letters E.Y. stamped on the butt, fore-end, body, barrel and bolt.

Drill purposes—
are for drill purposes only, and are distinguished by the letters D.P. stamped on the parts as for rifles for grenade training.

Skeleton actions—
are for instructional purposes, and are distinguished by the exposure of the principal working parts.

(*b*) **Bayonets**—

Drill purposes—
are for drill purposes only, have the points removed and are distinguished by the letters D.P. stamped on the pommel.

100. D.P. rifles and skeleton actions must NOT be used for ball or blank firing.

The components of D.P. arms must be kept separate from those of service arms and, to ensure this, the necessary precautions will be taken during all authorised stripping and re-assembly.

101. Every opportunity will be taken by officers to inspect the small arms in their charge ; special attention being paid to those kept in private custody (*see* paragraph **65**). All the small arms on charge of units, including those kept in private custody, will be inspected at least once every six months by the C.O. or an officer deputed by him. Steps will be taken for replacing any deficient or unserviceable stores by indents upon the D.A.D.O.S. and for payment of the value of deficiencies and damages as directed in paragraph **35**. One of these inspections must take place between 1st and 31st October.

Digitized by Google

102. The stripping of any part of a small arm, except by an armourer, an officer qualified at a small arms technical long course or a certificated instructor, is strictly forbidden.

103. The bayonets and scabbards issued to T.A. and O.T.C. units have the mobilization finish, *i.e.*, the blades of bayonets are sandblasted and all other metal parts browned ; the metal parts of the scabbards are also browned. Polishing of any of these details by units is strictly forbidden and will render a unit liable to charges for damage.

104. Bayonets will be maintained during peace in a sharpened condition ; this will be carried out when necessary by the R.A.O.C. The sharpening of swords will be carried out after embodiment under arrangements to be made by the R.A.O.C.

105. The proportions of components of arms detailed in **Table 48** will be issued on demand to enable instructors to execute repairs, provided that the conditions laid down in paragraph **106** are complied with.

These components, with the exception of handguards, will be used also for the repair of D.P. arms. D.P. handguards will be demanded as required.

Indents will be rendered annually on 1st March, on A.F. G 997 for articles required to replace those expended during the year.

106. Tools in the proportions laid down in **Table 49** will be issued on demand by the D.A.D.O.S. as public equipment for each certificated instructor, provided that the C.O. certifies that a properly fitted shop exists locally for the separate use of such instructor.

107. Where possible, rifles, especially service rifles, will be kept in store in racks.

When bolts of rifles and cylinders of pistols are ordered to be stored separately from their arms, arrangements will be made for their easy identification when required for issue. They will be kept in packages of 10 or 20, and each package will be marked with the bay or chest in which the rifles or pistols to which they belong are stored.

108. Rifles in store will be cleaned and re-greased, both internally and externally, once every 12 months in the manner indicated in paragraph **66**.

Care will be taken to ensure that the stock is cleaned and lubricated in rotation. A label showing the date of last cleaning and lubrication will be attached to each rack or chest.

Where rifles are stored in racks having plugs, or holders, or where plugs or holders fail to protect the barrels from the air,

Digitized by Google

the bore of the rifles will, at home stations, be protected by a clot of red mineral jelly placed in the muzzle end of the barrel.

109. When small arms are stored in chests, the latter will be distinctly marked with their contents and will contain a packing note (A.F. G 1028).

110. Instructions for the packing of rifles are contained in Equipment Regulations, Part 1.

111. In the event of a soldier desiring to have a new barrel or components fitted to his service rifle at his own expense, he may apply, through his C.O., to the C.I.S.A., who, if circumstances permit, will arrange for the work to be carried out. One-third of the cost of the new barrel or components, the full cost of fitting and inspection, and carriage both ways, will be defrayed by the soldier.

MACHINE GUNS AND MOUNTINGS

112. Certain machine guns are classified as follows :—

Drill purposes—
are for drill purposes only, and are distinguished by the letters D.P. stamped on the principal parts. This also applies to machine-gun barrels intended for drill purposes only.

Skeleton—
are for instructional purposes, and are distinguished by the exposure of the principal working parts.

Barrels for blank firing, Vickers ·303-*in. M.G.*—
are distinguished by the letters D.P.B. on the trunnion block.

Barrels for use on mobilization—
are distinguished by a white band painted on them.

113. D.P. and skeleton machine guns must NOT be used for ball or blank firing. D.P. components will on no account be used with service guns.

Care will be taken to ensure that spare D.P. components are not mixed with spares for the service guns.

114. The stripping of machine guns, except by an armourer or a certificated instructor (within the limits permitted to him), apart from that permitted in paragraph **115** and the normal stripping necessary in order to replace any of the spare parts issued with the gun, or for cleaning purposes, as laid down in Small Arms Training and the Handbook for the ·303-in. Vickers Machine Gun, is strictly forbidden.

Digitized by Google

115. In units to which D.P. machine guns are allowed, such guns only will be used for instruction in stripping.

In other units, one machine gun in each squadron or company may be stripped to afford the personnel opportunities of becoming thoroughly acquainted with the working and mechanism of the machine gun. The stripping must be carried out in the presence of an officer who has qualified at the Military College of Science, Tank Gunnery School, or at the Small Arms School (Netheravon Wing in the case of the Vickers gun, Hythe Wing in the case of the Lewis machine gun).

116. When the accuracy of a machine gun fails and the barrel appears worn, an accuracy trial will be carried out in accordance with Small Arms Training. If the barrel fails in the trial, the C.O. will at once indent for another and, on receipt, will forward the doubtful barrel to the D.A.D.O.S. for transmission to the C.I.S.A. for final sentence.

117. (*a*) Spare parts for the repair of machine guns and mountings may be issued annually in the proportions detailed in **Table 45.**

(*b*) Other spare parts and tools are issued as part of the machine-gun equipment.

The contents of the spare parts box (or bag) will not be drawn upon until the components of the machine guns and the annual allowances authorized by sub-paragraph (*a*) have been used up. When articles are withdrawn from the spare parts box (or bag), indents will at once be put forward for their replacement.

118. The parts to be painted, when ordered by the C.I.S.A. or the R.A.O.C., and the scale of paint for machine guns, etc., is detailed in **Table 44.**

Paint brushes allowed in **Table 57** and Chapters XIV and XV will be used for this service.

119. Machine guns in store will be kept in the approved pattern chests or cases provided for the purpose. They will not be stacked out of their chests or cases, as this may lead to damage and distortion.

The packages will be kept in a dry condition, the felt or other absorbent linings being greased, as necessary, with red mineral jelly.

120. When the bolts and locks of Lewis and Vickers guns respectively are ordered to be stored apart from the guns, there is no necessity to keep any record, as these components are interchangeable.

Digitized by Google

121. In packing Mark IV tripod mountings, care must be taken to protect the dials and joint pins from damage in transit by wrapping canvas, hessian, old blanket or other suitable materials round them, the legs being not only clamped but securely tied together.

BICYCLES

122. General instructions for the guidance of all users of government bicycles are contained in the Handbook of the Military (Pedal) Bicycle (a copy of which will always be carried in the tool bag of the bicycle to which it belongs).

Detailed instructions regarding the care, preservation and repair of bicycles are included in Instructions for Permanent Staff Instructors.

123. Government bicycles will be used only on military duty or service connected with military requirements. C.Os. will be responsible for the proper care and preservation of bicycles by soldiers or others under their command.

Padlocks and chains will be issued with all bicycles supplied for cyclist orderlies. They will be obtained on indent from the R.A.O.C. for this purpose, and will be considered part of the equipment of the bicycle. When not in use for chaining up the bicycle, they will be carried in the tool bag.

124. In addition to the periodical inspections by the C.I.S.A. and the R.A.O.C. (*see* **Appendix 4**), C.Os. will arrange for all bicycles to be inspected weekly, in order to ensure that they are properly cleaned and cared for, and that all deficiencies and serious damages are duly investigated at once and the responsibility for them fixed.

125. Certificated instructors will examine all government bicycles quarterly (*see* **Appendix 4**) and be responsible that they are cleaned.

126. In order to fix responsibility for loss or damage, transfers of bicycles between individuals will be recorded in the Handbook of the Military (Pedal) Bicycle. Any loss or damage will be immediately reported by the rider concerned.

127. When a bicycle is allotted for the common use of orderlies, the C.O. will cause a particular soldier to be detailed to look after it, and it will be part of the duty of this soldier to report in writing at the end of each day any damage or loss which has occurred to it, whether caused by himself or any other person.

128. Provided that the unit has a certificated instructor and is in possession of service bicycles, it may maintain a stock of

Digitized by Google

components and materials for repair. No one article must exceed two shillings in value, and the total value of such stock must not exceed five shillings for each bicycle on charge.

Indents will be submitted as directed in paragraphs **12, 13** and **16** for the maintenance of these stocks, which will be accounted for in the equipment ledger, the articles expended in repair being written off by A.F. G 1033, showing the number of the bicycle on which expended. When extensive repairs are necessary and the stock of components is inadequate to meet requirements, intermediate indents will be submitted.

Only such components as are supplied by the R.A.O.C. will be used in the repair of service bicycles; local purchase is prohibited, except in the case of items so detailed in the Vocabulary of Army Ordnance Stores, which will be purchased locally by units on the authority of the D.A.D.O.S.

129. Repairs to bicycles, except brazing, will be carried out by the certificated instructor. Repairs, including brazing, beyond the capacity of the unit will be arranged for by the R.A.O.C.

When the services of a certificated instructor are not available, arrangements will be made with the D.A.D.O.S. of the area for any necessary repairs to be carried out.

When the services of a certificated instructor are available, soldiers called upon to ride bicycles will, whenever possible, be previously instructed in the correct method of effecting adjustments and minor repairs. The syllabus for such instruction is given in the Handbook of the Military (Pedal) Bicycle.

130. The scale of materials for lighting, cleaning and lubricating each government bicycle is detailed in **Table 50.**

131. Sets of tools for repair of bicycles, as detailed in **Table 25,** will be issued to units as follows :—

Units	Sets
Scout regiment	6
Divisional Engineers	1
A.A. Searchlight Company, R.E.	1
Divisional Signals	1
Cavalry Divisional Signals	1
Infantry battalion	1

Digitized by Google

CHAPTER IV.—AMMUNITION

132. The quantities of small arm ammunition allowed annually for practice and exercise are detailed in current A.C.Is.

133. The ammunition surplus from rifle practices must not be fired in machine guns.

134. The ammunition expended will be written off by expense voucher, which will be signed by the C.O. and dated 31st October, the end of the weapon training year. This voucher will be supported by a copy of Section V of A.F. E 569 detailing the numbers of the various categories (recruits, trained men, machine gunners, etc.), and the allowances claimed for each on the one hand and the quantities actually expended on the other.

Any ammunition unexpended will be returned to the R.A.O.C. or deducted from demands for the ensuing year.

135. A statement must be rendered on the annual musketry return showing how the whole of the ammunition has been disposed of. The figures shown in this statement must accord with those recorded in the diary of ammunition expended, A.B. 218. This book must be produced for audit when required.

136. Expenditure of ammunition in excess of the authorized scales is a loss to the public and will be dealt with from the disciplinary aspect in the same way as other losses of public stores. Over-expenditure of small arm ammunition, amounting to not more than 1 per cent. of the total entitlement of the unit in the weapon training year concerned, may be written off locally under King's Regulations where it is established that the over-expenditure was due to excusable circumstances. In all other cases, however, War Office authority will be required if it is proposed that the value of over-expended ammunition shall be borne by the public.

137. Subject to any special orders that may from time to time be issued from the War Office, the small arm ammunition to be expended at practice will be taken in the following order :—

(*a*) The contents of broken boxes, viz., boxes of which the tin lining has been opened.

(*b*) Ammunition repacked at stations other than Woolwich or Bramley.

Digitized by Google

(*c*) Ammunition re-examined and repacked at Woolwich or Bramley, the original date of which is not known. Boxes containing this ammunition bear a label containing the words "EXAMINED (year)" in place of the detailed information as to make and date which usually appears. This ammunition will be used in the order of the date of re-examination.

(*d*) Ammunition labelled for early use or for use by some definite date.

(*e*) Ammunition not specified above, the oldest date of manufacture being used first.

The linings of boxes must not be disturbed until the ammunition is actually required for use.

138. C.Os. will be allowed to purchase on repayment at 90 per cent. of the vocabulary rate in force on 1st April preceding the date of issue such quantities of ·303-in. ball ammunition as will not exceed in the aggregate 10 rounds a year for each enlisted member. Chargers, bandoliers and cartons issued with ·303-in. ammunition will be charged for at vocabulary rates.

139. C.Os. are permitted to purchase on repayment from the R.A.O.C. such quantity of small arm ammunition, in addition to that fixed by paragraphs **132** and **138**, as may be required for regimental purposes. Ammunition chargers, bandoliers and cartons will be charged for at vocabulary rates.

140. Indents for the supply of practice small arm ammunition will be made out on A.F. G 812 for the whole amount required by the units during the current year, and must be rendered not later than the 1st December to the D.A.D.O.S. of the area.

141. All small arm ammunition not drawn by 31st October will be forfeited and any remaining unexpended will be reckoned as part of the supply for the ensuing year, and will be shown in the indent for that year as "in hand."

142. Ammunition supplied free will be forwarded, free of charge, to the headquarters of the unit or to the authorized drill stations of outlying detachments.

The carriage of ammunition, and of empty packages and fired cartridge cases, between the units' storehouses and the ranges will not be defrayed from army funds.

143. C.Os. will not draw at one time a greater quantity of practice ammunition than can be kept in safety until required for use, but, whenever local conditions for safe storage permit, they will draw in one consignment the whole allowance of ammunition for the year.

Digitized by Google

144. Should the lack of storage accommodation render part issues compulsory, a memorandum giving particulars of the detailed consignments must accompany the indent. Every care must be taken to ensure that the annual allowance is not unnecessarily sub-divided into part consignments. If any disregard of this instruction is observed, the excess cost incurred in transport will not be allowed as a charge against army funds.

145. A charge will be admitted against the public for any necessary transport of ammunition of oldest date that in the course of the turnover, referred to in paragraph **137**, has to be transferred to the authorized drill stations of outlying detachments from the place of storage of the service ammunition.

The cost of the carriage of ammunition supplied on payment will not be defrayed from army funds (*see* paragraph **21**).

146. O.Os. are instructed to issue ammunition of the earliest manufacture in their magazines for the free supply, and for issues on repayment at reduced rates. For purchases at full vocabulary rates, ammunition of late date will be supplied.

147. C.Os. will be held strictly responsible for the safe keeping and proper issue and use of all government ammunition, whether issued free or supplied on repayment for their use.

In no circumstances will drill and dummy cartridges be kept in, or issued from, the same store as that used for ball or blank ammunition.

148. Where no specially provided accommodation is available for storage, small arm ammunition in service packages may be stored in small quantities in a " small arm ammunition lock-up ", consisting of any substantially constructed building, or in any room, cupboard or other compartment in such a building, provided that the following conditions are fulfilled :—

(*a*) The lock-up must be free from easily inflammable material (*i.e.*, it must not be constructed of match-boarding or other such material), and must be subject to no undue risk of fire. Provided that these conditions are fulfilled, it is not necessary that the lock-up should be detached from other buildings.

(*b*) The lock-up must be in charge of a responsible person, must be kept scrupulously clean and devoted exclusively to such storage.

(*c*) The safe custody of the ammunition must be provided for at all times, and C.Os. will be responsible that the places selected are suitable in all the above respects.

Note.—A definition of the term " small quantities " and particulars of the small arm ammunition which may be stored under the terms of this paragraph will be found in Magazine Regulations, Part I.

Digitized by Google

149. Ammunition supplied for practice may not be sold to any member of the unit or County Association, nor may it be used for any purpose other than the authorized practice for which it has been issued.

The sale, exchange or gift of government ammunition outside the unit or County Association to which it has been supplied is also prohibited.

Any transaction of such a nature (except under orders from the War Office) is illegal and will render the parties concerned liable to proceedings at law.

150. The use in service arms of any ammunition (whether ball, blank or dummy) other than that obtained from the R.A.O.C. is forbidden.

151. When troops, at the termination of a field day, are to return by rail to their headquarters, their arms will be examined, and all the ammunition that has not been expended will be collected from the men and placed in a metal cylinder, or metal-lined case, for conveyance in safety to the headquarters of the unit to which it belongs. C.Os. will be held responsible that this regulation is strictly carried out. Cases and cylinders will be issued on repayment, on indent being made to the D.A.D.O.S. of the area.

152. Small arm ammunition in charge of units will be examined annually by the I.O.O.

The C.O. of each unit will forward a statement, in duplicate, of the ammunition in his charge to the A.D.O.S. (or the D.A.D.O.S.). A.F. G 803 will be used for this purpose, and columns 1 to 5 must be carefully completed in accordance with the instructions given on the form; columns 6 to 11 will be completed by the I.O.O.

On completion of the inspection, the report will be returned by the I.O.O., through the A.D.O.S. (or D.A.D.O.S.), to the C.O. of the unit, for transmission, through the headquarters of the command, to the C.I.A., Woolwich.

153. When ammunition is found to be defective, the description, maker and date of manufacture marked on the box will be noted and a report rendered by the C.O., through the usual channels, to the G.O.C.-in-C. The rounds complained of, with their wrappers, charger cases or bandoliers, and further samples from the same box, and the arms with which failure occurred, will be examined locally as far as possible. The G.O.C.-in-C. will, if necessary, forward the rounds, with their wrappers, charger cases or bandoliers, and further samples, with a précis of information, direct to the C.I.A., Woolwich, who will pass his report with his remarks to the

Digitized by Google

War Office, should he consider the matter important; otherwise he will report to the station direct. Should it be found necessary to send a box or boxes of ammunition, they will be sent to the C.O.O., Royal Arsenal, Woolwich, the boxes being marked clearly "For Special Examination by the Chief Inspector of Armaments, Woolwich." The label will quote the paper referring to it. The arms will be kept available for special inspection, if ordered.

RETURN TO STORE

154. When small arm ammunition boxes, metal-lined cases, powder barrels, metal cylinders or other packages are to be returned to store, C.Os. will, as far as possible, return them to the ordnance depot from which they were issued.

155. When returning small arm ammunition, C.Os. will apply to the nearest transport officer for instructions as to its mode of conveyance, specifying the number of small arm ammunition boxes or half and quarter barrels to be conveyed.

156. The printed address labels on the barrels, etc., will not be removed. If any are accidentally defaced or removed, the official designation of the unit will be marked on each package.

157. When ammunition barrels and cases, whether full or empty, are to be returned to government stores, they will be carefully examined to see that they are free from tacks, dirt and grit. Instructions will be given to the persons by whom such barrels are to be conveyed to keep them free from dirt and grit during their transit. Address cards will be fixed to the barrels by means of paste or string, and not by tacks or nails.

158. Ball and blank ammunition must not be packed together in the same package.

159. The fired cases of small arm ball and blank and ·22-in. R.F. cartridges supplied free will be brought on equipment ledger charge by certificate receipt voucher by weight in the proportions shown below, and returned each accounting year to the R.A.O.C. The cost of carriage will be borne by army funds (*see* paragraph **45**).

Nature of ammunition	Weight to be brought to account for each 1,000 rounds expended
	lb.
·22-in. R.F.	1½
·303-in. ball	24
·303-in. blank	12
Revolver, ·455-in. ball and blank ...	9

Digitized by Google

160. The rates to be charged for any deficiencies in the above proportions for ammunition supplied free, and the amounts to be refunded to units returning fired cases of ammunition supplied on payment, will be notified half-yearly to A.Ds.O.S. and D.A.Ds.O.S. by the D.D.O.S. These rates will be published half-yearly in command or district orders.

The number and date of the ordnance voucher on which the cartridges were received must be quoted on the issue voucher, A.F. G 1033, charging the empty cases to the R.A.O.C. Charges and refunds under this paragraph will be dealt with by the command paymaster.

161. When empty cases from ammunition supplies on repayment are returned to store, the cost of carriage will not be defrayed from army funds.

162. The cases will be returned to store in the empty ammunition packages not oftener than once a quarter, and C.Os. will not return a less weight than that representing 1,000 cases, except in the last quarter of the accounting year, when the outstanding balance, whatever it may be, will be sent in on 31st October, or as soon as possible thereafter, in any case not later than 30th November. The cases must be in good condition when returned, care being taken that grit and dirt are removed beforehand, and that no live cartridges are included with them.

163. Each package will contain a packing note on A.F. G 904, showing the rank, name and unit of—

(*a*) the person by whom the cartridge cases were sorted and packed;

(*b*) the responsible individual by whom the supervision of the sorting and packing operations was carried out.

A certificate to the effect that the cases are free from explosives and that no metal or material other than brass is contained in the packages will accompany the vouchers on which the cases are charged.

If live cartridges are found in any of the packages, the matter will be reported to the G.O.C.-in-C. for such action as he may consider desirable.

164. The foregoing general instructions apply equally to chargers and bandoliers issued with ball ammunition.

Chargers and bandoliers will not be brought on charge separately when issued with ball ammunition, but the

Digitized by Google

vocabulary designation of the ammunition will be amplified on the following lines :—

Vocabulary designation	Amplification
Cartridges, small arm ball ·303-in., Mk. VII.	Charger packed in bandoliers.

When ammunition is expended, bandoliers and chargers will be brought on charge (chargers by weight) by certificate receipt voucher with the fired cases ; the weight to be brought to account in respect of each 1,000 chargers will be 27 lb.

Vocabulary rates will be employed in calculating—

(*a*) charges for deficiencies ;

(*b*) the sum to be refunded to units for chargers and bandoliers returned from issues of ammunition on payment. No refund will be made for chargers returned in an unserviceable condition or for bandoliers unfairly damaged.

Cartons used for packing small arm ammunition will be disposed of locally.

165. An allowance at the rate of 10*s.* for each 100 lb. of fired cartridge cases of all types of S.A.A. will be paid by the command paymaster for the labour of collecting and sorting cases and chargers obtained from ammunition supplied free. The G.O.C.-in-C. may, in addition to disciplinary action, direct that this allowance be withheld or refunded to the public when live cartridges are discovered in packages purporting to contain fired cases only.

Digitized by Google

CHAPTER V.—CAMP EQUIPMENT

166. Camp equipment will be issued free for all camps which have been approved by the G.O.C.-in-C.

The cost of transport both ways will be debited against the special money grant for training the Territorial Army. Carrier's notes will be endorsed " Training Grant, Territorial Army, ———— Command."

167. The proportions of all articles of camp equipment and intrenching tools to be demanded, except for manœuvres, are laid down in **Tables 27, 30** and **32.** Indents for camp equipment will be prepared on A.F. G 968, in triplicate, and sent in duplicate to the D.A.D.O.S. of the area by C.Os. as early as practicable, and not less than 21 days before the formation of the camp, in order to give time for checking and supply. When the camp is to be held outside the area in which the unit is stationed, the D.A.D.O.S. will transmit the indents to the D.A.D.O.S. of the area in which the camp is to take place, for checking and action as above. C.Os. will estimate as exactly as possible the number of men who are likely to take part in the camp, and, if any tents or other equipment are found to be surplus to the approved accommodation after the camp has been formed, the tents, if pitched, will be struck when dry and repacked in their valises, and the matter will be reported to the D.A.D.O.S. of the camp area, who will give instructions regarding the disposal of the tents and other surplus stores.

The scales of camp equipment authorized for the various branches of the service are sufficient to meet the ordinary requirements, and no other article in excess of these scales will be allowed, unless the authority of the G.O.C.-in-C. has been previously obtained through the D.A.D.O.S. of the camp area.

In cases where a section of the R.A.O.C. (T.A.) is to be present at the camp, the procedure outlined in Instructions for the Administrative Services, etc., of the Annual Camps of the Territorial Army, 1934, paragraph **125,** may be adopted.

168. For manœuvres, camp equipment will be issued in accordance with the scales laid down in **Tables 28, 29** and **31.**

169. Nosebags and grooming kit are issuable during training under **Tables 28** and **32** for all public horses (including army " boarded out " horses).

When horses are hired by County Associations for training purposes, their nosebags and grooming kit will be included in the contract and brought with them.

Digitized by Google

Nosebags and grooming kit for Association owned horses will be provided by County Associations out of the money grant allowed for horse hire, which covers these items.

Horsekillers and ammunition will normally be obtained on loan from veterinary hospitals and pharmacies.

When these stores cannot be spared from authorized scales in veterinary hospitals and pharmacies, they may be drawn on loan from the R.A.O.C. on the authority of the G.O.C.-in-C.

170. Issues of camp equipment in excess of the authorized proportions will only be made when circumstances exist which, in the opinion of the G.O.C.-in-C., are so exceptional in character as to render additions to the normal scales essential. Blankets in excess of authorized scales will only be allowed on the certificate of the D.D.M.S. that they are necessary for the health of the troops. Written authority to issue will in all such cases be given to the responsible C.O. and in the case of tents, stoves, Soyers, or covers, waterproof, the G.O.C.-in-C. will render to the War Office a report of the circumstances necessitating the issue.

171. The issue of camp equipment for duly authorized week-end camps may be approved for retention by units during the camping season, provided that the superior authority considers it desirable, that accommodation is available with the units concerned, and also that stocks are sufficient to allow of such issues without detriment to normal services.

The camp equipment will be returned to the R.A.O.C. on conclusion of each camping season.

172. C.Os., in demanding camp equipment, will, with a view to economy in transport, and to obviate charges for losses and damage to articles not used by them, exercise their discretion as to whether all articles allowed should be demanded: *e.g.*, camp kettles will not be required when private cooking apparatus is used; the full portion of intrenching tools will not be required when the soil renders it unnecessary to intrench the tents; picketing gear will not be required when stabling is hired for horses. Information on these points should be obtained before indents are put forward.

When stoves, Soyers, are demanded as allowed by **Tables 27, 30** and **32,** steps will be taken to ensure that a supply of coal is available for use with them. The use of wood fuel with these stoves is prohibited.

173. Wood bottoms for circular tents for officers and men, or for marquees used for hospital purposes, may be issued when, owing to the dampness of the ground or to other causes, their use is certified by the D.D.M.S. of the command to be necessary. Their provision should be the exception and not the rule,

Digitized by Google

as waterproof sheets should generally suffice. Tent bottoms will not be supplied for store, office or workshop tents of units.

174. Tents and other stores for sports and entertainments, also tents, tables and forms for canteen purposes for standing camps, may be issued on temporary loan under the conditions given below :—

Authority under which issue may be made	Conditions of issue and charges to be recovered
The superior authority may, on application from the C.O. of the unit, give written approval for the issue, provided that the stores are available locally and can be spared.	The difference in value (including any depreciation due to fair wear and tear) of the equipment when issued and when returned ; also a sum based on wages for work actually performed, plus 70 per cent. overhead charges on the wages to cover the charge for handling, to be paid to army funds. The assessment of the C.O.O. or D.A.D.O.S. will be accepted as final. Transport from and to the issuing depot must be arranged by, and at the expense of, the borrowing unit or department. Issues can, however, only be made where in the opinion of the C.O.O. or D.A.D.O.S. no undue strain is likely to be thrown on the R.A.O.C. If a charge is made for admission to, or money is taken in any other manner at, the sports or entertainment, hire will also be charged for the stores at ½ per cent. of their vocabulary rate for each period of 6 days or less. If no money, as above, is to be taken, the C.O., or an officer on his behalf, will certify the indent to this effect. The hire charge may, at the discretion of the G.O.C.-in-C., be waived if the profits are for the benefit of a naval, military or air force charity.

175. For camps where there is an ordnance depot, the equipment will be drawn from, and returned to, that depot. The officer drawing the equipment will arrange for the necessary transport between the depot and the camping ground, both when drawing and returning the equipment. A responsible representative of the unit must attend at the depot to take over the equipment ; he will give a temporary receipt for it directly he has drawn it.

When the stores are returned to the camp ordnance depot, a representative of the unit should attend and obtain a temporary receipt on a triplicate copy of the voucher, which will be marked " subject to examination for damages," if there is no time to examine the stores.

176. When stores are sent by rail (both issuing and returning), carrier's notes (A.F. G 980) will be prepared to

Digitized by Google

show the quantity of each kind of package, bundle, etc., despatched. In the case of bundles, the number contained in each must be inserted against the entry in the body of the carrier's note. The copy of the R.A.O.C. carrier's notes on which the stores were received should be taken as a guide.

The instructions for the preparation and disposal of carrier's notes contained in the Regulations for the Supply, Transport and Barrack Services will be followed, except when the cost of conveyance is payable from County Association funds. In such cases the forms will be clearly marked by a rubber stamp or in manuscript "Payable by the T.A. Association of the County of....." in the space provided opposite the words "The charges for carriage THROUGH TO DESTINATION will be paid on production of this voucher by....." In such cases government transport will not be utilized for the conveyance of the stores to or from the railway station.

When the charges are payable by a County Association, it will not be necessary to forward copies to the R.A.S.C. officer i/c transport at the consignor's end for registration and routing, as laid down in the Regulations for Supply, Transport and Barrack Services, and in such cases the forms will be disposed of as follows :—

(*a*) The original and duplicate copies will be handed to the goods agent at the station from which the stores are being despatched. The railway company will attach the original copy to their claim for conveyance and retain the duplicate copy for reference.

(*b*) On the triplicate copy will be obtained the signature of the railway company's representative for the stores, who will, if necessary, correct the weights. This copy will be retained by the consignor.

(*c*) The quadruplicate copy will be amended by the consignor, so as to correspond exactly with the triplicate copy, and then sent to the consignee. The latter will state thereon whether the stores have been delivered correctly or otherwise, and return the form to the consignor. This copy will finally be sent by the consignor to the County Association paying the charges, as a check on the railway company's claim, or disposed of as the Association may arrange to suit local convenience.

(*d*) The quintuplicate copy will be retained by the consignor.

177. When it is not possible for a representative of the unit to take over the stores, the vouchers and A.F. G 973 will be forwarded, when possible, so as to reach the unit three clear days

Digitized by Google

before the opening of the camp, and they should be handed over to advance parties for the purpose of checking stores.

For further instructions regarding the conveyance of camp equipment, *see* Instructions for the Administrative Services, etc., of the Annual Camps of the Territorial Army.

178. The procedure to be followed on receipt of camp equipment will be as laid down in paragraphs **23** to **26.**

179. A.F. G 973, which will be given to the officer drawing the first issue of camp equipment by the O.O., will be used to record all transactions of receipt and return of camp equipment. On the opening of a camp, as soon as the vouchers have been checked with the stores, the receipts will at once be entered under their appropriate headings on the first line of the form, and any subsequent transactions will be duly entered on the date on which they occur. In no circumstances will this form, which is a ledger account, be merely filled in at the termination of the camp.

At the close of the camp, when the stores have been returned, the camp equipment account will be balanced and forwarded, with all supporting vouchers, to the D.A.D.O.S. of the area in which the issues were made, irrespective of the locality of the ordnance depot to which the stores may have been returned. This officer will have the account examined and compared with the accounts of the O.Os. by whom the issues were made. Should any questions arise, they will be decided by the D.A.D.O.S. of the area in which the issues were made, after communication with the C.O.

180. Ammunition received during periods of camp will not be accounted for in camp equipment accounts.

181. At camp where local conditions or circumstances render it impossible or, in the opinion of the G.O.C.-in-C., undesirable to dig trenches for latrine purposes, and the pail latrine system has to be specially resorted to, latrine buckets may be issued in the following proportions to the contractor engaged to remove the soil :—

For officers	...	... 20 per cent. of the number of officers encamped.
For other ranks		... 10 per cent. of the number of other ranks encamped.

These numbers are regarded as sufficient to meet requirements for both dry earth closets and urinals. The number of buckets and scoops required should be included in the indent referred to in paragraph **167.**

The name and address of the contractor will be furnished to

Digitized by Google

the D.A.D.O.S. 14 days before the date of the camp, in order to consign the buckets to him.

The conditions to be fulfilled by the contractors with regard to collecting, disinfecting, cleaning, repairing and redelivering these buckets will be found detailed in the " special conditions of contract " embodied in a tender form approved by the Army Council, and issued to G.Os.C.-in-C., to govern local contracts in connection with the pail latrine system in camps.

Latrine paper will be demanded as laid down in Allowance Regulations.

182. Horse shoes and nails may be drawn from the R.A.O.C. and expended in the proportions detailed below. They will be entered in the camp equipment account (A.F. G 973). The expenditure under this head will be supported by a certificate from the C.O. of the unit that the shoes and nails have been necessarily utilized during the period of the camp in shoeing horses hired for and employed upon military duties. This certificate must accompany the camp equipment account as one of the supporting vouchers referred to in paragraph **179.**

The unexpended balance will be returned to the R.A.O.C. at the termination of the camp. The value of any shoes and nails expended in excess of the quantities allowed will be claimed from the County Associations concerned.

Numbers which may be drawn from the R.A.O.C. for every 100 horses present at annual training in camp		Free expenditure allowed for every 100 horses present at annual training in camp	
Shoes sets	Nails	Shoes sets	Nails
15	600	10	400

183. Wooden tent pins not exceeding 5 per cent. of the number issued may be written off as expended by fair wear, if such expenditure has actually taken place.

184. All deficiencies other than those mentioned in the preceding paragraph must be paid for unless the authority of the G.O.C.-in-C. is obtained to write them off as a charge against public funds.

No charge will be made for damages due to fair wear and tear, but the value of such damages as are obviously wilful or due to culpable negligence will be recovered from the unit concerned (*see* paragraph **32**). Claims for such damages will be prepared by the O.O. and submitted to the secretary of the County Association for settlement.

185. C.Os. will arrange for all questions of losses, damages,

Digitized by Google

etc., for which it is necessary to obtain the authority of the G.O.C.-in-C. for writing off as chargeable to the public, or otherwise, to be reported as soon as they occur to the D.A.D.O.S. of the area in which the camp is situated. When there is any suspicion that the losses are due to theft, the civil police will be informed at once. The report will consist of A.F. G 998 duly completed, corroborative statements of evidence, and the opinion of the C.O., all in duplicate. This applies to cases dealt with under King's Regulations, 1928, paragraph **737.**

186. Shortly before the termination of the camp, the C.O. will arrange for an inspection of the whole of the camp equipment in his charge and the investigation (if necessary by a regimental board) of all cases in which articles are found to be damaged or deficient.

When it is possible to trace to individuals the responsibility for the damages or deficiencies, the C.O. will estimate the cost of repair or replacement (*see* paragraph **32**) and take steps to recover the amount from the individual or individuals responsible. (*See also* paragraph **30.**)

187. Tents should not be struck before 10 A.M.; otherwise serious damage may be caused to them by dew. Articles of camp equipment which have become wet while in use will be thoroughly dried and cleaned, as far as possible, by the troops before being returned into store. When a camp is broken up in wet weather, and the O.O. or, in his absence, the C.O. is of opinion that the tents should not be struck or other articles of equipment be taken over in a wet state, a detachment will be left behind until the articles are in a proper condition to be returned to store. This detachment will consist of permanent staff only, or of such men as may be willing to remain, if a larger detachment is thought desirable.

188. When it is arranged for a unit in camp to hand over blankets, horse rugs, etc., direct to the washing contractor for washing and subsequent return to an ordnance depot, a detail of such items will be prepared, in triplicate, on check lists (or A.F. G 1033 if A.B. 200 or 200A is not available). The contractor's representative will sign all copies, which will be disposed of as follows :—

Original to the D.A.D.O.S. of the area for recording in the washing book.

Duplicate to the washing contractor.

Triplicate retained by the unit to support the camp equipment account.

189. After the camp has been struck, the stores will be carefully checked, and the numbers of each item compared with

Digitized by Google

the numbers on charge as shown in A.F. G 973, any surpluses and deficiencies being noted at the time to save subsequent correspondence.

190. The vouchers recharging the stores to the R.A.O.C. should be lists of stores actually returned, and not copies of the issue vouchers. They should, if possible, be in possession of the R.A.O.C. when the stores arrive.

191. Credit can only be given for the equipment actually returned to store. Any articles found afterwards on the camping ground are brought on charge in R.A.O.C. accounts by certificate receipt voucher. No claim on these surpluses can be recognized, and credit on account of them will only be admitted if approved by the G.O.C.-in-C.

192. The following instructions will be observed in handing over stores on the closing of a camp :—

(a) When Stores are handed into an Ordnance Depot at the Camp

(1) Each unit will be allotted a space at the ordnance depot on the camping ground, in which its stores will be laid out for handing over to the R.A.O.C.

(2) Paillasse and bolster cases (after being emptied of straw), blankets and waterproof sheets will be laid out flat, in piles of any height ; they will be checked off and tied in bundles when being taken over by the O.O.

(3) Camp kettles will be packed in the cradles in which they were issued.

(4) Tents will be left in the valises and stacked in piles, except as stated in (8).

(5) Pin bags will be emptied and laid out flat in heaps of 20 or less, as may be convenient.

(6) Marquees will not be securely tied up, as they will have to be examined to check the various parts, etc.

(7) Axes, mallets, tent poles, spades and other small stores will be collected and placed so that they can be readily counted.

(8) In wet weather, arrangements will be made for handing over at the depot blankets, paillasses, bolsters, waterproof sheets, pin bags and all other damageable stores in a store tent, which will be allotted to each unit on the morning of the day of the termination of the camp, but all tents will be left standing.

(b) When Stores are not handed over at an Ordnance Depot at the Camp

(1) As far as possible stores will be returned in the same cases or vats as those in which they were received ; each package will be labelled and clearly addressed to the O.O. Bundles will be securely tied, in at least two places, with spun yarn.

Digitized by Google

(2) Blankets will be rolled lengthwise in bundles of 20, and fastened near each end with spun yarn ; paillase cases, etc., and waterproof sheets (unless packed in cases or vats) in similar bundles of 10. Buckets, tubs and pails will be nested five together and fastened with yarn ; camp kettles will be packed in cradles (five each). Bolster cases will be packed (200) in a paillasse case. Tents will be in valises, pins and mallets in pin bags, which will be placed in the valises in the case of C.S. tents, poles tied in sets ; the loose parts of Soyer's stoves and vehicles will be firmly secured with spun yarn.

All articles of camp equipment, etc. (particularly furniture), must be packed in accordance with the specifications laid down by the railway companies and published in the General Railway Classification of Goods, and the Special Instructions relating to the conveyance of Government (Military, Naval, and Air Force) stores, which are also applicable to the Territorial Army. If articles are not so packed, the carriers may, in accordance with their by-laws, protect themselves by accepting the stores under " owner's risk " conditions. This acceptance does not necessarily imply, however, that a rate is obtained lower than that at which the stores would ordinarily be conveyed.

Unless the consignor is satisfied that packing is in accordance with the railway company's specifications, reference should be made to the local railway authorities in order that any defects in packing may be rectified before the stores are despatched.

In all cases where stores are advisedly despatched at " owner's risk " rates, the carrier's notes will be so endorsed, so as to ensure that the lower rate for conveyance is obtained. For a list of stores for which " owner's risk " conveyance is usually provided, when this is cheaper than the military rate, *see* Regulations for the Supply, Transport and Barrack Services.

(3) A packing note giving the contents signed by the packer and witness will be placed in each package.

(4) The labels will clearly show the name of the unit and station from which the stores are returned. The reverse side of the label (A.F. G 1025) originally sent with the stores can be used for returning them.

(c) When a Camp is handed over standing from one unit to another

(1) The D.A.D.O.S. of the area will detail a representative of the R.A.O.C. to witness the transfer, and to assess, as a charge against the outgoing unit, the cost of any damage done to the camp equipment not due to fair wear and tear.

Digitized by Google

(2) The usual vouchers will be prepared by the outgoing unit charging the stores handed over to the incoming unit, and receipts obtained from the incoming unit, after handing over is completed, in the presence of the R.A.O.C. representative.

The equipment handed over by the outgoing unit will be accounted for in A.F. G 973 in the manner laid down in paragraph **179.**

An A.F. G 973 will be handed to the incoming unit by the R.A.O.C. representative witnessing the transfer of stores.

FIELD HOSPITAL EQUIPMENT

193. When regiments are encamped for training at places where no hospital building is available, field hospital equipment, as specified in **Table 27,** will be demanded on A.F. G 968 when required.

This equipment will be accounted for in the camp equipment account, A.F. G 973, in the manner laid down in paragraph **179.**

194. Cleaning and washing materials will be issued upon the written authority of the G.O.C.-in-C. The quantities issued will not exceed those authorized in the hospital schedules for hospitals generally.

MEDICAL AND SURGICAL EQUIPMENT

195. Medical and surgical equipment, as laid down in **Table 27,** will be supplied to each camp at the beginning of training at stations where no military hospital is available.

Deficiencies and damages will be dealt with as directed in paragraph **275.**

196. M.Os. will ensure that the equipment issued under paragraph **195** is properly packed and duly returned to store at the termination of training. Each composite article of equipment, when returned to store, will be accompanied by a list of contents, in triplicate, in which deficiences, damages and expenditure will be recorded, showing the extent and amount against each item. The three copies will be signed and dated by the officer returning the equipment, one copy being placed inside each composite article and two copies being attached to the invoices forwarded to the consignee. The consignee will return one copy and retain the other two, keeping one with the invoice and one inside the item of medical equipment until conversion or completion is effected in store.

Digitized by Google

VETERINARY EQUIPMENT

197. The following veterinary equipment is authorized for use at the annual camps of units :—

Veterinary Wallets, Mk. III	1 for each unit from 10 to 100 animal strength.
Veterinary Unit Chest ...	1 for each unit from 40 to 300 animal strength.
Veterinary Officer's Chest...	1 for each executive veterinary officer (T.A.) attending camp.

Indents on A.F. G 997 will be sent to the Officer i/c Army Veterinary Stores, The Common, Woolwich, S.E.18, by the C.O. of the unit in time to enable the equipment to be issued seven days before the date on which the camp opens. The animal strength will be noted on the indent.

Veterinary officers' chests will not be demanded unless a veterinary officer, T.A., will be present in camp with the unit.

198. The unit commander will be responsible that stores are returned at the conclusion of the camp to the Officer i/c Army Veterinary Stores, The Common, Woolwich, S.E.18, in a similar manner to the instructions contained in paragraph **196** for medical equipment. Deficiencies and damages will be dealt with as directed in paragraph **275.**

199. Extra requirements during the period of training of expendable veterinary stores should be demanded through the usual channels, and in cases of urgency by wire to " Veterinary Stores, Woolwich."

CHAPTER VI.—MECHANICAL TRANSPORT

NOTE.—Vehicles on charge of R.A. units affiliated to the R.A.S.C. for maintenance will be accounted for generally in accordance with Regulations for Supply, Transport and Barrack Services, 1930, paragraphs **340–479,** but modified as directed by the War Office from time to time.

ACCIDENTS

200. (*a*) In all cases of accidents a report on A.F. A 3676 will be completed and the C.O. of the unit concerned will make an immediate investigation.

(*b*) Where the damage to W.D. property does not exceed £50 and no civilian person, vehicle, animal or property is involved, the C.O. of the unit will, if he deems it necessary, convene a court of inquiry in accordance with King's Regulations, 1928, paragraph **738.**

Where the damage to W.D. property is over £50 or where any civilian person, vehicle, animal or property is involved, the matter will be reported to the G.O.C.-in-C., who will convene such court of inquiry as may be required by King's Regulations, 1928, paragraphs **738-739.**

(*c*) If the accident is considered to be due to a mechanical defect, the matter will be reported immediately to the area D.A.D.O.S. of the area, who will take necessary action.

(*d*) Where the amount of W.D. damage (excluding overhead charges) does not exceed £4, and provided that no civilian person, vehicle, animal or property is involved, the C.O. of the unit is empowered to authorize the necessary repairs at the public expense (subject to any stoppage that may be made from any individual soldier).

Where, however, the amount of the damage exceeds £4, or civilian persons, vehicles, animals or property are involved, the C.O. of the unit will submit the report on A.F. A 3676 to higher authority, accompanied by the proceedings of the court of inquiry, if one has been convened by him. In cases where damage or injury has been done to the property or persons of third parties, the report should state as nearly as

Digitized by Google

can be estimated, without reference to the third party, the probable extent of the claim or claims.

When a court of inquiry is held, one of the members should be an officer qualified to give technical evidence, and when there is any doubt as to the accident being due to a mechanical defect, the court should be adjourned for the attendance of a representative of the C.I.A. The proceedings of the court will be dealt with in accordance with paragraph **30** where there has been loss of or damage to government vehicles or stores, but where no such loss or damage has been incurred, the proceedings will be transmitted by the president to the convening officer for submission to command headquarters.

(*e*) When action for recovery of the cost of the damage is taken against any individual soldier, the amount will be assessed on the lines indicated in paragraph **32,** as modified by King's Regulations, 1928, paragraph **568.**

(*f*) In cases to which they are applicable, the instructions in the pamphlet entitled " Traffic Accidents. Claims arising out of Collisions with insured Vehicles and Animals " will be observed.

GENERAL

201. The purchase and issue of all vehicles will be under War Office control.

Questions of design are co-ordinated and controlled by the War Office through the usual channels.

C.Os. are forbidden to communicate direct with the makers of vehicles.

SOURCE OF SUPPLY

202. " A " and " B " vehicles and all materials required for their maintenance and repair, including spare parts, tools and accessories, solid tyres, covers and tubes, will be issued by the R.A.O.C., indents being submitted as directed in paragraph **12.**

(*a*) Petrol, lubricants, etc., are supplied by the R.A.S.C. at annual training and for extra camp training under the conditions of Regulations for the Territorial Army, 1929, paragraph **811,** and will be accounted for in accordance with the instructions in Regulations for Supply, Transport and Barrack Services, 1930, **Appendix XXXV.**

(*b*) Oil, grease and illuminants for other than annual and extra camp training requirements will be issued on repayment, *see* Regulations for the Territorial Army, 1929, paragraph **870.**

Digitized by Google

203. Indents will be limited in accordance with the instructions in paragraphs **210–211.**

204. Indents on A.F. G 997 for timber, oxygen and acetylene gases, and cleaning materials appearing in the Vocabulary of Army Ordnance Stores, required for all types of vehicles ("A" and "B" and R.A.S.C. vehicles) will be submitted to the D.A.D.O.S. of the area.

205. When a new vehicle is issued, one instruction book, with lubrication chart and log book, will be sent with it.

Indents on A.F. G 997 for further M.T. publications (except the Vocabulary of Miscellaneous Stores for M.T.) will be submitted to the D.A.D.O.S. of the area and will be based on the following scale :—

Identification lists or trade lists of spare parts.	One for each accounting unit for each different make and type of vehicle held on charge.
Instruction book with lubrication chart.	Two for each unit H.Q. and two for each squadron, battery or company in addition to those held in vehicle outfits.

VEHICLE OUTFITS

206. The items of equipment and tools issued with each vehicle are detailed in **Tables 58–61.**

VEHICLE RECORDS AND RETURNS

207. The following records will be maintained by units :—

(*a*) **A.B. 5** (vehicle log sheet file), for each "A" and "B" vehicle on charge.

(*b*) **A.F. G 3519** (monthly vehicle log sheet), for each "A" and "B" vehicle on charge.

(*c*) **A.F. G 3518,** transport work ticket.

The above will be available for inspection by the local auditor, when required, in addition to the documents supporting the unit's accounts.

For all "A" and "B" vehicles the old A.Bs. 5 will be retained with the unit for 2 years after the preparation of the new book. They will be held available for inspection at all times during that period, at the end of which they will be forwarded to the C.I.A., Royal Arsenal, Woolwich, for retention.

Digitized by Google

A.B. 5 will accompany the vehicle when the latter is sent to the R.A.O.C. workshops or ordnance factories for overhaul and will be completed with all records of mileage, etc., totalled up to the date of despatch.

In the case of transfer to the ordnance factories for overhaul, the issuing unit is responsible for completing the record of transfer to the C.O.O., Royal Arsenal, Woolwich.

A.B. 5 (including the old A.B. 5 if in possession of the unit) will also accompany the issue voucher of the vehicle on its transfer from one unit to another, and when an " A " or " B " vehicle passes out of the Service, the relative A.B. 5 will be disposed of as under :—

For " A " vehicles.

To the C.I.A., Royal Arsenal, Woolwich.

For " B " vehicles.

To the O.O., Farnborough, Hants.

The instructions contained in A.B. 5 for keeping the vehicle log sheet file will be strictly complied with.

A.F. G 3519 will be completed and filed in accordance with the instructions on the form and in A.B. 5.

On a vehicle being transferred from one unit to another, A.F. G 3519 will be completed to the date of transfer and signed by the issuing unit; the receiving unit will begin a new A.F. G 3519 from the date of receipt of the vehicle.

208. A.F. B 5106 (return of mechanically propelled vehicles liable to registration under the Roads Act, 1920) is applicable to " B " vehicles only and will be rendered monthly, in duplicate, by all units, through the usual channels, to the O.O., Farnborough, Hants, to reach that officer not later than the fifth day of each month. The return will show the vehicle state on the last day of the preceding month.

209. With regard to " A " vehicles, a return on A.F. B 272 showing the vehicle state will be rendered quarterly, through the usual channels, to the Under-Secretary of State (M.G.O. 5), The War Office.

STORES AND MATERIALS FOR THE UPKEEP OF " A " AND " B " VEHICLES

210. In addition to the vehicle equipments (*i.e.* non-consumable items of equipment and tools) authorized in **Tables 58, 59, 60** and **61** and M.T. stores authorized in **Appendix 12,** units

Digitized by Google

are authorized to hold a limited stock of consumable stores and material required for maintenance, cleaning purposes and running repairs, *e.g.*, bolts, nuts, rivets and screws and also spare parts of minor value, excluding tyres and tubes.

This stock will not exceed an amount representing the normal quarterly consumption of each item, will be limited to articles in common demand and will be maintained by quarterly indents on the D.A.D.O.S. of the area.

Indents will be clearly marked " expendable non-ledger stores " to ensure that separate vouchers are used for issues under this heading.

The stores held under this paragraph will be held as " non-ledger " items and will be available for inspection by the C.I.A., D.A.D.O.S., O.M.E. and local auditor. C.Os. will be called upon to explain any excessive expenditure or undue accumulation of stores. Serviceable articles which become surplus will be returned to the issuing depot, the vouchers being marked " surplus non-ledger stores."

Instructions for accounting for these stores are shown in **Appendix 7.**

INDENTS

211. Indents for stores and spare parts to carry out repairs under paragraph (1) (*a*) of **Appendix 8,** or by local contract under orders of the D.A.D.O.S. when not held under paragraph **210,** and for stores authorized under **Table 58** (vehicle equipments) and **Appendix 12** (tools, etc.), to replace unserviceable articles, will be submitted as and when required.

MAINTENANCE AND ACCOUNTING

212. Instructions as regards (*a*) maintenance, repairs and inspections of " A " and " B " vehicles, are contained in **Appendix 8,** (*b*) marking of vehicles in **Appendix 5** and (*c*) accounting, in **Appendix 7** and also **Appendix 2,** where applicable.

M.T. vehicles whose maintenance is the responsibility of the R.A.S.C., *i.e.*, 6-wheeled vehicles on charge of R.A., R. Signals, R.A.S.C. and R.A.M.C. units, will be painted, when required, by the regular R.A.S.C.

REGISTRATION AND LICENSING

213. Instructions as regards the registration and licensing of War Department mechanically propelled vehicles in Great Britain and the Northern Ireland District are contained in Regulations for the Territorial Army.

Digitized by Google

TRANSIT

214. The cost of transit by road or rail of W.D.M.T. vehicles held on charge of T.A. units, proceeding to army depots for overhaul and repair and returning thence to unit headquarters, will be met from army funds, and will in no case be payable by County Associations.

Arrangements will be made by the authorities noted below for the vehicles to travel by the most economical method possible.

(*a*) For vehicles maintained by the R.A.S.C.—A.D.S.T. Command Headquarters.

(*b*) For vehicles maintained by the R.A.O.C.—A.D.O.S. Command Headquarters.

Petrol and oil for road journeys of vehicles from unit headquarters to repair depots will be supplied by County Associations in the first instance, but will be replaced by means of an issue by the repair depot of twice the quantity of petrol and oil necessary for the journey of the vehicle back to unit headquarters.

Digitized by Google

CHAPTER VII.—HARNESS, SADDLERY AND PACKSADDLERY

215. Harness, saddlery and packsaddlery will be supplied as public equipment in the proportions detailed in **Tables 34–41.**

216. Subsequent issues for renewals and materials for repair and preservation will be made by the R.A.O.C.

217. Details of sets of harness, saddlery and packsaddlery are given in **Chapter XIV** and **Appendix 17.**

218. The scale of material for the preservation and repair of harness, saddlery and packsaddlery is detailed in **Tables 42** and **43.** Only such of the stores as are actually necessary will be indented for.

219. Harness, saddlery and packsaddlery will be marked in accordance with paragraph **228** by the R.A.O.C. before issue. Indents submitted by units will be accompanied by full particulars of the markings required.

220. Instructions for the care and preservation of harness, saddlery and packsaddlery will be found in **Appendix 18.**

221. Saddlers' tools will be supplied in the following proportions :—

Section F	
Holdalls, saddlers', filled	1 each saddler borne on the peace establishment, except R.A. units.

Digitized by Google

CHAPTER VIII.—EQUIPMENT FOR YEOMANRY, SCOUTS, INFANTRY, ARMOURED CAR COMPANIES, R.A.S.C., R.A.M.C., R.A.O.C. AND THE INNS OF COURT REGIMENT

222. Stores for instruction and training may, if required, be issued in the proportions detailed in the Appendices referred to below :—

	Appendix
Yeomanry regiment	9
Scout regiment	10
Infantry battalion	11
Armoured car company	12
Royal Army Service Corps	13
Royal Army Medical Corps	14
Royal Army Ordnance Corps	15
Inns of Court Regiment	16

223. Only such items as can be suitably accommodated will be held by units.

Digitized by Google

CHAPTER IX.—MARKING OF EQUIPMENT

224. Stamps, etc., for marking purposes are authorized to the scale shown in **Table 51** for each unit. The issue of these stamps, etc., is a free initial one only; their maintenance will be a County Association liability. Paint will be provided by County Associations.

225. Small arms, Lewis machine guns and certain items of Lewis and Vickers machine-gun equipment will be marked before issue by the R.A.O.C. (*See* paragraph **86.**)

226. Accoutrements will be marked, before being taken into use, to correspond with the arms. They will be marked as follows:—

Web equipment	Stamps, marking, textiles, ½-in. and paint, P.F.U., black, marking.
Brown leather accoutrements.	¼-in. steel stamps, care being taken that the leather is not cut, but merely indented. Stamps, marking, textiles, ½-in. and paint, P.F.U., black, marking.
Enamelled iron water-bottle covers.	In the centre of the portion of the cover not exposed to view when the bottle is worn. (Bottles should be worn with the cord or chain securing the cork towards the rear.)
Mess tins	¼-in. steel stamps. Tins should be well supported by a smooth surface during the process of marking. Judgment must be used in delivering blows so as not to cut the metal through. Mess tins for mounted services will always be stamped on the inside in the centre of the lid and bottom portion.

The branding of accoutrements is strictly prohibited.

In marking brown leather accoutrements the stoutest parts must always be chosen. Bandoliers must be marked on the bodies, and the pockets on the back loops.

Digitized by Google

Marking must be done in such a way to ensure that :—

(*a*) it is out of sight when the article is worn, *e.g.*, on the inside of all articles ;

(*b*) the article is not damaged thereby and is fit for subsequent issue to other units.

227. Clothing will be marked in accordance with the instructions laid down in Regulations for the Territorial Army.

228. All articles of harness and saddlery of ¾ in. or more in width will be marked with the distinguishing marks of the corps. The sets will be numbered consecutively, harness and saddlery being given different series of numbers. As articles common to both harness and saddlery will be distinguished only by the position of the set number, care must be taken to place the number correctly.

In batteries of artillery the numbering will be by sub-sections and in the yeomanry and scouts by squadrons, as in the specimens given below.

In other units there will be, for the entire establishment, one series of numbers for sets of universal saddlery, another for sets of officers' saddlery and a third for single sets of harness. The numbers will be placed on saddlery vertically under the corps marks, and on harness in the same line with and following the corps or sub-sectional marks, as in the specimens given below.

In every case the head-collars will be marked with the number of the horse instead of that of the set.

Royal Horse Artillery

1	1 Battery.
R.H.A.	Royal Horse Artillery.
A	A Sub-section.
4	No. 4 set of saddlery.
1	1 Battery.
R.H.A.	Royal Horse Artillery.
B.3	B Sub-section. No. 3 single set of harness.

Field Artillery

312 F.A.	312th Field Artillery Battery.
O.1	Officers' No. 1 set of saddlery.
312 F.A.	312th Field Artillery Battery.
B	B Sub-section.
1	No. 1 set of saddlery.
312 F.A.	312th Field Artillery Battery.
B.3	B Sub-section. No. 3 single set of harness.

Digitized by Google

Yeomanry

Ayr Yeo.	The Ayrshire Yeomanry.
A	A Squadron.
2	No. 2 set of saddlery.
Lanark Yeo.	The Lanarkshire Yeomanry.
B.1	B Squadron. No. 1 single set of harness.

Royal Engineers

200 Co.—R.E.—4 ...	200th Field Company. No. 4 set of harness.
200 Co.—R.E.—4 ...	200th Field Company. No. 4 set of universal saddlery.
200 Co.—R.E.—O.2	200th Field Company. No. 2 set of officers' saddlery.

Royal Corps of Signals

42 Div.—R. Sig.—4	42nd Divisional Signals. No. 4 set of harness.
42 Div.—R. Sig.—4	42nd Divisional Signals. No. 4 set of saddlery.
42 Div.—R. Sig.—O.2	42nd Divisional Signals. No. 2 set of officers' saddlery.

Royal Army Service Corps

509—R.A.S.C.—4 ...	No. 509 Company, Royal Army Service Corps. No. 4 single set of harness.
509—R.A.S.C.—4 ...	No. 509 Company, Royal Army Service Corps. No. 4 set of universal saddlery.
509—R.A.S.C.—O.4	No. 509 Company, Royal Army Service Corps. No. 4 set of officers' saddlery.

The leather work will be marked with $\frac{1}{4}$-in. steel stamps immediately under the W.D. and broad arrow.

The ironwork will be marked with $\frac{1}{8}$-in. steel stamps for metal, the portmouth bit in front of the port, the bridoon bit on top of the mouthpiece and the stirrup irons on the bottom.

229. Nosebags, cornsacks and saddle-blankets will be marked with paint, prepared for use, black lamp. Stamps, marking, textiles, $\frac{1}{2}$-in., will be used and the marking will be placed immediately under the W.D. store mark.

Digitized by Google

230. Steel helmets will be marked with stamps, marking, textiles, ½-in., as follows. Black paint will be used :—

Officers.—Steel helmets will be marked with the officer's rank and name on the felt pad and also under the lining of the helmet.

Other ranks.—Steel helmets will be marked with the " corps mark " and the man's equipment number on the felt pad and also under the lining of the helmet.

Digitized by Google

CHAPTER X.—MOBILIZATION EQUIPMENT

231. On mobilization, equipment will be issued by the R.A.O.C. to complete units of the T.A.

Digitized by Google

CHAPTER XI.—MISCELLANEOUS EQUIPMENT

232. Articles for musketry instruction will be supplied as public equipment in the proportions detailed in Table **47.**

233. The following articles will be supplied to units, under arrangements to be made by County Associations, from sources other than government store :—

Brushes, large (1-lb. brushes) for colouring targets.
,, small (sash tool) ,, ,,
Chalk.
Files (to retain documents).
Glue to make size.
Lamp-black.
Sponges.
Targets.
Whiting.

The targets provided will be of such dimensions that the instructions contained in Small Arms Training, Volume I, can be complied with.

234. Screens, dummy, man will be issued on the scale of 60 for each division.

235. Compasses, prismatic, Mk. VIII, with cases, compass, prismatic, A, will be issued in accordance with the following scale for the use of officers for training purposes :—

Unit	No. of compasses	Remarks
Cavalry Brigade Headquarters ...	1	
Deputy Chief Signal Officer and Staff Royal Corps of Signals	3	
Infantry Divisional Headquarters ...	1	
Infantry Brigade Headquarters ...	1	

236. Flags, musketry instruction, and boards, black, complete, may be obtained from the R.A.O.C. on repayment.

237. An initial issue of bugles, trumpets and strings will be made free to units in accordance with the scale laid down in **Table 26.**

Digitized by Google

The responsibility for the maintenance and replacement of these articles will devolve on County Associations.

Bugles, trumpets and strings may be obtained on repayment from the R.A.O.C. Corps marks may be added by the R.A.O.C., provided that full particulars are furnished on the indents for the instruments.

238. Units will be equipped for the purposes of peace instruction and training with stretchers, ambulance and caps, knee in the proportions detailed in **Table 52.** The maintenance of these articles will be effected by County Associations, supplies being obtained from the R.A.O.C. on repayment.

239. For the purpose of instructing officers and men in the use of field dressings (*see* Regulations for the Territorial Army), units will hold a stock of field dressings up to 10 per cent. of the strength of the unit, except in the case of Cavalry Field Ambulance and Field Ambulance units, which will hold those detailed in **Appendix 14.** Replacements required to maintain the stock to the authorized numbers will be indented for annually by C.Os. of units on 1st November. The dressings will be issued and accounted for as public equipment.

240. Circular tents for instructional purposes may, if required, be issued as public equipment in the following proportions :—

	No.
To each regiment of yeomanry and battalion of infantry	4
To each scout regiment, Divisional Signals and Cavalry Divisional Signals	3
To each other unit (R.A.M.C. excepted) ...	1

Unserviceable tents (as to canvas) will be issued, but poles, pins and mallets will be serviceable.

241. Stable necessaries will be allowed in the following proportions :—

*Section D.*1

Brushes, harness, hard * ...	1 each double set of harness and every two sets of packsaddlery.
Sponges, 1-oz.*	1 each single set of harness, each set of saddlery and each set of packsaddlery.

* **Annual supply, if necessary.**

Digitized by Google

242. An initial issue of tools for opening packages will be made to units on the scale detailed in **Table 53.** The responsibility for maintenance and replacement of these articles will devolve on County Associations, supplies being obtained from the R.A.O.C. on repayment.

243. An initial issue of 10 pickaxes and 10 shovels will be made free for each infantry battalion. The responsibility for the maintenance and replacement of these tools will devolve on County Associations (*see also* **Table 32**).

244. The following parts of ordnance and their carriages, ammunition wagons and limbers, and other vehicles, when in use, will be kept clean, free from paint and rust, also lubricated or oiled where necessary :—

> Breech mechanisms; clinometer planes; guides of guns, howitzers and slippers; cradle guideways; joints and bearings; exposed working parts of gears; frictional surfaces; metal handwheels; handles of steel handwheels; levers, pawls, ratchets, range, elevation and traversing indicators with their pointers; brass parts which are much handled; ends of draught poles; linch pins and ends of axletrees not provided with dust caps; drag washers; brake wheels.

All other parts will be painted, except that, in the case of ordnance (other than those of fixed armaments in coast defences and those with front clinometer planes) the portion protected by the muzzle cover need not be painted. Should the paint become chipped or worn off, it must be renewed.

The use of coarse abrasive materials, such as sand, emery or bathbrick, for cleaning or removing rust from clinometer planes and wearing parts, particularly of gears and breech mechanisms, is strictly prohibited. For such parts paraffin oil and cotton waste only may be used.

Where the cleaning of bright parts of gears and breech fittings (other than wearing parts) proves difficult owing to corrosion or rust, finest grade emery may be used for this purpose.

Straps and other leather work will be dressed periodically with dubbing.

245. Articles made of wood, such as the poles of hospital stretchers, helves, panniers, staves, or other stores liable to damage by worms or white ants, will be examined periodically and wiped or rubbed over with mineral oil for preserving wood.

Digitized by Google

246. Instructions for marking calibration detail on guns and howitzers are given in **Appendix 5.**

247. Instructions on the care and preservation of travelling kitchens are given in **Appendix 19.** These instructions will be rigidly adhered to by all concerned.

248. Steel helmets will be painted with "paint, prepared for use, dark grey, for steel helmets only." An initial issue on the scale of 4 lb. of paint and 1 brush, paint, sash tool, No. 8, for every 100 helmets will be made to units in possession of steel helmets. Subsequent supplies will be obtained on repayment from the R.A.O.C.

Tampering with steel helmets in any way is strictly forbidden, *e.g.*, the boring of holes for the purpose of hanging them up, affixing badges, etc. There is no objection to the painting of regimental badges on steel helmets, provided that no expense to the public or Association public funds is incurred thereby.

The responsibility for the maintenance and replacement of steel helmets retained by units in accordance with the scales in **Tables 1–7** will devolve on County Associations, supplies being obtained from the R.A.O.C. on repayment.

249. The drawing instruments and other articles detailed in **Table 33** will be supplied as public equipment for the headquarters office of each division. They will be accounted for in the equipment ledger of the unit responsible for the equipment of the R.A.S.C. clerk attached to assist the general staff officer.

Stationery required for use with these stores will be supplied upon the receipt of indents on A.F. L 1374 from the C.Os. of units responsible for them. These C.Os. will also be responsible that the stationery office supplies are issued only for the purpose for which their supply has been authorized, and that indents for stationery state clearly the service for which it is required.

250. The precautions to be adopted for the preservation of glass reflectors in A.A. Searchlight projectors from copper drip are as detailed in Equipment Regulations, Part 3, Section XA.

251. Instructions for the storage, use and conveyance of inflammable and other dangerous stores, and for the marking of packages and documents connected therewith, are contained in **Appendix 6.**

Digitized by Google

252. Trays, sand, modelling * for elementary tactical training will be issued as follows :—

52nd (Lowland) Division ...	1 only, for use of R.A.M.C. units (T.A.) and R.A.M.C. School of Instruction (T.A.).
Yeomanry regiment ...	1 each regiment and 1 each drill hall at squadron H.Q., making a maximum of 4 each regiment.
Scout regiment	1 each drill hall at regimental headquarters and squadron headquarters, making a maximum of 4 each regiment.
R.H.A. battery	1 †
Field battery, R.A.	1 †
Light battery, R.A. ...	1 †
Medium battery, R.A. ...	1 †
Heavy battery, R.A. ...	1 †
Field company, R.E. ...	1 each company.
Field squadron, R.E. ...	1 each squadron.
Fortress units, R.E. ...	1 each unit.
Infantry battalion	1 each battalion and 1 each drill hall at company headquarters, making a maximum of 5 each battalion.
Armoured Car company ...	1 each company.

253. Surveying, mathematical, drawing, optical, telegraph and telephone instruments must not be smeared with oil or mineral jelly. These instruments are mainly constructed of gunmetal or brass and are lacquered or otherwise protected; it is, therefore, only necessary to wipe them over carefully with a dry soft rag. No great amount of force should be used. To avoid deterioration, it is important that these instruments should always be stored in a dry building.

254. Any copies of the under-mentioned religious books that were received by units as a free initial issue for use at annual training in camp will be held on charge by units as

* Sand, models, etc., required for use with the trays will be provided locally and the cost debited to the training grant.

† Where two or more R.A. batteries, T.A. are concentrated, issue will be made on the scale of one tray for each station.

Digitized by Google

public stores and will be accounted for in the public equipment account of the unit :—

Army Prayer Book, No. 13 (Church of England).
" With the Colours," No. 18 (Church of Scotland and Presbyterian).
Service Hymnal, No. 6 (Methodist).
Hymns for Soldiers and Sailors, No. 19 (United Army Board).

The cost of replacements will be met from the regimental funds of the unit.

255. (*a*) The hermetically closed packages in which fuzes, tubes and certain other articles are issued will not be opened until the contents are required for use. Packages containing small arm ammunition and gunpowder will be taken on charge unopened.

All hermetically closed packages which have been opened, but whose contents have not been completely expended, will be closed by a tape-band shellacked on. The contents of packages thus closed must always be used up before a new cylinder is broken open.

In the case of cylinders containing detonators with aluminium sheaths (No. 8 A.S.A.), should it not be found possible to use up the contents of a broken cylinder within 12 months of its being broached, such detonators will be specially reported to the C.I.A. for instructions as to disposal.

(*b*) Tinned plate cylinders and boxes containing detonators, tubes, fuzes, gaines, rifle grenade cartridges, aiming tube cartridges, primers percussion, primers light G.S., primers portfire, primers rocket, primers guncotton, cartridges Q.F. howitzer, mortar cartridges, guncotton yarn, exploders H.E. shell and tracers shell, will not be accounted for separately when containing such ammunition.

Zinc or tinned cylinders for B.L. cartridges will be accounted for.

Any defects or discrepancies that may be discovered when the stores are subsequently inspected or used will be at once reported and all details on the packages will be quoted.

256. Cinematograph films in possession of units will always be stored in the metal transit cases in which they are received from the R.A.O.C., and when returned to the R.A.O.C., or sent elsewhere, they must be despatched in the metal transit cases.

257. Bars, suspension, for use with Thomas's splints may be issued in the proportions laid down in **Table 24.**

Digitized by Google

258. Instructions for marking vehicles are given in **Appendix 5.** First issues of vehicles from store will have corps marks added by the R.A.O.C. before issue, units giving the necessary marking particulars on their indents.

259. The following scale of lubricating and preserving material may be issued free annually for use with horse transport vehicles supplied as public equipment :—

GREASE, C.C. ...	2 lb. each wheel, upon a certificate from the C.O. that the vehicles are in constant use.
	½ lb. each wheel when not in constant use.
DUBBING ...	1 lb. each 100 leather straps.

Lubricating and preserving material will not be issuable free in respect of hired vehicles.

260. Service pattern vehicles, except those detailed in paragraph **212,** will be painted once every two years. Paint, paint brushes, putty, etc., will be issued free, in the proportions laid down in **Tables 54–57,** and in **Chapters XIV** and **XV.** No other paint will be used.

The provision of labour for cleaning, priming, stopping, painting and re-marking these vehicles will be arranged for by County Associations.

261. The folds of apparatus, aerial signalling, are liable to stick after storage, and to obviate this "chalk, french" will be used. The chalk will be issued "as necessary" and will be obtained from the R.A.O.C. for this purpose when required.

262. Cable electric, "D" class, which may become deficient owing to wastage incurred in jointing, cutting out of joints, etc., will be certified as expended on training and written off charge in the store account.

CHAPTER XII.—TERRITORIAL ARMY RIFLE ASSOCIATION

263. Issues of ·303-in. ball ammunition will be made free and carriage paid for—

(*a*) the T.A. Rifle Association central meeting ;

(*b*) each man armed with a rifle on the strength of a unit which belongs to the T.A. Rifle Association on 1st April. In the case of batteries of R.A. and armoured car companies, R. Tank Corps, the issue will be allowed on the number of rifles held as unit equipment,

provided that the competitions at which this ammunition is used take place on ranges and under conditions approved by G.Os.C.-in-C.

The quantities of ammunition issuable under this paragraph will be notified annually by A.C.I.

The ammunition allowed under (*b*) will be allotted to T.A. divisional commanders, who may, at their discretion, authorize the issue of any of the ammunition for use by T.A. personnel at the T.A. Rifle Association central meeting, for requirements in excess of the ammunition referred to at (*a*) above, or at county rifle association or regimental rifle meetings in their divisional areas at which T.A. rifle competitions take place, provided that the programme meets with their approval. The quantity so issued will not exceed the number of rounds required for members of the T.A. taking part in those competitions.

264. Indents for ammunition for use at the central meeting will be made by the Secretary, Territorial Army Rifle Association, on A.F. G 812, and will be addressed to the D.A.D.O.S. of the area in which the meeting is held, who will authorize the issue.

Indents for other ammunition will be made by an officer of the unit (or units) concerned on A.F. G 812, and will be submitted to the T.A. divisional commander concerned, for approval of the issue.

Only such number of rounds as will be required for actual use at each meeting will be demanded.

All ammunition unexpended after a meeting will be returned to the ordnance depot from which it was drawn

Digitized by Google

within fourteen days after the close of the meeting, together with a statement showing how the balance has been expended. A copy of this statement will also be sent to the officer who authorized the issue of the ammunition.

265. An allowance at the rate of 10*s.* for every 100 lb. of fired cartridge cases will be paid by the command paymaster for the labour of collecting and sorting cases and chargers obtained from ammunition supplied free.

266. In the case of ammunition supplied free, the O.O. making the issue will see that the proper proportion of empty cases, chargers and bandoliers is returned to store, or their value credited to the public.

267. The supply of camp equipment to the Territorial Army Rifle Association will be limited to the amount required for the accommodation of enlisted men who actually go into camp and compete in the shooting matches of the Association, including marquees and office tents necessary for the business of the meeting. A certificate of the number of men involved and giving reasons for the use of marquees, etc., will be given by the president or secretary in support of the camp equipment demanded. The carriage of the camp equipment will be paid for by the public.

CHAPTER XIII.—TOOLS

268. Lists of general service tools are detailed in Appendix to Section F Vocabulary of Army Ordnance Stores.

Tools special to artillery, engineer and other services are detailed in the various sections applicable to those arms.

M.T. tools are detailed in **Appendix 20.**

Digitized by Google

CHAPTER XIV.—ARTILLERY EQUIPMENT

269. Instructions relating to artillery equipment, together with details of the peace equipment of R.A. units, are issued separately, as under :—

Equipment Regulations, Part **3** :—

Section IX.—Artillery details (general instructions and stores common to all batteries).

Section IX (*a*).—Q.F. 13-pr. equipment.

Section IX (*b*).—Q.F. 18-pr. and 4·5-in. equipment.

Section IX (*c*).—Q.F. 3·7-in. equipment.

Section IX (*d*).—B.L. 60-pr. gun and 6-in. 26 cwt. howr. equipments.

Regulations for other artillery units will be published in due course.

Digitized by Google

CHAPTER XV.—ROYAL ENGINEERS AND ROYAL CORPS OF SIGNALS EQUIPMENT

270. Instructions relating to engineer and signals equipment, together with details of peace equipment, are shown for R.E. units in Equipment Regulations, Part **3,** Sections XA to XF and for R. Signals units in Equipment Regulations, Part **3,** Sections XIA to XIE.

Digitized by Google

CHAPTER XVI.—R.A.M.C. EQUIPMENT

(1).—ORDNANCE STORES

271. Stores for instruction and training may, if required, be issued in the proportions detailed in **Appendix 14.**

These stores will be indented and accounted for in accordance with the general regulations in **Chapters I, II, III, VII** and **XI.**

(2).—MEDICAL EQUIPMENT

272. Scales of medical equipment for instruction and training are laid down in **Tables 24** and **46.** The equipment will be accounted for in manuscript at the end of the public equipment ledger of the unit.

273. Chiropody instruments will be issued on the scale of one case of instruments to each dismounted unit with a qualified chiropodist, or in which a chiropodist is certified to be undergoing training (*see* Regulations for the Territorial Army, 1929, paragraph **429**A).

274. Dangerous drugs will not be held in medical equipment. They will be kept under lock and key by the A.Ds.M.S. of T.A. divisions. Issue will be made direct to medical officers when required for training purposes, and will be returned to the A.Ds.M.S. when no longer required, together with a report in detail showing the expenditure.

275. Articles lost or rendered unserviceable other than by fair wear and tear will be dealt with on A.F. I 1230, in accordance with King's Regulations. When the cost of such articles is not chargeable to the public, the value will be credited to the public in the accounts of the command paymaster on A.F. O 1680, a copy of which will be attached to the account as a voucher for writing the deficiencies off charge. The authority for writing any article off charge will be quoted in and will accompany the account.

276. A.Ds.M.S. of divisions will arrange for the medical equipment to be inspected annually in January, by a M.O. if possible, not the accounting officer, who will furnish a report

Digitized by Google

on its condition, enumerating the items held on charge by each unit, through the A.D.M.S. to the D.D.M.S. for transmission to the Under-Secretary of State (A.M.D.3), The War Office.

277. Articles required to complete the medical equipment will be demanded on A.F. I 1209 in duplicate. The demands will be carefully examined by the D.D.M.S. of the command, who will ensure that only authorized articles are included. He will approve their issue locally, as far as possible, from stocks held in the command for that purpose. Demands for articles not available from such stocks will be forwarded to the Under-Secretary of State (A.M.D.3), The War Office, for supply.

278. On mobilization, the medical equipment in accordance with war scale will be supplied by the Army Medical Department, and the medical equipment for instruction and training will be returned to the Army Medical Store, Woolwich.

NOTES

(*a*) Each driver armed with a rifle.
(*b*) One each lock-up receptacle.
(*c*) As necessary for ambulance bodies.
(*d*) For vehicles without glass windscreens or metal windshields.
(*e*) Size of tube to be stated on indents.
(*f*) M.T. supply for equipment of vehicles only.
(*g*) One for engine oil and one for chassis oil, to be painted with the symbols " E " and " C " respectively.
(*h*) Includes one for water.
(*i*) Where necessary or ordered.
(*j*) An additional tyre pressure gauge authorized for each 5 pneumatic-tyred vehicles with unit.
(*k*) Home only.
(*l*) Jacks—armoured car type.
(*m*) Type of vehicle to be stated on indents.
(*n*) Foot or hand pumps not provided when vehicle fitted with mechanical power inflator.
(*o*) Dimensions to be stated on indents.
(*p*) Not required for Ford vehicles.
(*q*) W.D. standard tool kits (I.C. steam and motor cycles) (*see* **TABLE 60**).
(*r*) Vehicle makers' special tools. (List applicable for each make of vehicle available from M.T.S.D. in respect of R.A.S.C. driven vehicles ; C.O.O., Woolwich for " A " vehicles ; and O.O., Farnborough for " B " vehicles.)
(*s*) One set for each vehicle to suit type of rim.
(*t*) For all 6-wheeled tractors with tyres of 9-in. section, in addition to two single chains allowed by Note (*ab*) for front wheels.
(*u*) 1 electric and 1 mechanical.
(*v*) Only available when vehicle fitted with acetylene lighting set.
(*w*) When fitted with dictaphone.
(*x*) Size and type of thread to be stated on indents.
(*y*) To be demanded only as required in the case of R.A.S.C. driven vehicles.
(*z*) Type of magneto to be stated on indents.
(*aa*) Type and size of wheel and tyre and type of vehicle to be stated on indents.
(*ab*) For all 4-wheeled tractors, and 6-wheeled tractors with tyres of 10–50 section. Two single chains only for 6-wheeled tractors with tyres of 9 in. section.
(*ac*) Only when initially supplied by the makers.
(*ad*) 2 coir fibre mats for open cars ; 1 coir fibre and 1 carpet mat for closed cars.
(*ae*) For vehicles with glass windscreens.
(*af*) As necessary, when fitted with detachable wheels or rims.
(*ag*) Not for technical and special vehicles fitted with closed type bodies.
(*ah*) Only for Rolls-Royce patt. 1920, Mks. 1 and IA and patt. 1924, Mk. 1.

APPENDIX 2

(Referred to in paragraphs **50** *to* **55.)**

INSTRUCTIONS FOR KEEPING EQUIPMENT LEDGERS

1. The ledgers will contain a faithful record of all public equipment, the property of the Government, received or issued.

A regimental record of the stores detailed in **Appendix 3** will be maintained by the unit, showing the W.D. registered numbers, or, where such do not exist, the maker's name and number. In the event of any of these articles having no such number, the remark " No identification mark exists " will be entered. This record will not be rendered for audit, but will be available for inspection by the local auditor.

The ledgers will be balanced up to 31st October in each year and will be forwarded before 1st December, with the vouchers in support, through the County Association, to the local army audit office. The vouchers will be laid flat in the equipment ledger.

2. Copies will be kept of all equipment ledgers sent for examination. Should any queries arise on the examination of the ledgers, copies of such queries and of the replies will be retained by the accountant, who will correct his copy of the ledger accordingly.

3. On a unit being disbanded, the equipment ledger will be balanced and forwarded to the local army audit office.

4. When, on a change of command, equipment is transferred from one accountant to another, the procedure laid down in paragraphs **6** to **9** of these regulations will be followed.

5. Any stores found to be surplus will at once be brought on charge in the ledger by certificate receipt voucher. The voucher will be signed by the officers who sign the certificate. All stores found to be deficient will be struck off charge, and dealt with as laid down in paragraphs **30** to **34** of these regulations.

A balance will then be struck, as directed in paragraph **12** of this Appendix, which will show the total of each article of equipment for which the officer who takes over command is responsible.

6. Stores supplied in sets or as complete articles, for which a single heading is provided in the printed equipment ledgers, will be so accounted for. Thus, chests with tools will be shown as " Chests, tool, filled." A certificate will be given

Digitized by Google

at the end of the ledger by the C.O. to the effect that the sets and tool chests are complete, and that they contain the articles which should be comprised in them, as detailed in the regulations. When articles charged in detail are taken on charge in the equipment ledger as sets, reference will be given to the paragraph or table of the regulations which gives the detail. The articles drawn from the R.A.O.C. or M.T.S.D. to replace losses, etc., in these sets will be taken on charge in the ledger, and the corresponding articles paid for or returned to store will be written off under the same heading. Transactions in component parts of complete articles will be recorded in the ledgers in the same way but *see* paragraph **51.**

If the two transactions do not occur in the same period of account, explanatory cross-references will be given on each of the vouchers concerned.

7. All transactions of receipt and issue that should be recorded in the ledgers will be posted as soon as possible after they occur, and will be supported by vouchers. The posting of an issue voucher must not be delayed pending the return of the receipted copy.

8. Vouchers for stores issued are called issue vouchers, and are posted on the right-hand or credit side of the ledger. Vouchers for stores received are called receipt vouchers, and are entered on the left-hand or debit side.

9. Both receipt and issue vouchers will be filled in by the insertion of the total numbers only in the column of the voucher headed "total number or quantity," the columns S.R.D. and U. being left for use of the R.A.O.C.

10. The ledger folios in which entries are made should invariably be noted on the vouchers supporting the account in the column headed "ledger folio."

11. Receipt and issue vouchers will be kept distinct from each other, arranged consecutively according to date, and numbered on the face of the voucher in two distinct series from **1** upwards for the whole period of the account. The total number of each series will be stated on the inside cover of the ledger. In the event of it being necessary to put up blank vouchers with the account to account for missing numbers, a brief explanation of the circumstances, signed by an officer, will be given on them. The addition of sub-numbers or letters to the numbers of the vouchers is prohibited.

12. The ledger is balanced by adding up the receipts on the left-hand side and the issues on the right-hand side of the ledger, by bringing the total issues over to the left-hand side

Digitized by Google

and writing them immediately under the total receipts; the quantities left become the ledger balance or "remain." The remain, when carried forward as the commencing line of the next account, is called the "state."

13. Officers will take care that the ledgers and vouchers are not ticked or altered with coloured pencil or coloured ink, that no correspondence is carried on upon them and that no erasures are made. Entries must not be made in black lead pencil either in the ledgers or on the vouchers. The duplicate copies of receipt vouchers, after being numbered as instructed in paragraph **11** of this Appendix, will be signed in black ink or indelible pencil, and returned to the consignor. Any necessary corrections will also be made in black ink or indelible pencil, and will be duly initialled in the case of vouchers by the person who signs the vouchers, and in the case of ledgers by the responsible accounting officer; but the original entries must remain legible.

14. Before signing and forwarding the equipment account, the C.O. of the unit will cause the stores to be verified as required by paragraph **6** of these regulations and also ensure that the remain is correctly transferred to the new ledger. In cases where discrepancies are found to exist between the quantities actually in possession and the equipment ledger, the discrepancies must be dealt with in accordance with paragraph **5** of this Appendix.

The C.O. will certify (*a*) that the regimental record mentioned in paragraph **1** of this Appendix has been correctly maintained, and (*b*) that the registered numbers of the articles detailed in **Appendix 3** have been checked with those listed in the record and found to agree.

The C.O., or an officer on his behalf, who should not be the officer immediately supervising the accounts and stores, will at the same time examine the ledger and its vouchers.

Mechanical Transport Accounts

15. Mechanical transport and stores appertaining thereto will be accounted for in accordance with the instructions contained in **Chapter VI** of these regulations in the case of vehicles maintained by the R.A.O.C., and in Regulations for Supply, Transport and Barrack Services in the case of vehicles maintained by the R.A.S.C.

Active Service

16. Units, including those formed on mobilization, will account for equipment as in peace, unless other instructions are issued by the Army Council.

APPENDIX 5

(Referred to in paragraphs **246** *and* **258.)**

INSTRUCTIONS FOR MARKING W.D. HORSE AND MECHANICAL TRANSPORT VEHICLES, AMBULANCES, PANNIERS, BICYCLES AND CALIBRATION DETAILS ON GUNS AND HOWITZERS

GENERAL INSTRUCTIONS

White paint will be used for the marking referred to in paragraphs **1** and **3** of this Appendix, except in the case of the classification symbol "A" or "B," which will be painted in red. The size and style of marking will be as laid down in Table 2 of this Appendix. Stencils, paint and brushes will be supplied by the R.A.O.C.

REGIMENTAL MARKS

1. All vehicles and bicycles will be marked with the title of the unit in whose charge they are held. In the case of artillery batteries, the letter of the sub-section will also be marked on vehicles.

The abbreviations to be used for titles of units are shown in Table 1 of this Appendix.

The position of the marks will be as follows :—

Gun and howitzer carriages	On trail, off side.
Limbers and ammunition wagons—	
Q.F. 13- and 18-pdr. ...	Centre of back of ammunition boxes.
B.L. 60-pdr.—	
Gun limbers	Back of off limber box, close to top.
Ammunition wagons and limbers	Back of ammunition box, off side, close to top.
B.L. 6-in. 26-cwt. howitzer	Back of limber box, near side, close to top.
Q.F. 4·5-in. howitzer ...	Back of ammunition or limber box, off side, low down.

Digitized by Google

Anti-aircraft equipments—	
Mountings	On front of pedestal.
Lorries or other transport	Off side, in most convenient position
Railway truck equipments—	
Mountings and trucks ...	On either side, in most convenient position.
Wagons, ammunition ...	
Carts—	
Tool, R.E.	Off side at front (on side frame).
Water tank	Off side of tank, at front.
Water tank, Marks VI* to VII.	End of barrel, near side.
Kitchens, travelling	Rear of body and rear of limber, off side.
Wagons—	
Cable	Off side of futchel of body, and off side of footboard of limber.
G.S., Marks X and X* ...	Body of wagon, off side, at front.
Limbered, G.S.	On rear of both portions, off side.
Pontoon (or trestle) ...	Off side, at front.
Telephone	On off block, supporting drum bearings of wagon body at front and on off side of limber box.
Other vehicles (if construction admits)	On body of vehicles, offside, as far to front as possible and low enough to be clear of cover. *Limbered vehicles will be marked on both portions.*
Bicycles	Across rear mudguard, 4 inches above bridge, and on upper side of bottom tube beginning just clear of bottom lug of ball-head.

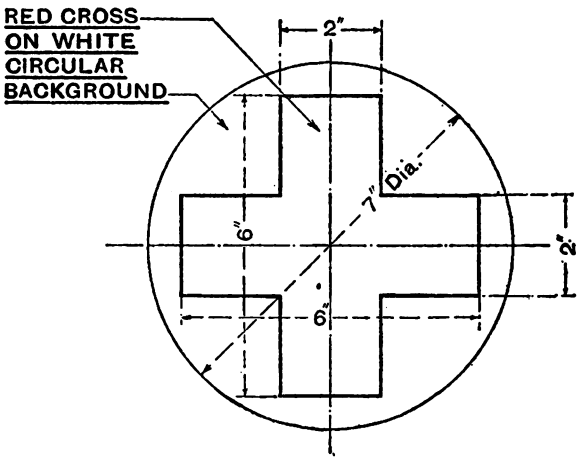
MEDICAL UNITS

2. All vehicles, including ambulances, and panniers, G.S., held by medical units will be marked with the Geneva Cross. Markings will be as follows :—

Ambulances, Motor—as laid down in L. of C. A5339.

Digitized by Google

Panniers, G.S. (For medical units and medical officers attached to units only) as follows :—



Wagons, Ambulance—as laid down in L. of C. A5339 for Ambulances, Motor.

WEIGHT AND LOAD

3. The " weight of vehicle " and the " weight of load the vehicle is designed to carry," as shown in List of Changes, will be marked on the near side of vehicles as near the centre as possible, low down.

MECHANICAL TRANSPORT

4. All M.T. vehicles (except " A " vehicles—see below) will be numbered and the general register of numbers will be kept by the Officer i/c Vehicles' Records, M.T. Stores Depot, R.A.S.C. Vehicles will be numbered consecutively irrespective of class, but the following identifying letters will be allotted to each class ; the serial numbers for this purpose will be issued by the M.T. Stores depot, R.A.S.C., to units or depots concerned :—

A. for motor ambulances.
C. for motor cycles.
H. for tractors (wheeled).
L. for motor lorries.
M. for motor cars.
V. for motor vans.
X. for trailers of all kinds.

Digitized by Google

The W.D. numbers will always be shown with the appropriate class letter mentioned above.

"A" vehicles will also be numbered, the class letters and W.D. numbers being allotted by the C.I.A. The following dentifying letters will be allotted to each class :—

D. for tractors (tracked or semi-tracked) other than C.L tractors.
F. for armoured cars.
T. for tanks, C.L. carriers and C.L. tractors.

5. *Method of marking.*—The following marks will be painted on all M.T. vehicles :—

(*a*) Weight, etc., as required by law (locomotives, tractors and heavy motor cars), and axle weights.
(*b*) Registration number.
(*c*) Designation of arm of service, and, where applicable, the classification symbol "A" or "B."
(*d*) W.D. number and class letter.
(*e*) Load-carrying capacity (30-cwt. lorries and 12-cwt. vans).

6. The position of these will be as follows :—

(*a*) The maximum legal speed and weights will be shown in a conspicuous position on the off side of the vehicle, preferably at the bottom of the cab. In the case of a tractor, the speed to be shown is the maximum legal speed when drawing a trailer, and in the case of a heavy motor car, the maximum legal speed when not drawing a trailer. In the case of 4-wheeled vehicles and heavy trailers, the weights to be shown are unladen weight—U.W. ; front axle weight—F.A.W. ; hind axle weight—H.A.W. In the case of 6-wheeled vehicles, the weights to be shown are unladen weight—U.W. ; front axle weight —F.A.W. ; middle axle weight—M.A.W. ; hind axle weight—H.A.W. The axle weights are the maximum permissible laden weights. Where a vehicle, on receipt, is not inscribed with the weights, details will be furnished on application to the O.C., M.T. Stores Depot, R.A.S.C. or R.A.O.C. depot concerned. The inscription of weights applies only to vehicles over 2 tons weight unladen and to trailers over 1 ton weight unladen, *i.e.* all W.D. lorries and heavy trailers. Tracked vehicles will be marked to show the gross weight. The inscription of speed in miles per hour applies to lorries but not to trailers.

Digitized by Google

(*b*) On plates suspended at front and rear of the chassis as required by law.

(*c*) In the case of lorries, box vans and ambulances, on the near side of body. A stencil plate, to be obtained from the M.T. Stores depot, R.A.S.C. or the R.A.O.C. depot concerned, will be used for this purpose. A stencil plate, to be obtained from the R.A.O.C. depot concerned, will also be used for the classification symbol " A " or " B"

Cars, except those specially exempt (for which a metal plate, to be fixed to the inside of the dash, may be supplied locally), should be marked in 1-inch letters and figures on the outside of the dash on the near side of the car, the design taking the general form of the stencil used for other vehicles.

The classification symbol " A " or " B " will be painted in red, six inches in height, and six inches to the right of the W.D. number.

In the case of lorries, cars, box vans and ambulances, the W.D. number, in addition to being marked in the manner shown above, will also be marked in letters of convenient size on an accessible part of the near side member of the frame, in order to prevent loss of identity of the chassis if at any time occasion arises to remove or exchange the body. In the event of any such changes, the body number must in all cases be amended to tally with the number borne by the chassis to which it is attached.

Motor cycles will be marked on the near side of the petrol tank in letters and figures of convenient size.

(*d*) The class letter will be placed below the designation of the arm of the service, and the W.D. number below the class letter, as exemplified hereunder. Where applicable, the classification symbol " A " or " B " will be placed six inches to the right, and painted in red.

Maintained by the R.A.S.C.	Maintained by the R.A.O.C.
R.A.S.C. (T.A.) L 251	18th Fd. Bty. (T.A.) L 251 A
78th Fd. Bde. (T.A.)* L 251	20th A.C.C. (T.A.) L 251 B
51st Med. Bty. (T.A.)* L 251	

* Examples of marking of vehicles maintained, but not driven, by the R.A.S.C.

Digitized by Google

The arm of the service lettering will be painted in by the receiving unit in accordance with the stencils supplied, but the other identifications will be painted on the vehicles by the issuing depot.

(*e*) In the case of lorries, 30-cwt. and vans, 12-cwt., the load-carrying capacity will be painted across the tail-board in letters three inches high, thus :—

For Lorries, 30-cwt. :

LOAD NOT TO EXCEED 30-CWT.

For Vans, 12-cwt. :

LOAD NOT TO EXCEED 12-CWT.

For Lorries, 3-ton :

LOAD NOT TO EXCEED 3 TONS.

7. In any case where it is desired for special reasons to modify the application of 6 (*c*) and (*d*) in the case of motor cars, the matter will be referred to the War Office.

TABLE 1.—ABBREVIATIONS TO BE USED FOR TITLES OF UNITS

NOTE.—Alterations to existing marks necessitated by changes in abbreviations introduced by this table will only be carried out as vehicles require painting.

APPENDIX 6

(*Referred to in paragraph* **251.**)

DANGEROUS STORES

1. The stores mentioned in this Appendix must be kept separate from other stores, but all may be stored together, except matches and calcium carbide. Care must be taken that all packages are sound and that the precautions given in paragraph **8** for "**Dangerous, Corrosive, and Poisonous Chemicals, and Dangerous Miscellaneous**" items are observed.

2. Varnishes and paints which have become hard or unworkable through cold or long storage must on no account be melted by heat, as such heating increases the vapour pressure of the varnish or paint, inducing a risk of fire if a naked flame should be near the container. The varnishes, etc., will instead be thinned by successive small additions (not exceeding altogether one-tenth of the bulk of the varnish, etc.), of suitable thinners, such as white spirit, methylated spirits, etc., according to the nature of the varnish, etc., under treatment.

3. When the stores are despatched by rail, they must be packed and consigned in accordance with the "Classification of Dangerous Goods by Merchandise Trains," and the conditions laid down therein for each class of goods must be observed. Extracts from the conditions are printed on the cover of A.F. G 996 (Carriers' Note for Explosives and other Dangerous Goods) for the guidance of units not in possession of this publication, and particulars of packing can be ascertained from the Officer i/c Transport or D.A.D.O.S. of the area, when necessary. Dangerous stores in packages as received from the issuing depot or department can be considered as fulfilling the railway packing regulations, *e.g.* paint prepared for use, in cylinders, turpentine, etc., in drums, compressed gases in cylinders.

4. All vouchers and other documents connected with the issue and transport of these stores will be conspicuously marked in red with the endorsement shown under the different classifications below, and will show the description of the stores and packages.

Packages will be marked or labelled as detailed in the extracts from the conditions printed on the cover of A.F. G 996 (Carriers' Note). Emptied packages and valves of gas cylinders must be kept securely closed.

5. When artificial light is necessary in handling these stores, only an efficiently protected electric light (fixed or hand lamp) may be used.

Digitized by Google

6. Inflammable Liquids and Substances—Flashing below 73° Fahrenheit when Tested in Accordance with the Petroleum Act, 1926.

Classification

(*a*) Inflammable Liquids and Substances—Class A

Endorsement of documents = " Highly Inflammable—Class A."

Designation

Benzene.	Naphtha, coal tar.
Bitumastic solution.	Pintoff.
Cement, celluloid.	Solution, rubber.
Cement, R.D.	Varnish for cuirasses.
Ether.	Xylol.*
Lacquer, dead black.	

(*b*) Inflammable Liquids Completely Soluble in Water and Compositions made therewith

Endorsement of documents = " Inflammable Liquids, etc., completely soluble in water."

Designation

Acetone.	Knotting.
Cement, linoleum.	Lacquer, pale gold.
Cement, Pettmans.	Lacquer, white.
Cement, shellac.	Methylated spirits.
Compass, spirit.	Nitre, sweet spirits of.
Composition adhesive.	Polish, French.
Engine jointing compound.	Varnish, shellac.
Fluid, jacks.	Wine, spirits of pure.

7. Inflammable Liquids and Substances—Flashing below 150° Fahrenheit but not Flashing below 73° Fahrenheit when Tested in Accordance with the Petroleum Act, 1926.

Classification

Inflammable Liquids and Substances—Class B

Endorsement of documents = " Inflammable—Class B."

Designation

Paint, enamels.	Varnish, black tar.
Paint prepared for use.	Varnish, bright work.
Polish, floor.	Varnish, carriage.
Polish, metal.	Varnish, chart.
Spirit, white.	Varnish, exterior.
Turpentine.	Varnish, interior.
Varnish, black, Brunswick.	Xylol.†

* Xylol is classified under the "Inflammable—Class B" when the flash point is known to be above 73° Fahrenheit.

† Xylol is classified under " Highly Inflammable—Class A " when the flash point is known to be below 73° Fahrenheit.

Digitized by Google

8. Dangerous, Corrosive and Poisonous Chemicals, and Dangerous Miscellaneous.

Documents must be conspicuously marked in red " Dangerous " and with the nature of the danger involved, such as " highly corrosive," " poisonous," " highly compressed," etc., and with the special precautions to be taken, if any, such as " must be kept dry," " must be kept cool," etc., and must show the description of the store and packages.

Packages must be conspicuously marked in red " Dangerous " and with the nature of the danger involved, and special precautions, if any, to be taken as in the case of documents above, also with a brief description of the contents. Particulars of the additional marking and labelling required by the railway " Classification of Dangerous Goods " must be obtained from the Officer i/c Transport or D.A.D.O.S. of the area. All packages must be handled carefully.

Designation	Nature of danger	Precautions
Section 1		
Acid, carbolic, liquid.	Poisonous, corrosive.	Avoid contact with skin.
Acid, hydrochloric (muriatic).	,, ,,	Avoid contact with skin and clothing.
Acid, nitric.	Poisonous, highly corrosive, may fire combustible matter.	Keep cool, avoid contact with skin, clothing and combustible matter.
Acid, oxalic, solid (or dry).	Poisonous.	—
Acid, sulphuric. Acid, chlorosulphonic.	Poisonous, highly corrosive, develops considerable heat with water.	Avoid contact with skin, clothing and water.
Ammonia, liquor, 0·880	Evolves asphyxiating gas, develops pressure if heated.	Keep cool, securely stoppered and apart from acids.
Arsenic, white.	Highly poisonous.	Dust must not be inhaled nor material allowed to become scattered about.
Ink, celluloid, black. Ink, celluloid, violet.	Corrosive.	Avoid contact with skin.
Solution, bronzing.	Poisonous, corrosive.	Avoid contact with skin and clothing.
Section 2		
Acid, oxalic, solution.	Poisonous.	—
Acid, phosphoric, syrupy.	Corrosive.	Avoid contact with skin.
Electrolyte. Electric batteries containing acid.	Poisonous, corrosive.	Avoid contact with skin and clothing.

Digitized by Google

Designation	Nature of danger	Precautions
Section 2—continued		
Paste, flux, soldering.		
Zinc, chloride, solution of.	Poisonous, corrosive.	Avoid contact with skin.
Steel, tincture of methylated.	Corrosive, evolves inflammable vapour if heated.	To be kept cool.
Dangerous Miscellaneous		
Calcium carbide.	Evolves highly inflammable gas in contact with moisture.	Must be kept dry. Keep apart from combustible stores.
Charcoal, pit.	Liable to develop heat in contact with moist air.	Keep apart from other combustible stores.
Matches, safety.	Readily ignited.	Avoid friction or blows. Keep apart from acids and combustible stores.
Matches, fuzee, safety		
Compressed gases in cylinders * :—		
Acetylene.	Highly compressed. Highly inflammable.	Must be kept cool.
Ammonia, anhydrous.	Highly compressed. Asphyxiating.	
Carbonic acid gas.	Highly compressed.	
Oxygen.	Intensifies fire. Highly compressed.	
Cinematograph films.	Readily ignited.	*See* paragraph **256.**
Oil dressed clothing.	Readily ignited.	—
Phosphorus, white, W, P,	Ignites spontaneously in contact with air.	Must be kept immersed in water.

* Cylinders not provided with a screw cap over the valve must be packed in a cover, cylinder (mat cover).

Digitized by Google

APPENDIX 7

(Referred to in paragraphs **210** *and* **212.)**

"A" AND "B" VEHICLES—ACCOUNTING INSTRUCTIONS

1. For accounting purposes "A" and "B" vehicles, their vehicle equipment, accessories and spare parts will be divided into the following categories :—

(*a*) Vehicles (including components which form part of the complete vehicle).

(*b*) Vehicle outfits, that is, the items of equipment and tools issued with each vehicle on the scales in **Tables 58–61** and M.T. Stores authorized in **Appendix 12.**

(*c*) Consumable stores, material and spare parts usually of minor value which are required for running repairs and cleaning purposes, and are in common demand.

(*d*) Spare parts and accessories not stocked under (*c*) above, which are required for specific repairs, and stores for modification under Lists of Changes, C.I.As. circulars, etc.

2. Categories 1 (*a*) and (*b*) above will be accounted for as ledger items, category 1 (*c*) as a non-ledger item, and 1 (*d*) by endorsement (*see* paragraph **14** of this Appendix).

3. Ledger items will be accounted for either on loose-leaf ledger sheets (A.F. G 3927) or alternately in A.B. 165, as directed by the local auditor. Units operating both "A" and "B" vehicles will use A.F. G 823 for both "A" and "B" ledger items. In addition, A.F. G 3928 (bin card) may be used as a store tally card, if so desired.

4. Ledger sheets will not be removed from the binders until the accounts for the year have been audited by the local auditor. When completed and "dead," sheets will be removed and filed for reference or reopening, if necessary. Unused sheets will be kept by an officer under lock and key. All sheets will, when opened, be initialled by the officer responsible for the accounts, who will satisfy himself that the sheet is actually necessary for recording additional transactions or for opening a new account, and is not in substitution for an existing sheet.

Digitized by Google

5. On first issue to a unit, on temporary issue or on issue as a permanent increase to establishment, each vehicle will be complete with all authorized components and full equipment according to the scales in **Tables 58–61.** The R.A.O.C. voucher (A.F. G 982 or 1092/3), detailing every separately accountable item, will either accompany or precede the vehicle to its new unit to enable the vehicle and its equipment to be checked by the consignee immediately on arrival. The authorized components will be detailed on the voucher " within the line," to denote that they are part of the vehicle, and not separately accountable items. " Within the line " means that the quantity of each item is shown, not in the quantity column, but in the designation column.

6. The vehicles (complete with components) and the various articles of equipment comprising the vehicle outfit will be accounted for on separate ledger sheets, or in separate columns of A.B. 165.

7. One copy of the R.A.O.C. issue voucher (A.F. G 982 or 1092/3), completed as in paragraph 5 of this Appendix, will be filed in the A.B. 5 of the vehicle concerned.

This voucher will constitute a permanent record of the equipment of the vehicle. Any subsequent authorized amendments to the scale of vehicle equipment will be recorded as they occur on a separate manuscript sheet, to be filed in the A.B. 5 behind the A.F. G 982 or 1092/3.

8. For purposes of control of vehicle equipment within the unit, one additional certified copy of the R.A.O.C. issue voucher (A.F. G 982 or 1092/3), will be maintained for each unit as an inventory of the vehicle's actual equipment, of which a portion may be in the driver's charge and a portion in unit store. This inventory will be corrected as necessary to show authorized additions or withdrawals of items of vehicle equipment, and the authority for such corrections, and will be endorsed with handing over certificates on changes of driver. These amendments and certificates may, if desired, be recorded on a separate manuscript sheet to be attached to the R.A.O.C. issue voucher.

9. To facilitate stocktaking, a recapitulation of all vehicle equipment issued on inventory to the vehicles of the unit will be kept in the stores office in the form of a schedule of inventories.

10. Vehicles on transfer from unit to unit, or unit to R.A.O.C. depot, will be complete with all authorized components and full vehicle equipment.

Digitized by Google

A.F. G 1033 will be used as an issue and receipt voucher, supplemented by A.F. G 1092/3 for vehicle equipment completed and despatched as in paragraph **5** above.

The W.D. number of the vehicle will be quoted on all vouchers and transit documents.

11. Ledger items of vehicle outfits required to replace unserviceable items, or losses, will be obtained on indent as necessary, and will be accounted for as shown in paragraph **14** (*b*), below.

12. All ledger and tally card headings will be in alphabetical order for " B " vehicles, and will show the past numbers and prices of the items concerned. For " A " vehicles the headings will be in order of part numbers.

13. The non-ledger items referred to in paragraph **1** (*c*) above will be accounted for as follows :—

(*a*) Units will open a separate series of issue and receipt vouchers, which will be distinguished by the prefix " N.L." Vouchers will be numbered consecutively throughout the year, beginning on 1st April annually. The stores will not be brought on quantity ledger charge, but for the purpose of unit control will be recorded on any suitable form, *e.g.*, A.F. G 3928 or A.B. 282 or 283. Such form will record the price of the article as shown on the priced voucher on which the stores are received from the R.A.O.C.

(*b*) Issue from a unit's stock will be made on the production of a requisition (A.B. 43) signed by the officer or N.C.O. i/c of the vehicles. The requisition will, when possible, show the W.D. number of the actual vehicle for which the stores are required.

(*c*) When issues are made, the necessary entries will be made on the form or tally card, and the requisition will then be filed by the storeholder to support the entry on the form or tally card.

(*d*) Issue and receipt vouchers for non-ledger stores, drawn and returned, will be priced by the R.A.O.C. The vouchers for stores received will be filed separately in a guard book, together with a covering list, on which the total value of each voucher will be shown. This list will be available to local auditors and C.I.As. representatives visiting the unit.

14. Spare parts and assemblies, classified under paragraph **1** (*d*) above, required to enable unit artificers to carry out

Digitized by Google

modifications to vehicles under L. of C., etc., and repairs to or replacement of unserviceable parts, will be dealt with as follows :—

(*a*) **Where stocks are actually held by units.**

Issue from unit store will be made on A.B. 43, but to obviate numerous daily ledger entries, the stores will not be struck off ledger charge until a recapitulation of A.Bs. 43 is made, at least quarterly, when the stores will be written off charge by an issue voucher (A.F. G 1033) on return of the replaced parts to the R.A.O.C., or by transfer voucher (A.F. G 1049) countersigned by the O.M.E. as evidence of condemnation, when the replaced parts are converted to scrap under orders of the D.A.D.O.S. at stations remote from an ordnance depot. The A.B. 43 will be attached to the A.F. G 1049 or A.F. G 1033.

When stores are written off charge as chargeable against the troops (*see* paragraph **30**), the relevant A.Bs. 43 will be attached to A.F. P 1925.

(*b*) **Where stocks are not held by units.**

The spare parts, also special stores required for modifications of L. of C., etc., will not be accounted for either in the ledger or on tally cards, but the voucher will be enfaced :—

Incorporated in vehicle No. by A.B. No. .

(i) Disposal of U/S and parts recovered after modification } *see* Issue Voucher No. .

(ii) Expended under ... (L. of C., C.I.A. modification, etc.)

In such cases the A.B. 43 will be enfaced " Not issued from stock."

Components and spare parts required to replace unserviceable items will be issued by the R.A.O.C. on receipt of the unit's indent without waiting for the return to store of the unserviceable items.

Receipt vouchers which have to be completed with particulars of the return of stores to R.A.O.C. will be filed in a " Watch Pad " until the unserviceable items recovered after modification under L. of C., etc., are available, when an issue voucher will be prepared if stores are being returned to the R.A.O.C.,

Digitized by Google

or a transfer voucher if stores are to be scrapped locally. The receipt vouchers will be completed with cross-references to the issue or transfer vouchers, and then filed with the other completed vouchers.

15. Petrol and lubricants (R.A.S.C. supply) will be accounted for in accordance with Supply, Transport and Barrack Regulations, 1930, **App. XXXV.**

16. A complete stocktaking of all stores in possession will be carried out once a year by the C.O. or by an officer deputed by him for that purpose. Continuous stocktaking, is however permissible in units where A.F. G 3927 is in use, provided that the whole of the stock on charge is verified in each year. Ledger sheets will be balanced on stocktaking only. The officer taking stock must initial the ledger sheet at the time of stocktaking.

The results of stocktaking will, in the case of units in which loose leaf ledgers are in use, be recorded on A.F. G 987, which will be available for inspection by the local auditor when required, and for rendering to him as in paragraph **17**, below.

17. Rendering of accounts.

Loose leaf ledger sheets (A.F. G 3927) will be kept as a continuous account, and will be audited locally or otherwise, under arrangements made with the local auditor. The vouchers and stocktaking sheets will be forwarded to him when called for.

Accounts (other than those referred to in paragraph **15** of this Appendix) which have been kept in A.B. 165 will be balanced and closed annually on 31st March, and will be rendered to the local auditor, together with the supporting vouchers, as soon after that date as possible.

Stores supplied in sets or as complete articles will be accounted for as laid down in paragraph **6** of this Appendix.

Digitized by Google

APPENDIX 8

(Referred to in paragraphs **211** *and* **212.***)*

"A" AND "B" VEHICLES—MAINTENANCE, REPAIR AND INSPECTION

Armoured Cars and A.A. Gun Lorries ... "A" Vehicles.
Load and Passenger-carrying M.T. vehicles (other than those maintained by the R.A.S.C.) } "B" Vehicles.

(1) **Maintenance and Repair.**

(*a*) The maintenance in running order of the above mentioned vehicles on charge of units by the replacement of damaged parts and the carrying out of such adjustments and repairs as can be effected by means of the tool equipment supplied with the vehicles or in possession of the unit is the function of the unit, but no adjustments or repairs must be undertaken by units which are, in the opinion of the O.M.E., beyond the capacity of the personnel and the tools available. The O.M.E. will indicate the type and kind of work that may be undertaken.

(*b*) All other repairs and adjustments, and the reconditioning of parts exchanged under (*a*) above, will be carried out by the R.A.O.C.

(*c*) Any breakdown or defect in vehicles still under guarantee will be notified by the C.O. of the unit to the D.A.D.O.S. of the area, who will forward the report direct to the C.I.A., Royal Arsenal, Woolwich, for necessary action, a copy of the report being forwarded to command headquarters.

(*d*) Bullet proof plates or bullet proof components of "A" vehicles will not be replaced by items made of other material without prior War Office approval.

After removal, such plates or components will be retained with the vehicle and must accompany it on transfer between units or on return to store.

In cases of doubt regarding the material of which a plate is made, reference will be made to the C.I.A., Royal Arsenal, Woolwich.

Digitized by Google

(2) **Inspections.**

(*a*) C.Os. of units will arrange for such periodical inspections by company, etc., officers as may be necessary to ensure compliance with sub-paragraph (*a*) of (1) Maintenance and Repairs, above. For these inspections, A.F. G 810 will be used in conjunction with A.F. G 3128.

(*b*) The O.M.E. of the area will arrange inspections as follows :—

" A " and " B " Vehicles :—

Twice a year in the unit's lines (one such inspection to take place at the end of the training season), a record being entered on A.F. G 3128 and filed in the vehicle log sheet file (A.B. 5). O.M.Es'. inspections of " A " and " B " vehicles will be arranged if possible to take place approximately four months before and four months after the C.I.A's. inspection referred to in sub-paragraph (*c*) below.

Opportunity will be taken by the O.M.E. to carry out a more detailed inspection of each vehicle when the vehicle is ordered into the ordnance workshops for repairs or modifications.

Reports of these more detailed inspections will be prepared in quadruplicate on A.F. G 843 or 844 and distributed as follows :—

(i) One copy to the C.O. of the unit, who will file it (after noting and taking any necessary action) with the records of the vehicle.

(ii) One copy to the D.A.D.O.S., who will treat it as authority for the issue of stores in replacement of assemblies, components, etc., found defective, or any other action necessary.

(iii) One copy to the C.O.M.E. of the command, who will investigate any points requiring special attention before forwarding the report, with his covering remarks, through the usual channels, to the Under-Secretary of State (M.G.O. 10), The War Office.

(iv) One copy to be retained by the inspecting O.M.E. as an office record.

When an uncommon defect comes to notice, the O.M.E. will prepare a special report which, together with his suggestion for its rectification or modification in design, will be forwarded as early as possible to the C.O.M.E. of the command for action, as may be considered necessary.

An officer of the unit will attend, when possible, inspections carried out by the C.I.A's. staff or by the O.M.E.

Digitized by Google

(*c* Headquarters routine inspection will be carried out as follows :—

" A " and " B " vehicles	Annually by the C.I.A's. staff.

The C.I.A. will notify commands annually of the dates on which his representatives will inspect " A " and " B " vehicles. In addition he will also inform them, six weeks before the dates fixed for inspections, of the number of representatives to be sent and of the rate of progress proposed, and ask them to arrange and submit a detailed programme of visits, and to inform the O.M.E. in order that he may arrange to be present.

In addition to carrying out the annual routine inspection referred to above, the C.I.A's. inspectors will carry out such technical inspections as may be considered necessary, in order to investigate technical defects, give close attention to recently mechanized units and maintain liaison with O.M.Es. The C.I.A. will from time to time report to the War Office (D. of M.) on such matters as the suitability of materials and design to service requirements.

(*d*) For inspections under (*b*) and (*c*), classification for condition will be carried out on the following basis :—

Class I.—Vehicles which are in good mechanical condition and require no immediate attention by either unit personnel or workshops, but which may have defects requiring to be kept under observation.

Class II.—Vehicles which are in reasonably good mechanical condition and/or require adjustment or minor repair within the capabilities of drivers or unit artificers.

Class III.—Vehicles which can be made fit for mobilization in approximately seven working days for " A " vehicles and three working days for " B " vehicles.

Class IV.—Vehicles which (*a*) require workshop attention in excess of the periods for Class III above, or (*b*) require workshop overhaul.

Class V.—Vehicles which (*a*) are recommended for replacement as uneconomical for repair, or (*b*) are obsolete but fit for instructional purposes.

APPENDIX 10

(Referred to in paragraph **222.**)

EQUIPMENT FOR A SCOUT REGIMENT

NOTE.—The signalling and telephone stores included under "Headquarters" are for issue for training purposes in the regiment as decided by the C.O.

In addition to the articles detailed in this Appendix, the following items to which the unit is entitled will be found in these regulations as follows :—

Detail		Page or paragraph
Accoutrements	page	90
Arms and their accessories	,,	103
Bars, suspension, for use with Thomas's splint ...	,,	112
Bicycles—		
Cleaning materials	para.	130
Tools for repair of	,,	131
Bugles and strings	page	114
Camp equipment	,,	115–139
Caps, knee	page	164
Harness and Saddlery—		
Marking of	para.	219
Preservation—materials for	page	68
Repair—materials for	,,	68
Scale of issue	,,	68
Sets, detail of	,,	68
Musketry instruction—stores for	para.	232
Rifles—		
Components for repair of	page	158
Tools for repair of	,,	159
Small arm ammunition	page	44
Small arms—		
Cleaning—materials for	para.	85
Lubricating—materials for	,,	85
Stable necessaries	para.	241
Stamps, etc., for marking purposes	page	163
Stretchers, ambulance and caps, knee	,,	164
Tents, for instruction	para.	240
Tools, opening packages	page	164
Trays, sand, modelling	para.	252
Vehicles—		
Brushes for painting	page	167
Vehicles, H.T.—		
Lubricating—materials for	para.	259
Painting—materials for	page	165
Vehicles, M.T.—		
Consumable materials	para.	210
Outfits for	,,	206
Painting—materials for	page	166

TABLE 1.—REGIMENTAL TRANSPORT

Designation	Each battalion	Remarks
Section C.2		
Bicycles	6 (*a*)	(*a*) 5 for orderlies. In addition 6 bicycles will be allowed for annual camp.
Section E.1		
Kitchens, travelling (*b*) (*c*)	1	(*b*) Complete with accessories, spare parts and vehicle equipment in accordance with A.F. G 1096 (inventory series).
Wagons—		
G.S. (*b*)	1	
Limbered, G.S. (*b*)		
Fore	4 (*d*)	
Hind	4 (*d*)	
		(*c*) *See* paragraph **247.**
Section E.3		(*d*) 2 additional vehicles, with harness, may be obtained on loan from the R.A.O.C. for use during the training season when hired M.T or H.T. vehicles are not utilized.
Jacks, lifting, G.S.	1	

TABLE 2.—SIGNALLING AND TELEPHONE EQUIPMENT

Designation	Each battalion	Remarks
Section A.1		
Belts, lineman	6	
Frogs, pliers, side-cutting, 8-in. ...	6	(*a*) With cases, compass, prismatic, "A."
Section F		
Pliers, side-cutting, 8-in. ... pr.	6	
Screwdrivers, perfect, 6-in. ...	1	
Section V.1		
Binoculars (or monoculars, prismatic No. 1, Mk. I)	4	
Stands, signalling telescope ...	4	
Telescopes, signalling, Mk. IV** ...	4	
Section V.2		
Compasses ,prismatic, Mk. VIII ...	2 (*a*)	
Watches, G.S.	2

TABLE 2—*continued*

Designation	Each battalion	Remarks
Section W.2		
Batteries, dry, torch, Mk. I ...	4	(*a*) 8 each "lamp, sig., daylight, short range," and 2 each "telephone set, D."
,, ,, ,, ,, ... (spare)	4	
Bulbs, 3·5-volt, P ... ... (spare)	4	
Cable, electric, D.2, Mark IV miles	2	
Cells, dry—		
X, Mk. II (*a*)	76	(*b*) Buzzers, practice, with or without lamps in lieu, in which case 2 cells, dry, X, Mk. II, will be required for each buzzer.
X, Mk. II (*a*) ... ... (spare)	76	
Detectors, Q and I	1	
Cases	1	
Reels, cable, No. 1, Mark II ...	8	
Staples, insulated saddle, ¼-in. ...	100	
Tape—		
Insulating, ¾-in. ... ... lb.	3	(*c*) Or two switch units, buzzer, 4+3.
Rubber, pure ... ... ,,	2	
Terminals, instrument, single, No. 2	20	
Torches, hand, Mk. I	4	
Section Y		
Apparatus, aerial, signalling—		
Ground indicators, B	1	
Strips, Mk. I*	12	
Bars, carrying, reel, cable, No. 1	2	
Cases, message book, Mk. V ...	8	
Counters, bone	24	
Flags, sig., army, Mk. II—		
Blue, small	32	
White, striped, small	32	
Poles, 3-ft. 6-in.	80	
Heliographs, 5-in., Mk. V	2	
Keys, dummy, sig., Mk. II(*b*) ...	4	
Labels, line, F	100	
Lamps—		
Reading	4	
Sig., daylight, short range, dismounted services	8	
Panniers	4	
Pins, earth, small	6	
Stands, lamp or heliograph, A, Mk. III	8	
Switch units, buzzer, 7+3 (*c*) ...	1	
Telephone sets—		
"D," Mk. III (or IV)	6

TABLE 3.—A HYGIENE COMPANY

Designation	Each Hygiene Company	Remarks
Section E.1		
Carts, water tank (*a*)	1	(*a*) Complete with accessories, spare parts and vehicle equipment in accordance with A.F. G 1096 (inventory series).
Section F		
Brushes—		
Paint, 1 knot, 3/0	4	
Stencil	2	
Distemper, 2-knot, fibre ...	4	
Chests, tool, filled, carpenters' (*b*)	2	(*b*) For detail of contents, *see* Appendix to Section F, Vocabulary of Army Ordnance Stores.
Grindstones—		
Field Service	2	
Hammers, masons', chisel point (*c*)	2	(*c*) Bricklayers' tools.
Irons, soldering, tinman's small (*d*)	2	(*d*) For metal working.
Levels, spirit, block, 18-in. (*c*) ...	2	
Planes, smoothing (*e*)	2	(*e*) For making latrine seats.
Pliers, sidecutting, 8-in. (*d*) pr.	2	
Rules, masons', plumb, 2-ft. 6-in. (*c*)	2	
Saws, compass (*e*)	2	
Stencils, sets (one large, one small, 1½-in. and 2-in. letters and figures) ... ... sets	2	
Trowels—		
Cross joint (*c*)	2	
Stop (*c*)	2	
Tuck (*c*)	2	
12-in. (*c*)	3	
Additional metalworkers tools—		
Chisels, cold, ½-in.	1	
Compasses, wing, 10-in.	1	
Files, second cut, half-round, 12-in.	1	
Hammers, carpenters', Warrington patt. 1-lb.	2	
Lamps, brazing, 1-pt.	2	
Pliers, gas, 9-in. ... ... pr.	2	
Punches, centre, 4½-in.	2	
Shears, tinman's, snip	2	
Vices, leg, 4-in.	2	
Carpenters' tools, additional to those in chests, tool, filled—		
Planes, jack	2	
Saws—		
Hand, 26-in.	2	
Keyhole	2	
Tenon, 14-in.	2	
Screwdrivers, London, 18-in. ...	2	
Spokeshaves, 3½-in.	2	
Squares, carpenters, 9-in.	2

APPENDIX 16

(Referred to in paragraph **222.**)

EQUIPMENT FOR THE INNS OF COURT REGIMENT

NOTES.—1. Material for repair, etc., of harness, saddlery and packsaddlery will be issued in accordance with paragraphs **216–220.**

2. Materials, etc., for machine guns—*see* Chapter **III.**

3. Materials for cleaning, lubricating and preserving small arms—*see* paragraph **85.**

4. Stamps, etc., for marking purposes and tools, opening packages for the unit are included in Table 5 of this Appendix.

5. Any other general scale in this regulation which is applicable and not included in this Appendix will also be issued.

CAVALRY

TABLE 1

Designation	No.	Remarks
*Section A.*1		
Bandoliers, 90 rounds	(*a*)	(*a*) 1 each all ranks.
Belts, waist—		(*b*) 1 each all ranks
B.E. leather	(*b*)	armed with a pistol.
Brown, M.S. (*c*)	(*a*)	(*c*) When stocks of belts,
Bottles, water, Mk. VI	(*a*)	waist, buff, M.S. and
Braces, with buckle	(*d*)	M.S., S.S. are exhausted.
Bugles	(*i*)	(*d*) 1 each haversack,
Carriers, water bottle, O.S.	(*a*)	O.S.
Cases, pistol, with leather loops ...	(*b*)	(*e*) 1 each cavalry sword.
Haversacks, O.S.	(*a*)	(*f*) 1 each whistle.
Helmets, steel, Mk. I	(*n*)	(*g*) 1 each rifle.
Knots, sword, buff, M.S.	(*e*)	(*h*) 1 each all ranks
Lanyards—		above rank of corporal.
Pistol	(*m*)	(*i*) 1 each trumpeter.
Whistle	(*f*)	(*j*) 2 each trumpeter.
Pouches, ammunition, pistol, with		(*k*) 1 each corporal and
leather loop	(*b*)	private except orderly
Slings, rifle, web	(*g*)	room clerk, farrier cor-
Straps, brown, mess tin, M.S.	(*a*)	poral and farrier.
Strings, bugle and trumpet, green ...	(*j*)	(*l*) 1 each all ranks
Tins, mess, M.S.	(*a*)	armed with a rifle and
Trumpets	(*i*)	5 per cent. spare.
Whistles, cavalry	(*h*)	(*m*) 1 each pistol.
		(*n*) Helmets, steel, up to
*Section B.*1		10 per cent. of full
Rifles, No. 1, Mk. III	(*k*)	peace establishment for
Bottles, oil, Mk. IV	(*l*)	those units which de-
Pullthroughs—		cided to retain them in
Single, Mk. IV " B "	(*l*)	accordance with A.C.I.
Gauze ... ... ieces	(*l*)	64 of 1930.

TABLE 1—*continued*

Designation	No.	Remarks
Section B.2		
Pistols, Revolver, No. 1, Mk. VI ...	(*a*)	
Protectors, hammer, Mk. II ...	(*b*)	(*a*) 1 each all ranks not armed with a rifle.
Rods, cleaning, No. 2, Mk. I ...	(*b*)	(*b*) 1 each pistol.
Swords, cavalry, No. 1, Mk. I* ...	(*c*)	(*c*) 1 each all ranks except drivers and signallers.
Scabbards, sword, cavalry No. 1, Mk. I*	(*c*)	
Section B.3		(*d*) *See* paragraph **241.**
Actions, skeleton, rifle No. 1	1	(*e*) For detail, *see* **Appendix 17.**
Aim correctors, No. 1, Mk. II	1	(*f*) 1 each mounted officer.
Rifles, No. 2, Mk. IV*	2	(*g*) With rifle bucket for ranks armed with a rifle.
Tools, cleaning—		(*h*) 1 each riding horse (except officers' horses) up to the total numbers allowed for annual training in the approved establishment.
Brushes	2	
Cleaners	2	
Rods, No. 6	2	
Section D.1		
Brushes, harness, hard	(*d*)	
Leggings, machine gunners	1	
Packsaddlery, machine gun, Lewis (*e*) set	1	
Saddlery—		(*i*) Signalling and telephone equipment.
Officers' (*e*) ... ... set	(*f*)	(*j*) For detail of contents, *see* Appendix to Section F, Vocabulary of Army Ordnance Stores.
Universal (*e*), (*g*)	(*h*)	
Buckets, signalling flag (*i*) ...	6	
,, tripod stand (*i*)	4	
Sponges, 1-oz.	(*d*)	
Section F		(*k*) For reconnaissance.
Bags, tool, filled farriers', No. 2 (*j*) ...	1	(*l*) To be hired.
Holdalls, saddlers' filled (*j*)	1	
Section V.1		
Binoculars (or monoculars, prismatic, No. 1A, Mk. II) (*k*)	4	
M.T. Supply		
Lorry, 3-ton (*l*)	1

APPENDIX 18

(Referred to in paragraph **220.**)

INSTRUCTIONS FOR THE CARE AND PRESERVATION OF HARNESS, SADDLERY AND PACK-SADDLERY

General

1. Leather used in the manufacture of harness and saddlery is of two general descriptions :—

Crop leather.—No grease used in the making, and intended for use where a considerable amount of stiffness is necessary, as in a rifle bucket or the seats and flaps of saddles.

Curried leather.—Produced by introducing grease composed of cod oil and tallow into the fibres of the leather after tanning so as to make it pliable. The various descriptions of this leather are known as " heavy," " collar," " bridle," " light hide," " shoulders " and " cloak hide." By far the greater quantity of leather used in the manufacture of harness and saddlery is curried.

2. Black saddlery leather only differs from brown in that the upper surface is dyed black.

3. In both crop and curried leather the smooth upper surface from which the hair has been removed is known as the " grain," the under surface as the " flesh."

Harness, Saddlery or Packsaddlery in Storehouses

4. It is most important that storehouses should be dry and well ventilated.

Leather becomes mouldy (mildewed) if stacked in a damp state, or if stored in damp or unventilated premises, and, if not attended to, the " grain " is affected. Mould can be removed by wiping or brushing off, and the ill effects, if taken in time, can be remedied by re-treatment with dubbing or tallow.

The temperature of a storehouse should be kept at about 60° F.

Digitized by Google

5. Leather stored in a draught or exposed to excessive light deteriorates.

The frames in which harness, saddlery or packsaddlery is stored should be provided with canvas as curtains and top cover. This will shield the leather from sun and excessive light, and also prevent the accumulation of dust.

6. **Method of storage.**—Particular attention must be given to the storage of each class of article to prevent it becoming unshapely or unsuitably bent.

Breechings.—If not kept flat, will be folded in bundles of three, one seat inside the other, care being taken that the seat of any breeching is not sharply bent.

Breast Collars.—Will be kept on the curve similarly to when in use, and in bundles of three, paper being placed between the breast collars to prevent the steel work blackening the leather. They must not be hung over poles or narrow wood bars.

Head Collars.—Will be tied by the tops of the heads only in bundles of six, and suitably hung in the frame.

Neck Collars.—Will be hung on the short bars across the frame.

Officers' Saddles.—Mark IV or V will be covered and encased with thin paper, secured with string, each saddle being separate and not packed one on the other. Saddles without pannels will be stacked in bays, end upwards, on the front arch, resting on paper, and then covered over with paper and canvas.

Universal Saddles, luggage Saddles, etc.—Will be placed with the rear points of the sidebars uppermost. They must not be laid flat on the shelves, nor must the flaps be spread or sharply bent in.

Officers' Wallets.—Will be packed in two or three pairs, the package being covered with paper.

Rifle buckets.—Will be hung up on poles or lines by their straps, and not stacked on each other; stacking has the effect of flattening them out of shape.

When they are packed as a temporary measure in vats or cases, the shape of each bucket must be preserved by filling it out with paper, straw or hay, and allowing sufficient space to prevent compression.

Wire Traces.—Will be kept straight.

Strapping, generally.—Will be kept flat on shelves, and not rolled or buckled. The heads and reins of officers' saddlery will be stacked and covered with paper.

Digitized by Google

Bits.—Will be kept separate from leather work. The bridoon bits of officers' saddlery must be laid out clear of the reins and covered with paper.

Metalwork, generally.—Will be kept from resting against leather, paper being introduced between the two materials when necessary.

Leather hides or pieces of hides.—Will be kept flat on shelves, but crop hides may be rolled in parcels of five. Pipe strips for re-covering wire traces will also be kept flat.

Textile Articles.—Articles liable to destruction by moth, such as saddle blankets, numnahs, numnah pannels, worsted girths, etc., will, when possible, be kept in the original bales.

Loose articles of this nature will be packed in cases lined with brown paper. The paper must be devoid of holes and tears, and folded over where the ends join in such a manner as to prevent any opening through which moths may penetrate. Packing needles or other instruments must not be allowed to penetrate the paper.

A sprinkling of naphthalene should be placed inside the packages but it is not necessary to smother articles in naphthalene.

The package must be kept in the light.

Preservative Treatment of Harness, Saddlery or Packsaddlery in Storehouses

7. Different methods of treatment must be employed for crop and curried leather. In the former it is important to preserve the stiffness, and the only treatment consists in applying tallow to the " grain " side to prevent cracking. In the latter it is important to preserve pliability, and this is done by applying dubbing, or tallow in the case of certain articles specified in this paragraph.

No hard-or-fast rule can be laid down as to how often leather should be treated with dubbing or tallow. This must be determined by its appearance and " feel."

The grain of any description of leather will give indications of whether re-treatment is neccessary by an obviously dry appearance. In articles or parts where pliability is essential, a further test is possible by passing between the forefinger and thumb and slightly bending the leather whilst so doing, when want of grease will be evident to the touch. The leather must not be sharply bent, as this is an unfair test likely to cause damage. It must, however, be borne in mind that articles

Digitized by Google

which are in intimate touch with the animal, such as the inside of a breast collar or girth, require treating more often than, say, the releasable strap of a wire trace, where a certain amount of stiffness is required for efficient use. Also articles made from leather known as "cloak hide," such as packsaddlery breechings and breast collars, saddlery wallet covers and gussets, may require more frequent treatment than other articles, as the leather is only dressed with grease, and a drier appearance is consequently presented than in other articles.

Grease such as dubbing or tallow is only a preservative when it enters the fibres of the leather. The best way to ensure this is to apply it when the leather is in a damp condition, for, as the moisture dries, the grease enters. But it must be remembered that only a certain amount can be absorbed, and therefore to use it in excessive quantities is both useless and wasteful, and only produces a surface to which dirt readily adheres.

The following articles should be treated with tallow :—

All articles of officers' saddlery, but seats and flaps of saddles on the smooth surface only.
Rifle buckets (on the smooth surface only).
Strapping or leather fittings of numnahs or numnah pannels.
Saddles, S.A. seats and flaps (on the smooth surface only).
V-girth attachments and straps.
The backs of packsaddlery pannels.
Leather parts of web girths.
Packsaddlery breast collars and breechings.
Caps, shovel.
Cases, spare barrel.
Neck collars—all parts except the lining.
Pads, luggage, R.H.A.
Saddles, luggage—seats and flaps on the smooth surface only.

Dubbing will be used on all articles other than these.

Method of treatment.—All dirt or dust should first be removed. The leather work should, wherever possible, be made slightly damp on both surfaces by sponging with cold water. Both surfaces should then be treated with the tallow or dubbing, as the case may be, which in the winter may be slightly warmed, if necessary.

Articles of crop leather (as they require treating with tallow on the grain side only) will only be damped on that side.

8. Metal parts.—Rust must be carefully guarded against by lacquering the iron or steel parts with varnish. If rust has formed, it must be removed before relacquering.

Digitized by Google

Articles of Harness, Saddlery or Packsaddlery in use

9. Handling and repairs.—Reasonable care must be exercised in the handling of articles of harness and saddlery.

Fractured arches or broken sidebars result when saddles are carelessly dropped or thrown about; a rifle bucket may damage the rifle itself if the body is bent out of shape; the usefulness of a collar pad is destroyed when its shape is altered by rough usage; the "throat" of a neck collar is weakened or even broken by unduly stretching the top—these are a few of the more common results of misuse.

Minor defects should be attended to at once—a serious repair is often thus avoided. Stitching should be tested from time to time, as the life of thread is shorter than that of leather. Making holes in strapping by any means other than that of the saddler's punch should be discouraged.

Girth straps require special attention, as the scoring of the leather between holes incidental to "girthing up" results sooner or later in the strap becoming unserviceable owing to a break in the material.

10. The scrubbing of leather is undesirable, as it rots the stitches. It should not be resorted to unless the dirt or grease is too thick to be removed by washing in lukewarm water and soap with a sponge. Soda in the water, or hot water, destroys the leather, and must not be used.

11. The drying of leather by the fire, or keeping it near fires or heating apparatus, destroys its durable properties.

12. Care and preservation.—Particular attention is drawn to paragraph **7** of this Appendix regarding leather and its preservation, which is also applicable to articles in use, except that dubbing will be used instead of tallow.

It is desirable that harness, saddlery and packsaddlery in continuous use by troops should, when the necessary facilities are possible, be laid by in dubbing for two or three days once in every six months, as in this way the life of the article is prolonged by the leather being fed. The whole of the strapping should be taken to pieces, and the leather damped and treated with dubbing, as laid down for new articles in store.

Soft soap is not a preservative in the same sense as dubbing or tallow. It should only be employed on articles in actual use, to produce mellowness in the leather. If applied too freely, it gives a dark appearance which is unsightly.

Saddle soaps commonly used to produce the same effect are not objectionable, provided that they are of good quality.

Digitized by Google

Soft soap should be used daily where articles are in constant use, to produce mellowness in the leather with subsequent pliability of strapping and preservation of the "grain." But, as with dubbing, it is only wasteful to use it thickly, and the best way is to apply it in a lather with a sponge.

Leather which has become wet in use should be treated with a light application of dubbing, to prevent a hard and stiff condition arising when it is dry.

Parts of harness or saddlery affected by sweat from the animal, *i.e.*, the inside surfaces of breast collars, leather girths, etc., should be sponged after use with clean cold water, and then soft-soaped to keep them pliable and soft.

When harness and saddlery is not kept in saddle or harness rooms but is hung in the stables, the leather suffers somewhat from the action of ammonia, but the six-monthly treatment with dubbing usually prevents any ill-effects that might arise.

13. Care of felt, web, rope and textile parts.—Saddle blankets, pannel numnahs, the lining of neck straps, etc., should, after use, be placed in the sun or wind to dry, and then beaten and brushed. Scraping the grease from felt must be prevented—it should not be allowed to become necessary.

Web girths may be scrubbed with clean cold water, and drivers' whips may be similarly treated, but scrubbing of rope work must be avoided unless absolutely necessary, as it tends to rot the rope.

14. Care of metalwork.—Bits, stirrups, etc., should be wiped dry after use and then rubbed over with an oiled rag. Much trouble will be saved if this is done before the rust has time to form. Before using the bit again, wipe the oil from the mouthpiece.

Grease must also be removed from the under surface of collar pads—this, if done daily, removes one of the causes of sore withers.

APPENDIX 19

PRESERVATION OF TRAVELLING KITCHENS

(*Referred to in paragraph* **247** and **Table 54.**)

General

1. Where possible, travelling kitchens must be kept under cover and, if necessary, rough shelters should be erected.

2. Every endeavour must be made to avoid rough roads when the kitchen is moved from one place to another.

3. They will not be used in standing camps or when other means of cooking can be utilized.

4. Before the rear portion of the kitchen is detached, the props must be fixed under the perch, whilst the iron stay should be placed under the back, to prevent the rear portion tipping up.

5. The carrying of unauthorized kit, etc., on the kitchen is forbidden.

Lifting the Boiler

6. The boiler bearer must invariably be used for lifting the boiler on and off the fire. On no account must the boiler be lifted by hand.

7. The greatest care must be exercised to ensure that the boiler is not empty when it is replaced on the fire.

8. Boilers must be carefully handled at all times.

Cleaning the Boiler

9. The boiler will be cleaned with hot water and soda after every meal, and dried with a dish-cloth. Emery cloth, bath brick, sand, etc., must *never* be used in cleaning the boiler.

Heating the Boiler

10. Before the fire is lighted, care must be taken that all the boilers are properly filled.

Only the minimum fire must be maintained, especially during travelling. After use, the fire must be completely raked out and the kitchen allowed to cool gradually. The kitchen must be covered up before becoming quite cold, in order to avoid condensation. Before being stored for any length of time, parts in contact with the fire should be coated with mineral jelly.

The fire must not be extinguished with water, except in cases of urgent military necessity.
